THE ANTI-CIGARETTE CRUSADE IN THE WEST

Just as the Southern States are leading the world in the matter of temperance reform, the Western States are acting as the advance guard in the campaign upon the pernicious cigarette. No fewer than eight states have declared through their Legislatures that the "toxin" must go.

In Tacoma cigarette smokers are arrested on the street; in Minnesota for the past fortnight it has been against the law to daily with tobacco in this seductive form, but the day before the law came into force a million cigarettes were sold in Minneapolis. Cigarette papers are contraband, and even tobacco cut so as to be suitable for cigarette smoking. If you cut your own tobacco to the required degree of fineness, and extemporize a cigarette of your own, you are liable to fine or imprisonment.

A MEXICAN HABIT. For a generation the West has been the stronghold of the cigarette. The cowboys, whose fathers in the East had smoked pipes, learned the cigarette habit from the Mexicans, and as everybody had yellow fingers, "it will tell you that 90 per cent. of juvenile delinquents are cigarette smokers; and if he cannot prove that the cigarette is a direct cause of crime, he will at least decline to take it for granted that it is not."

APPALLING CIGARETTE CONSUMPTION. The cigarette statistics of the United States are alarming enough. Exclusive of imported goods, our Southern neighbors consumed almost 600,000,000 cigarettes last year, an increase of 250,000,000 over the year before. If they all smoked cigarettes they would have to smoke eight cigarettes a day to consume five and a half million of the millions of cigarettes that are used. The daily allowance of the cigarette smokers in the United States is estimated at from fifteen to twenty cigarettes for each. Most men know that the practice of inhaling cigarette smoke—and the practice is practically universal among cigarette smokers—is harmful to the lungs and to the heart. If they all smoked cigarettes, they would have to smoke eight cigarettes a day to consume five and a half million of the millions of cigarettes that are used.

WISCONSIN THE LEADER. Wisconsin has of late years done a lot of thinking for itself, without paying much attention to conclusions elsewhere. To Wisconsin, therefore, fell the honor of striking the first match west against the cigarette smoker. Most States in the East had legislated against the cigarette smoker, but Wisconsin, however, meant business and didn't see that there was any might in the figure 15. It did not want the man of 17 to smoke cigarettes, nor even the man of 50. So the Legislature grappled with cigarettes and the result was that cigarettes were

The news boxes for the collection of ferry-fares seem to be the source of unending trouble. The Chamberlain's Office is the latest place where the boxes have made trouble and the result of that trouble will be an attempt on the part of the Treasury Department to have the Ferry Department pay \$400 or \$500 a year for the time spent in sorting, counting and collecting ferry tickets in the Chamberlain's office.

PUTTING BALL ON RUNNERS AN ART CAPTURE ANOTHER NINTH IS FATAL TO ST. JOSEPHS

Going This Properly One of the Things Which Makes Great Infielders. Ability to tag the runner is the one point that makes the difference between a good and a mediocre second baseman. Pennants have been lost in the past just because the man at the keyhole made lacked the instinctive sense of touching a base stealer at the right time. Any league manager will tell you that as many games are lost by the failure of a second baseman to "get" the runner as any other fielding error.

Other Games. BOSTON, Aug. 13.—(American League)—Boston batted two Cleveland pitchers hard today, winning 7 to 2. Chicago was a puzzle at all times to the visitors. It was the eighth consecutive victory for the locals. Score: CLEVELAND, A. B. R. H. P. O. A. E. B. NOTES OF SPORT. HICKEY GOES TO HAMILTON. Fred Hickey, the clever Toronto twirler, who is playing independent ball in and around Ontario this summer, is having success in his department of the Springfield, Ill., three league team for this season, winning 23 and losing 7, a pretty fair record, as he was pitched for all kinds of ball teams. "Hick" is on for Hamilton on Saturday to show that here that he has more up his sleeve than his elbow.

NEW YORK'S NEW PITCHER. ST. LOUIS, Mo., Aug. 13.—Two pitchers were added to the staff of the New York National League Club last night, according to announcement by Manager McCarroll. The new members of the team are Klawitter, of the Shreveport, La., club, and George Dally, of the Springfield, Ill., three league team. The price for the latter is reported to have been \$4,500.

NEWARK, Aug. 13.—The destructive fire at Hankin's Point was the talk of the baseball players of all the Eastern League teams and the players of the Toronto Club were the recipients of telegrams from the Rochester, Jersey City, and Newark players on losing their best pitcher. All their personal effects in the hotel base. Joe Kelley has a couple of new suits of clothes he had bought at the pleasure of wearing, and Wally had two valuable overcoats in addition to the said wardrobe. "I wish now I had brought some of it along with me."

The fond husband was seeing his wife off with the children for their vacation to the country. As she got into the train he said, "But, my dear, won't you take some folicin to read." "Oh, no!" she responded sweetly, "I shall depend upon your letters from home."

WILL TRAIN IN NEW YORK. NEW YORK, Aug. 13.—Stanley Ketchel, who will fight Sam Langford ten rounds at the Fairmount Athletic Club here on Sept. 3, is expected in New York before the week is over. Quarters have already been arranged for him in Westchester County, and he will start heavy training immediately when he arrives.

Langford has already gone into training at Boston and will not arrive here until a day or two before the fight. In anticipation of the demand for tickets, seats have been arranged about the ring to seat 2,000 persons, and it is expected that more than twice that many will try to get into the building. The club has 2,000 members on its rolls, but usually only about one-third of them witness a fight.

If Ketchel can get himself into the condition he was in when he whipped Jack O'Brien the last time, he will have a large following, but it is his condition is stale, most of the money is quite certain to be won by the dinky opponent. For that reason the training of Ketchel will be closely observed by sporting men and the men who have their money on him want to be certain that he is in prime condition when he enters the ring. Langford is said to be training faithfully, and while he has never tackled a fast, aggressive slugger of the Ketchel type, he is confident that his science and his heavy hitting will make the Michigan man slow up in four or five rounds.

Magistrate and Chief of Police on Stand Yesterday. MONTON, Aug. 13.—The inquiry into the Monton police court administration, which has been going on before Commissioner M. Frederickson since Monday last, was concluded this afternoon and adjournment made until next Friday at 11 o'clock when the report of the subject was very dear and the witnesses today were Magistrate Kay and George Hildout, chief of police.

Questioned by Commissioner Teed, Magistrate Kay said it was his rule and practice not to grant bail until adjournment of the case in court. The commissioner remarked that the liberty of the subject was very dear and the Magistrate ought to consider well before refusing to take bail when the prisoner was brought before him. George Hildout, chief of police, was called by Mr. Chandler and asked about the controversy between Kay and Sweeney at the time complained of. He said the altercation took place after the case was ended. Asked about the difficulty between the Magistrate and Attorney, witness said there was nothing out of the ordinary. He had seen the Magistrate in Frederickson's court until the lawyer apologized to him, but he had seen nothing of the matter since.

Deafness Cannot be Cured by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. P. J. CHENEY, CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

TREATING SICK BY WIRELESS IS THE LATEST ACHIEVEMENT. Crew of Light Vessel Commended Symptoms of Captain's Illness and Received Prescription.

NEW BEDFORD, Mass., Aug. 13.—Treating a sick man on board the lonely Nantucket lightship by wireless is the latest achievement of those aboard the ship. A few days ago, Capt. Doane, of the light vessel, was taken sick, and as there was no doctor on board there did not know just what to do. A wireless message from the medical expert on the lightship by the crew.

OTTAWA, Ont., Aug. 13.—Immigration figures for the month of June, and for the three months—April, May and June—of the current fiscal year, have just been completed. The total immigration to Canada for the month of June was 20,863, as compared with 15,636 for June of 1933. This shows 33 per cent. of an increase. Arrivals via ocean ports for the month was 11,661, as against 10,752 for the corresponding month of last year. An increase of 8 per cent. The first three months of States during the same month was 5,208.
