His Lordship deals with drunkenness in its relation to church and religion. He is not inchned to look upon it as a disease, nor as a weakness to be excused; in his opinion drunkenness is a sin just as theft and murder are sins. But he Anglicans Urged to Hold Lent also believes that the greatest offenders are not those who become victims of the liquor habit but rather those who lead their fellows into temptation and helps to the downfall of others.

Concerning the business of liquor selling, His Lordship believes that although this traffic may not be sinful in itself, it leads those who engage in it to a heedlessness of their own risk. What could be more effective or more pointed than the questions asked by

Coming as it does on the eve of a great religious campaign, and from one who is regarded not only as an earnest worker in the cause of religion, but as a man of sound common sense and of a clear realization of the conditions among which his people live, the message from Bishop Casey should undoubtedly prove an effective weapon in the hands of temperance workers not only of his own church but of all denominations.

MR. MCARTHUR'S HINTS

It is really very unkind for Mr. Douglas McArthur to leave the public in such a state of doubt as regards incidents and conditions referred to by him in his extended address on Friday evenself justified in saying, Mr. McArthur is going around with information concealed about his person which the voters of St. John would be very glad to share. At the gathering in the York Assembly Rooms with which this prospective mayoralty candidate opened his ampaign, the speaker said either too much or too little. He dealt chiefly with the water extension, and while this is now ancient history, Mr. McArthur touched on one or two points, which, if given in larger detail might still arouse some interest. He mentioned for instance that he had been offered a bribe of \$20 a day by some public for his influence one way or the other in the muddle which arose between the city and the contractors Whether this offer was made by, or on behalf of, the aldermen or for the benefit of the contractors, is not clear from the newspaper reports of Mr. McAr-

hur's speech. But if it was an aldermanic stunt, the full particulars should be made known and might possibly till have some influence on the coming election. A little later in the evening Mr. McArthur remarked that the suit between the city and one of the contracting firms had been settled and hat the report accompaning this setlement was to the effect that counsel for the contractors had received \$2,000 o act as they did in reaching an agreement. No doubt those legal gentlemen tho represented the contractors know hemselve whether this is the case and perhaps if given opportunity they may be inclined to either contradict or hesitatingly admit the acquisition of wealth so ascribed to them by Mr. McArthur. tractors hand it over in an effort to get out of the mess as best they could, or was the city so anxious for a settlement that it would stoop to bribery? consideration? These are points on which Mr. McArthur, who is certainly Bishop Casey notes that among to be commended for his policy of arthe liquor dealers and patrons ranging public meetings for the discussion of civic affairs, should dwell in other matters on which Mr. McArthur,

# The Evening Chit-Chat

"Which would you rather do this afternoon," I asked my guest, "go sleighing or to the theatre?"

"Really it doesn't make the least bit of difference," she answed sweetly. I knew it did. It always does when they sat that,
So I told her so.
"No, really. I'd love to do either. Just which will be most convenient,"

she protested.

And isn't she exasperating?

I suppose a guest who insisted on your disarranging and rearranging all your plans according to her likes and dislikes, would be very hard to get along with, although I can't say I remember ever having had that

But I do not think she could be much worse than the guest who will never express a preference.

The guest who does this may fancy that she is being accommodating, but as a matter of fact, as any hostess who has struggled with that ilk will tell you, she has merely succeeded in being exactly the reverse.

### BISHOP STRIKES AT LIQUOR TRAFFIC

Striking passages against the liquor traffic formed the leading feature of the annual pastoral letter of His Lordship Bishop Casey, which was read in the Roman Catholic churches of the diocese at yesterday's services. The Fishop gave a strong deliverance on the evils of the liquor traffic. After a searching consideration of the traffic, he struck hard on the liquor dealers, who do not observe the regulations and remember that they are Christians.

he atruck hard on the liquor dealers, who do not observe the regulations and remember that they are Christians.

Bishop Casey at first referred to various offenses, but the foreful part of his pastoral dwelt on drunkenness.

What the Irish hishops, once assembled in synod at Maynoch, said of their children at home, may be affirmed, with equal truth, of many other mations, and not least perhaps of our own country. "To drunkenness we may refer, as to the baneful cause, almost all the crime by which the country is degraded, and nearly all the poverty from which it suffers."

No words of ours add anything to such that its enormity is increased by the fact that it may become the mother of any or all of them. Indeed, we can scarcely consider drunkenness alone, for it is always followed by an unholy brood of crimes. In itself, it is but the starting point on the way to perdition. In its wake, follow idleness, carelessness, evil company, profanity, debauchery, gambling, destruction of property, ruin of family, disease, death in abandonment and impenitence. Is there a liquor dealer worthy of general esteem, one perfectly respectable in all his relations, one who fears not the anger of God, or the reprobation of wives and mothers? Is there one who has properly obtained a license and conducts his business to meet a legitimate want of the public, who is himself perfectly sober; who does not adulterate his goods or sell them to any one likely to abuse them; who permits no disorder, as blaspehmy or indeent language, in his store; who seeks not to evade the law; who incites no one to drink, least of all the young; who hever sells to minors; in a word, who is obedient to the civil laws and to the principles of Christian charity and fusices? Such a man is a liquor dealer worthy of respect, and one who has no cause from his business to fear the judgments of God or the reproaches of the public.

But there are others. There are others, who do not follow these wise rules, or act according to these Christian principles. Sad experiences and distressing statistics, are the proofs. We leave it to you to note them, and to form your own opinion of them. To themselves we would say: it is worth while to examine your conscience in the light of eternity, so soon to open before you. What will your criminal profits avail you, as balanced against your debts to God offended, to individuals destroyed, families desolated, society outraged? Would you save your souls? Get out of a business in which you are damning yourselves by damning your neighbors.

which you are damning yourselves by damning your neighbors.

In fine, to win in this arduous campaign against our vices, the grace of God is necessary. For this we must have recourse to prayer and the holy sacraments. God loves us with an infinite love, and desires nothing more recently then our eternal welfare. ardently than our eternal welfare.

In conclusion Bishop Casey referred to the Lenten regulations and urged the Catholics to prayer and self denial during this holy season.
