Hunt and Collins belong in Eastport: they had gone over the border several months ago when warrants were issued for selling liquor here, and since then they have been at Campobello. They recently secured a former shop and tocked up last week ready for business, even with the Scott Act in force. Sunday night's demonstration closed their shop for good, and it is rumored that the crowd may make a call tonight on another barroom farther down the island and break up the stock and

ST. PETERSBURG, Sept. 6-Private advices from Baku, today say that the

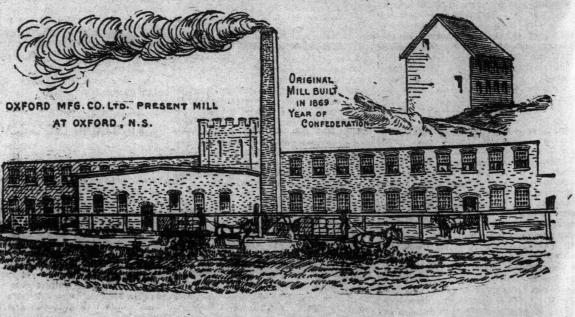

"Black Town" district of that city is still burning and also the works Balakhan, Bibiebat, Nomani and Sabunto. The losses amount to millions of roubles. Baku is overhung with dense clouds of smoke and the flashes of burning buildings illuminated the city all night long. It is alleged that the disorders were started by Armenians who disguised as soldiers fired on Russians and Tartars. The Persian Consul was asked to act as a pacificator but he replied that conciliation was mpossible with the Armenians who had killed 200 Persian subjects.

Walker was sent to the Isthmian republic to superintend an exploit mining property leased by private interests in Detroit and Pontiac. Before operations were well under way it developed that the validity of the lease had not been conclusively established. Walker disappeared it is alleged.
