WANTED. Energetic young salesman, good position for competent man. The Carrington-Paterson Mfg. Co. Ltd.

### OBITUARY.

Arthur L. Love. Mr. Arthur L. Love, son of David Love, died Saturday morning at his residence, Exmouth street. He was thirty-two years of age and leaves his wife and two small children besides his father, mother and four sisters, all of St. John. Mr. Love was connected with his father in the livery stable business. He had been ill for nearly a year.

Word was received Saturday morning of the death of Robert F. Peake at his home in North Sydney, C. B. Mr. Peake, who was a native of England, resided in St. John for many years and removed to Sydney about six years ago. He was an expert operator with the Western Telegraph Company and had to his credit several inventions for improving telegraphic apparatus. He had been seriously ill for several weeks with heart trouble and his death did not come as a surprise.

Mr. Peake is survived by his wife, formerly Miss Florence Hunt of this city, and two daughters, Mrs. John Stevens of Glace Bay and Miss Gladys, at home, who will have the sincere sympathy of many friends here in their bereavement. The telegram announcing the death of Mr. Peake, which was received by Mrs. Norman Gregory, a sister of Mrs. Peake, did not give any information regarding the funeral arrangements.

The news of the death of Mr. Peake was received in the city with much regret by a large number of friends by whom he was well known and held in great respect. He was operator with the Western Union Telegraph Company here from 1883 to 1887, and then went west. He remained in the

west about six months, and then removed to North Sydney where he was station electrician with the company.

Mrs. Lydia Smith. Albert, May 10.—The death of Mrs. Lydia Smith took place at Harvey this morning at 11 o'clock. She was the widow of Albert D. Smith of New Horton and a daughter of Abial Peck of Hopewell. She was a member of the Baptist church and is survived by two sons, Harold and Joseph, both at home, and two brothers, Gilbert M. Peck of Wolfville, N. S., and Clifford V. Peck of Hopewell.

### FUNERALS.

Mrs. Albert J. Gross. Many friends were present Saturday morning at the funeral of Mrs. Albert J. Gross. Services were conducted at 1:30 o'clock at her late residence 14 Chipman Hill, by Mr. Black. The floral offerings were beautiful and numerous. A large wreath was presented by the Post Office staff and a floral cross was received from Mrs. Gross' Sunday school class. There were also many flowers from relatives and friends. The body was taken to Hillsboro by train for interment.

## HEART WAS SO BAD Could Not Do Her Housework

Many women get run down and are unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung. To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. Thomas McVillie, Saltcoats, Sask., writes:—"I thought it my duty to write and tell you how much your Heart and Nerve Pills did for me. My heart was so bad I could not sleep, eat nor walk about the house. I could not do my housework at all, and what my husband could not do had to go undone. I had two small children depending on me besides three men to cook for, and I worried me to not be able to do anything. My husband had taken some of your pills some years ago, and insisted on me trying them, so I started, and before I had taken two boxes I was doing my own work again. Any one suffering from heart or nerve trouble should just give your pills a trial. If anyone cares to write me I will gladly give them all the information I know concerning your wonderful medicine."

Milburn's Heart and Nerve Pills are 80 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## A BIG BOUQUET OF NEWS FROM OLD COUNTRY

Working Class Wife More Efficient than Middle Class. Sister.

NOTTINGHAM FACES GREAT WATER FAMINE.

Vast Increase in Cost of Maintaining Battleships—Almost Realize Black Tulip Dream.

London, May 7.—That the working class of wife is a more efficient spender of the household accounts than her middle class sister was the contention of Miss Lucy Yates at a recent meeting of the Women's Freedom League. She declared that the principle of a woman having complete control of the house was always recognized by the working classes, but higher in society there came a sort of dual control. Through this responsibility the working wife learned administration, but by leaning on someone else the middle class wife never learned.

The wife, Miss Yates, said, should have complete control of the whole of the money set aside for household expenses, including housekeeping, dress and education. There should be no audit of her accounts unless by her request. She should be provided with a check book as more likely to prove successful than the provision of loose coins, which might be cajoled out of her purse by tempting bargains. The speaker declared that spending was a finer art and much more difficult than earning. Women should also choose the house, and it was high time, according to Miss Yates, that the women took over the spending of the money for the nation.

Face Water Famine. Nottingham and other cities face a serious water famine. The water of the Derwent Valley reservoirs, from which supplies are drawn, is speedily chocking up all iron pipes and boilers with metallic deposits. A committee of the Nottingham city council has reported that the continued use of the Derwent water would in a short time completely choke all the iron pipes in the city.

Sheffield, which draws its water from the same source, is not affected, because for thirty years the council has insisted on lead or copper pipes being installed. Leicester and Derby, which use galvanized iron pipes, are in the same position as Nottingham, where the people are already reverting to the old system of pumping water from sandstone wells. To replace all of the iron pipes and boilers would cost thousands of pounds.

The Derwent Valley Water System, which supplies, besides the four cities named, most of the towns in Nottinghamshire and Derbyshire, has already cost \$30,000,000 and is little more than half completed.

Cost of Battleships. The cost of maintaining a first class battleship has risen since 1904 from something less than a million dollars a year to nearly a million. The naval authorities are trying to reduce this heavy cost but it is never likely to reach the old figure. The use of oil fuel makes a large reduction possible in the stokers' department.

The eight Queen Mary cost nearly a million dollars more to build than the ten-gun Ajax, and is costing \$250,000 a year more to maintain.

Black Tulip. A black tulip, which has been a dream of horticulturists ever since Dumas wrote a mythical flower, has been very nearly realized. At the other show in Horticultural Hall a specimen of tulip has been shown which has such a dark plum color that it might at first glance be mistaken for a black rose. The growers declare they will be able to exhibit a specimen almost black next year.

Co-operative Stores. Stores on purely co-operative lines, managed by members of Oxford University, are to be opened next term in Oxford. They will be run on similar lines to the Co-operative Society at Dublin University last October, and which has proved a great success.

Sir Horace Plunkett, who has worked so hard for the principle of co-operation among the agriculturists and others of Ireland, and Lord Shaftesbury, are giving the movement their support. Management of the stores, however, will be in the hands of five senior and twenty junior members of the University. The principal burden of executive work will rest with the undergraduates themselves, from whom the idea springs. As at Dublin the stores will begin by stocking groceries, tobacco and similar commodities. The ambition of those responsible for the scheme is, first of all, to teach the main principles of co-operation by practical experience of its advantages. Principal among these will be less expensive goods and the distribution of profits among those who support the stores.

New Citizens. Twenty-one births were registered last week at the office of J. B. Jones, registrar of vital statistics. Fifteen girls and eight boys. Nine marriages were recorded.

"When I want a little extra money from my husband," remarked the humorist's wife, "I always get him to read some of his jokes."

"What then?"

"Why, I laugh heartily, and the rest is easy."

## PRINCIPALS AT OPENING OF SECOND TRIAL OF CHARLES E. BECKER.

Above are shown sketches made at the opening of the second trial of Charles E. Becker, former Police Lieutenant, on a charge of instigating the murder of Herman Rosenthal, a gambler. Mr. T. Meredith Blagden was the first witness accepted and will be the foreman of the jury. Mr. Manton and W. Bourke Cockran are defending Becker in his new trial.

## SEVENTIETH ANNIVERSARY CELEBRATED

Special services in St. John's Presbyterian church yesterday—Letter from first pastor.

Services in connection with the seventieth anniversary of St. John's Presbyterian Church, which were opened yesterday were well attended, the sermon at both the morning and evening meetings were preached by Professor H. A. Kent of the Presbyterian College at Halifax. A feature of the service was the reading of an interesting letter from Dr. Petheringham, who was pastor of the church for nearly a quarter of a century, and who is now living in California. The letter which was read by the present pastor, Rev. J. H. A. Anderson, at both services, referred to Dr. Petheringham's long connection with the church, the loyal support he had received from the congregation and concluded with a fervent hope and prayer that the church would continue to enlarge its work and usefulness.

Early History. The first pastor of the church was Rev. Robert Irvine, whose term of service extended from 1844 to 1852. Reference was made to the fact that of the members connected with the church during Mr. Irvine's pastorate three, William Crockett, David Mitchell and William Gray, were still members of the congregation. William Crockett attended the first service held within the walls of the church.

On Tuesday evening a public meeting will be held in the church to commemorate the anniversary of the first service preached by Rev. Dr. Irvine. At this meeting Rev. Mr. Anderson will give a historical sketch of the church and congregation, and there will be an address by Rev. J. H. MacVicar, moderator of the presbytery. This meeting will be further marked by the license of George W. Irvine, B.A., and the ordination of Grover Livingston, B.A.

At the service last evening Prof. Kent preached an eloquent sermon from the text of Matthew 24: "Go ye also into the vineyard and I will give you what is right." He said that the Bible contained two kinds of teaching, one that was local and ephemeral in its application, the other that was general and universal in application. Most of the parables of Christ carried a lesson and message that was independent of time and place, and applicable to all times. This parable of the laborers and vineyard showed that in the Christian view men should be paid in accordance with their opportunities and not in accordance with the amount of work they did. In accordance with the principles of the Kingdom of Heaven the laborers who had only worked one hour were paid as much as those who bore the burden and heat of the day. That was

## QUICK HELP FOR STRAINS AND SPRAINS WONDERFUL RELIEF IN ONE HOUR

Rare Herb and Root Extracts in this Liniment Give it Marvelous Power. RUB ON NERVILINE

You'll be astonished at the rapid pain relieving action of "Nerviline." Its effectiveness is due to its remarkable penetrating power—it strikes deeply, sinks to the very core of the trouble.

Nerviline is stronger, many times stronger, than ordinary liniments, and it's not greasy, ill-smelling or disagreeable. Every drop rubs in, bringing comfort and healing wherever applied.

You would scarcely believe how it has, however, been a heavy run of logs in St. John River Log Driving Company's booms.

Lesson of Parable. The lesson of the parable was of particular interest because there were those who were saying that society had developed to such an extent that it had outgrown the wage system and some improved system would have to be adopted if civilization were to be carried forward, and everybody given an opportunity to labor. One did not have to be a socialist to realize that the forces of society were cramped by the wage system, and that expanding civilization would require a system more in conformity with the principles of the Kingdom of Heaven.

The speaker also drew from this parable the lesson that Christian people having large opportunities, had also greater responsibilities, and should give more consideration to the work of carrying the message of the gospel to those who had not been called to work in the Master's vineyard.

There was a very general wearing of floral symbol and in churches there were special services and references made today by pastor in their sermons.

Rev. Frank Baird, M. A., of Woodstock, preached the baccalaureate sermon in connection with U. N. B. exercises at St. Paul's Presbyterian church this morning. "The Prophet Is Life" was the subject of his powerful discourse. Chancellor Jones and students, including coeds, marched to church.

## FRESHET AT HIGH MARK AT CAPITAL

Special to The Standard. Fredericton, May 10.—Fredericton has its first official observance of Mothers' Day today, a proclamation having been issued by the Mayor requesting observance of occasion by citizens.

There was a very general wearing of floral symbol and in churches there were special services and references made today by pastor in their sermons.

Rev. Frank Baird, M. A., of Woodstock, preached the baccalaureate sermon in connection with U. N. B. exercises at St. Paul's Presbyterian church this morning. "The Prophet Is Life" was the subject of his powerful discourse. Chancellor Jones and students, including coeds, marched to church.

The freshet has reached such a height that wharves used by passenger steamers are all under water. The steamer Victoria on Saturday tied up at public highwater wharf just below the highway bridge. Freight warehouses are all under water, the freshet being one of the highest in years. The water has not come up very much since Saturday afternoon, the rain not having amounted to very much. There
