IN REFUTATION
OF AN INCORRECT
STATEMENT

It has been brought to our attention that a report is being circulated to the effect that we have very much curtailed the manufacture of our products at our Halifax factory. In fact, we are told, it is being said that we are only maintaining warehouses at Halifax and St. John, at the present time, and that the manufacture of our goods for the supply of the provinces is being entirely handled by our Montreal works.

Being satisfied that this canvaas (for we feel it to be such) is not calculated to assist the development of our very extensive trade in the provinces, we wish to emphatically state that the situation is exactly the reverse of the one described. WE HAVE NOT CURTAILED AT HALIFAX, as a matter of fact the output at our Halifax plant has shown an increase every month this year as compared with the same months in any previous year. We are not only selling more of our numerous products in the Maritime Provinces this year than ever before, but we are also making larger quantities in our well equipped Halifax plant. If any of our maritime friends have any doubt about this, we trust the present statement will set their fears at rest.

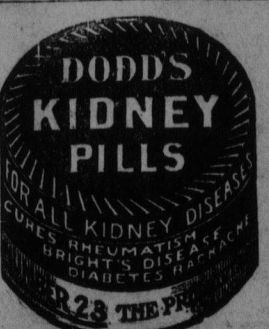

With regard to business in other sections of Canada, we would say that our sales to date show very large increases over any previous year.

ST. JOHN OFFICER UMPIRE
BASEBALL GAME IN ENGLAND

Lt. D. Lawrence MacLaren "Held the Indicator" Before Crowd of 10,000 Spectators at Game in Brighton—General Military Notes.

J. S. MacLaren, Inspector of cus-
toms, has received a letter from his son, D. Lawrence MacLaren, who is overseas with the 7th Siege Battery, now stationed at Roffey Camp, Hortham, England. Lieut. MacLaren speaks of the part of England where he is training as one of the most beautiful spots in the world, and says that he devotes a great deal of his spare time to motoring through the country. Speaking of the boys of the battery he says they are training hard, but still have time for recreation, and their chief sport is baseball. Lieut. MacLaren plays second base on the No. 7th team of which he is the captain. He states that this team is very fast and has already won a couple of good games. A few days before writing the Lieutenant was summoned to Brighton to umpire a game of ball between two teams, the score was 10 to 12, and it proved a rattling good game. To illustrate how the English people are taking to the good old game of baseball, he says that there were present no less than ten thousand people and all seemed very much taken with the sport. Speaking of the grounds on which the teams played he says they were as level as a billiard table, large and kept in excellent shape.

Changes in Fees.

It was given out at military head-
quarters yesterday that in the future constables who arrest deserters and suspects will not receive the old sum of twenty dollars, but will receive their expenses and a reasonable al-
lowance. Under the new regulations the regular medical examination fees have been reduced from one dollar to fifty cents.

Will Make Recruiting Tour.

Professor A. W. Thornton, Dean of the Department of Dentistry in McGill University, is expected to tour New Brunswick this summer recruiting Dr. Thornton is one of the best known dental authorities in the Dominion of Canada and is also a noted public speaker. Since the war commenced he has travelled over England, France and Belgium and has procured some excellent slides of those countries. He is a very able and instructive lecturer and will undoubtedly be greeted by large audiences. It was intimated some time ago that he was to be the paymaster of the Klites, but owing to the fact that his only son is at the front, and the doctor cannot be spared from McGill, he will devote as much of his time as possible to getting men to take his place.

Nauwigauk Boy Home.

Corporal J. D. Appleby, of Nauwigauk, has just returned from the front for a short furlough and is due back in Quebec on August 5th to return to England. He went away with Major Powers in the first contingent of sig-
nallers, and was transferred to the 12th Battalion. He has seen service in many of the battles of note. He has been recommended as signaller with the 23rd Battalion, and is considering at the present time whether he will accept the position.

Position for Wounded Soldier.

John Markey, who returned from the front last October, wounded, has been appointed clerk for Sunbury County. He was with the 71st when the war began and went into the war with the 12th Battalion. He was transferred to the Princess Pats and saw a great deal of action. He was wounded in three different places. He has not yet quite recovered but expects to be in a few months when he will join one of the battalions to go overseas and continue to do his bit.

Ready for Duty.

Sergeant Frank Wilson, writing to his brother, Thomas L. Wilson, Ches-
ter street, said that he expected to leave England at a moment's notice for the front. He said he recovered sufficiently from wounds to return to active duty in the trenches.

Must Be 21 Years.

It is notified for the information of all concerned that in view of the num-
erous requests being received from citizens of the United States for the discharge of relatives who are under the age of twenty-one, and who have enlisted in overseas units, it has been decided that no men giving place of birth or address of next of kin as being in the United States are to be enlisted unless they are of the age of twenty-one.

Transfers.
The following transfers were in or-
ders yesterday to the 11th Battalion, C. E. F., Private H. C. Williamson; to the 45th Battalion, Sergeant A. R. Roy.

Concerning Subscriptions.
It has been brought to the attention of headquarters, Ottawa, that units for overseas service are soliciting sub-
scriptions from the public for the purchase of articles of equipment, hand instruments, etc., and the creation of a regimental fund, and it has been re-
ported that some units have charged an admission fee to witness parades, etc., for such purposes. This practice does not commend itself and no ap-
peals for subscriptions will be per-
mitted except with the express permis-
sion obtained beforehand from the Militia Council, through the proper channel. Units of the Overseas Forces are supplied by the Department, with everything necessary for their equip-
ment, and it should not be necessary to appeal to the public for assistance.

Subsistence Allowances.
The amendments to the instructions governing organization and adminis-
tration, C. E. F. units contain a regu-
lation governing the subsistence of officers and N. C. O.'s at schools, in the future, to prevent double pay-
ment and no-payment of allowances for subsistence. It is to be distinct-
ly understood by all concerned that immediately an officer, N. C. O., or man of a C. E. F. unit leaves his unit to take a course at school or with an-
other unit, he is struck off rations or subsistence. The officer in charge of a school or course will have as many officers, N. C. O.'s or men as possible placed in messes and placed on ra-
tions. For those officers, etc., who can-
not be placed in quarters and messes, he will obtain authority for subsis-
tence allowance to be authorized the rate of pay as follows: Officers not supplied with rations or quarters, \$1.50; officers supplied with rations, but not with quarters, 75c a day; N. C. O.'s and men supplied with ra-
tions and not with quarters, 30c a day.

NO BUSINESS DONE BY
COUNCIL YESTERDAY

Only three of the city fathers were
on hand when the time came for the
meeting of the council in committee
yesterday at noon. Commissioners
McLeod and Russell being the ab-
sentees. An informal talk over several
subjects took place but no business
was transacted. Commissioner Fisher
brought up a claim of Frederick
Driscoll for compensation for injuries
received by falling through an open
coal hole on Prince William street
last February. It was decided to get
the written opinion of the recorder
as to the liability of the city.
Commissioner Fisher referred to
correspondence he had had with the
I. C. R. in regard to a new bridge over
the tracks at Wall street and said the
railway engineers suggested a walk on
the outside of the present bridge but
he wanted to see a new bridge built.
Commissioner McLeod referred to
the car cleaning plant of the I. C. R.,
and claimed that the way it was run
at present it was a nuisance. The
mayor also spoke of the smoke nu-
isance and said he wondered if any-
thing could not be done to remedy
matters. Commissioner Fisher sug-
gested smoke consumers but no action
was taken.

WHAT THE Y.M.C.A. HAS
ACCOMPLISHED IN CHINA

J. Howard Crocker Delivered Address to Business Men Yesterday Afternoon.

About forty-five of the leading busi-
ness men of the city gathered at the Y. M. C. A. yesterday at one o'clock to hear J. Howard Crocker tell of the work which the Y. M. C. A. is doing in China. There are 170 secretaries working in China under the direction of the International Committee, be-
fore the war 20 of these were from Canada, at the present time only 11 Canadians are engaged there. The Y. M. C. A. being unoppositional, has been able to reach a great many whom the churches had not. The churches to a large extent had only been able to reach the lower classes, but the Y. M. C. A. had reached the educationalists and the politicians of that great empire and was doing a wonderful work in moulding thought along Christian lines. Mr. Crocker's own work was along the line of physical training and he had been very successful. It was not the policy of the Y. M. C. A. for the western secretaries to do the work themselves, but to educate and supervise the work of native secretaries.

He referred to the importance from an economic point of view, of Canada having friendly relations with China in order to get a share of the trade with that country. Germany and the United States had cultivated trade relations with the result that they had a large proportion of the foreign trade, but there was no reason why Great Britain and Canada should not get their share. He thought that the government of Canada should differen-
tiate between the Chinese students and coolies. In the United States they welcomed students to their colleges and these men went back and told what a great country the United States was, while we in Canada had not a single Chinese student.
