

STOCK HOAX

Instance already mentioned of the method of measuring a man's kick when you hit him on the knee illustrates how this is done and it is quite easy to prepare a graphic chart by keeping a daily record of the patient's progress.

Man Must Cure Himself.

Every trick of the trade must be used to encourage the soldier to stay with his treatment, for it is the very essence of this work that the man cure himself. It is the voluntary exercise of the disabled function that restores it and the worker's duty is merely to keep the man at it. Maintaining a lively interest in the scale which measures the movement is a very successful method.

It will be seen that the nature of the volunteer's duties will require the utmost freshness and spontaneity of spirit. It will not do for a third man or woman to sit down with a patient and try to rouse his enthusiasm over the humble occupation of wiggling his big toe. It will require a very special kind of cheerful, lively interest in the re-education classes of the worker to keep the patient busy for a whole hour at any such task as that, hence it is contemplated that the volunteer workers shall devote not more than one hour a day to their task.

Measurements, competitions, sympathy, encouragement and all such means must be employed by the workers to cause the patients to take an interest in their tasks, and not the least of Dr. Pitt's difficulties is that of making the exercises themselves sufficiently interesting for this to be possible.

Hart House is still in a rather unfinished state, but Lieut.-Col. Vincent Massey, who has taken a deep personal interest in the re-education classes, has instructed that the portions of the building required for this work be finished off as quickly as possible.

With the British Army in France and Belgium, Aug. 28, via London.—(By the Associated Press).—Hard fighting followed the British attack yesterday afternoon on several strong positions in the neighbourhood of Langemarck, and at the latest reports the British have pushed their line forward slightly on a narrow front southeast of that place. Two determined counter-attacks were delivered by the Germans against the British in the neighbourhood of Inverness Copse last night, but in each instance the attacking forces were thrown back.

The enemy artillery was very active in the early night on the British left flank, next to the French. The Germans put down a heavy barrage, but no infantry action followed.

London, Aug. 29.—The official report from British headquarters in France tonight reads:

"A heavy rain has fallen today; the wind at times attained a gale force. No infantry action has taken place. Despite the rain and strong wind our airplanes maintained contact with our infantry throughout yesterday's operations northeast of Ypres and successfully engaged the enemy's troops and transport with machine gun fire. All our machines returned."

GREATER PART OF TEUTON FORCES NOW OPPOSING BRITISH, CANADIANS, FRENCH, PORTUGUESE AND BELGIANS, THOUGH ARMY ON RUSSIAN FRONT IS LARGE.

New York, Aug. 29.—While the fighting forces massed by the Central Powers on the Russo-Romanian front is larger than was generally believed, the greater part of the German army is on the western front, according to a statement issued here today by the official Bureau of French information.

"According to official information received in Paris from the Russian general staff," says the statement, "there are actually on the Russo-Romanian front 137 enemy divisions, consisting of eighty-eight German divisions, forty-one Austro-Hungarian divisions, four Turkish divisions and four Bulgarian divisions. Of the eighty-eight divisions, twelve only are active divisions, twelve only are made up of Landwehr and Landsturm formations.

"This represents a more considerable force than was generally believed, but is nevertheless much inferior to the German force on the western front, which includes the divisions, of which more than eighty are opposed to the French."

COURT ROOMS CROWDED AT HARRIS MURDER TRIAL

Many Witnesses Are Examined—Evidence Along the Lines of That Submitted at the Preliminary Inquiry—Will Hold Session This Evening.

Great interest is being taken in the trial where John O'Brien and Everett Carland are charged with the murder of Robert Harris Jr. and at both morning and afternoon sessions of the supreme court yesterday the courtroom was crowded with interested spectators. The case is being tried by His Honor Chief Justice McKeown.

Dr. W. B. Wallace, K. C., with J. M. Treuman are appearing on behalf of the crown, while Daniel Mullin, K. C., and E. J. Hennelly are for the defendants. The twelve jurymen selected are as follows: Orlando W. Chesley, E. Roy Robertson, William A. Rowley, Fred Brydon, Frederick Emery, William C. Bowden, Frederick French, William Levi, M. T. Cochran, James Kelly, Harry Short and James Hisey.

The first witness called yesterday morning was Dr. J. L. Kenney, the coroner, who conducted the inquiry into the death of Harris. He gave evidence of viewing the body, and identified the signatures of witnesses who gave evidence at the coroner's inquest. He testified that he had seen pictures of the prisoners being implicated in the murder of Harris, but did not caution the defendant when they were giving evidence, although he knew that the men were under arrest.

Miss Hilda Williams.

Miss Hilda Williams, who was the stenographer at the inquest, was called and testified that she had not been sworn before taking the evidence. She identified documents produced in court and said she witnessed the defendant sign them.

Mrs. Harris.

Mrs. Lucy Harris, mother of the deceased, was called and described the attire her son wore on the night he was assaulted. It was 12:15 o'clock that night when he arrived home, bleeding and vomiting. Her son told her that he heard steps coming out of an alley on Rockland Road and that he was about in the act of turning he received a blow on the head. He thought it was with a piece of lead pipe or something heavy and that she picked him up.

Dr. G. O. Baxter.

Dr. G. O. Baxter was called and described the injuries and said that the wound could be occasioned by a stone or brick held in the hand of a person or thrown.

Alphonus Harris.

The evidence given by Alphonus Harris, brother of the deceased, showed that the place where the assault took place was about opposite Cranston Avenue. When his brother arrived home witness said he was weak and sick.

F. S. Walker.

Francis S. Walker was then called. He said he saw O'Brien, Carland and five or six more standing at the corner of Broad street some time after the plumbers' strike was called.

In answer to Dr. Wallace the witness said he saw Mr. Bruce talking to a man named Lambert and the defendant Carland near the Opera House in Union street on the night when Harris was hit.

Afternoon Session.

Mr. Walker's cross-examination by Mr. Mullin was continued when the court resumed at 2:30 o'clock. Directing the attention of the witness to the request from the Plumbers' Union, Mr. Mullin asked if the request had ever come before the Master Plumbers' Association. Witness said that the request came before the meeting and the association refused to take the terms. The matter of increased wages was left with each plumber individually to deal with. Witness was not aware of any letter being sent to Mr. Shea of Fredericton relative to a journeyman plumber named Murray. He did not know that W. J. Crawford may have written the letter. Witness heard that he did. Witness does not know that the letter requested Mr. Shea not to employ Murray.

Witness said that he once saw Carland passing through the guard room at police headquarters, but was not

\$1,200,000 SUITS BEFORE ADMIRALTY

Cases Grew Out of Collision Between Steamers Heathcote and Kelbergen.

Special to The Standard.

Montreal, Aug. 29.—The admiralty division of the Exchequer Court was engaged today in hearing a suit in which one side claims \$1,000,000 and the other side \$200,000. The Dominion Shipping Company, Limited, owners of the steamship Heathcote, sued the steamship Kelbergen, and an action against the Kelbergen was instituted.

The collision occurred during dense fog. The Heathcote was bound from the west coast of Newfoundland to Sydney with livestock for the Dominion Iron and Steel Company.

PRESIDENT TO FIX PRICES OF COPPER

Producers Say Metal Should Not Be Sold for Less Than 22 1/2 Cents.

Special to The Standard.

Washington, Aug. 29.—Following the precedent set in naming a coal administrator, it was reported today that the President is bent upon naming a copper administrator also. A tentative price of 20c per pound is that at which it has been suggested the President should fix for copper purchases. The 20c price is considered too low by copper producers. A hearing will be granted informally to some of the copper people before final action is taken. The opponents of this price have urged that copper should not be sold less than 22 1/2c per pound. It is believed the President will fix a price some time this week.

FIFTEEN YEAR OLD GIRL AN ELOPER

Flees from Campbellton with Man Posing as Commercial Traveller.

Moncton, Aug. 29.—An eloping couple from Campbellton, who were in Moncton for a short time this week, made their get away before the police could lay hands on them. The police received a telegram stating that a man who posed as a commercial traveller had eloped with the fifteen year old daughter of a wealthy resident of that town last Sunday afternoon. The couple left on the south-bound Ocean Limited train, the telegram stated.

Enquiries were instituted at once by the police here and they learned that such a couple had stayed at a hotel but had left the city several hours before the telegram was received.

HUN ATTACKS DEFEATED IN HEAVY STORM

German Reserves in Langemarck Region Manifest Signs of Exhaustion—Wuerttemberg Division Weak.

London, Aug. 29.—(Via Reuter's Ottawa Agency)—Reuter's correspondent at British headquarters reports the heaviest kind of rain and furious wind are hampering operations. Notwithstanding the rain the Germans twice last night attacked our line, astride the Ypres-Cenine road, coming in big waves of assault through the Inverness copse. Both attempts were heavily punished.

Enemy Exhausted.

"We are getting plenty of evidence of the exhaustion of the enemy reserves in this area, says the correspondent. The Wuerttemberg division that has been exposed to continuous fire since the middle of August has been weakened beyond all fighting effectiveness. The enemy is now forced to employ inadequately rested and refitted troops."

"The flying corps during the last week co-operated in attacking more than 700 batteries, in the destruction of twenty-eight gun pits, caused 300 explosions in ammunition dumps, brought down sixty-eight enemy aircraft and drove down ninety out of control."

EARL GREY

NO MORE

Former Governor General of Canada Passes Away at Howick House, Northumberland.

London, Aug. 29.—Earl Grey, former Governor General of Canada, died at six o'clock this morning at Howick House, Northumberland, after a long illness. The funeral will be held at Howick on Saturday, when also a memorial service will be held in London.

Lord Strathcona described Earl Grey as "a statesman and a philanthropist in the best sense." His active career comprised not only the administration of the government of Rhodesia, but also the representation of the British government as Governor General of Canada, but industrial and financial operations in the development of South Africa. One of the most noted movements to which he gave his support and in which he was prominent was the Public House Trust Company of England, an enterprise designed to supplant the ordinary saloons for the sale of intoxicating liquors by the establishment of well conducted public houses and to discourage the use of intoxicants by the substituting of tea and coffee.

Born November 28, 1851, Alfred Henry George, the fourth Earl Grey, was educated at a public school in Northumberland and for six years, beginning in 1880. On the death of his uncle, General Sir Charles Grey, in 1884, he succeeded to the title and took his seat in the House of Lords. For two generations previously the Earls Grey had been prominent in the political affairs of the British Empire. His grandfather had been prime minister of England.

CAPT. ABRAM DALEY LOSES HIS LIFE

Skipped of Schooner Raeburn Drowned in Charlottetown Harbor.

Charlottetown, P. E. I., Aug. 29.—Captain Abram Daley, 50, of Schr Raeburn, was drowned here today. He and one of his crew, Malcolm McPherson, were in a motor boat bringing round an anchor chain. The boat was overloaded and sank. Neither of the men could swim. McPherson kept himself afloat with a piece of board until rescued. Daley leaves a widow and three children.

PRESERVED FRUIT ADMITTED FREE

United States Will Permit Americans to Return from Canada with Canned and Fruit and Vegetables.

Washington, Aug. 29.—Americans returning from Canada may bring free of duty \$100 worth of canned goods and other foodstuffs under a ruling announced today by the Treasury department. The ruling was designed especially to meet a situation which had resulted from the summer stay in Canada of numerous Americans, many of whom cannot afford winter supplies of fruits and vegetables while there.

He said he attended several meetings of the union prior to the evening when Harris was hurt. "We there heard different members of the union say that Harris was 'scabbing.' He thought Carland made such a statement on one occasion. He did not hear John O'Brien say anything concerning Harris. Mr. Bruce was among the speakers at the meetings of the union. He recalled hearing Mr. Bruce say that different persons were scabbing. He didn't remember who they were. Carland said that Harris was a big, strong fellow and if any one said something that he did not like he would be apt to fight. Mr. Bruce said to keep after Harris and to go where he was working. Witness went with Carland and O'Brien and others to the army where Harris was working, but they did not see him. He never heard Harris called any other names. He thought he saw the name of the deceased on the blackboard.

To Mr. Mullin the witness said that when Mr. Bruce was speaking at the union rooms he said "Use no violence." In fact he told the men on several occasions to use no violence.

Judge Ritchie.

Police Magistrate R. J. Ritchie was the next witness. He identified the record of the evidence at the preliminary inquiry. John M. Wilson was one of the witnesses at the preliminary inquiry and the magistrate identified the record of his evidence.

Examined by Mr. Mullin the magistrate said that he did not allow the prisoners to be taken before the coroner to give evidence. The prisoners were in goal by virtue of his order. HOW LADY HONORED MEMORY OF SON

Fallen Hero Fond of Children and Little Ones Entertained.

Fredricton, Aug. 29.—A Woodstock lady who recently received word that her son had made the supreme sacrifice on the battlefields of France, sent a donation to the Children's Home in this city, the children there having a day's pleasure in memory of her son who was extremely fond of children.

The several children who were entertained were taken to the Experimental Station where everything was done by the manager to make the little ones happy. Supper was served and ice cream and candy and the little ones returned to the city early in the evening tired but happy. Needless to say the thoughtfulness of this loyal mother was deeply appreciated not only by the children but by the officers of the society.

FREDERICK T. WALKER BECOMES NEW YORK MANAGER OF THE ROYAL BANK OF CANADA.

Special to The Standard.

Montreal, Aug. 29.—Frederick T. Walker, who shortly to assume his new duties as manager of the New York agency of the Royal Bank of Canada, entered the service of the bank at Moncton, N. B., his native town, in 1890, and nine years later was sent to British Columbia, where he served the bank at various important points until he was appointed assistant manager of the Vancouver branch in 1907, where he became manager.

He remained there in that capacity until 1912, when he came east again to take the management of the head office branch of the Royal, which he filled until the New York office became vacant a short time ago.

The fire department was called out at eleven o'clock yesterday morning by an alarm from box 23 for a slight fire on the roof of the McAvity Foundry, Water street.

IRRITATED SKIN—ECZEMA

HEAT IRRITATES the skin, and sudden changes of temperature tend to set up skin troubles, such as eczema or piles.

Because Dr. Chase's Ointment positively cures eczema and piles there is no place where it is better known or more fully appreciated than in the blacksmith shop, machine shop or foundry.

Relief from the itching and stinging sensations, which make these ailments so annoying, comes almost as soon as the ointment is applied, and cure is the result of a little patient use of this healing, soothing treatment.

But you must be sure to get the genuine Dr. A. W. Chase's Ointment, for imitations and substitutes are sure to disappoint.

James Campbell, a striking plumber, was the next witness. He recalled a meeting at the rooms of the union on the evening that Harris was assaulted. Witness accompanied five others from Harris being hurt. O'Brien said something about having heard how Harris was getting along.

Cross-examined by counsel for the accused witness said that he did not know in which direction Carland and O'Brien went after they left the party at the corner of Union and Charlotte streets. Carland and O'Brien were correctly reported and substantially the same as his evidence this afternoon.

The magistrate said that he did not know of any one except himself, or a judge of the supreme court, who could release the prisoners once they were released. He didn't know whether a coroner could compel the sheriff to do so. When he was solicitor-general and the inquest operated as a preliminary, the coroner had such power.

He didn't know whether a coroner could compel the sheriff to do so. When he was solicitor-general and the inquest operated as a preliminary, the coroner had such power.

James Campbell.

James Campbell, a striking plumber, was the next witness. He recalled a meeting at the rooms of the union on the evening that Harris was assaulted. Witness accompanied five others from Harris being hurt. O'Brien said something about having heard how Harris was getting along.

Cross-examined by counsel for the accused witness said that he did not know in which direction Carland and O'Brien went after they left the party at the corner of Union and Charlotte streets. Carland and O'Brien were correctly reported and substantially the same as his evidence this afternoon.

The magistrate said that he did not know of any one except himself, or a judge of the supreme court, who could release the prisoners once they were released. He didn't know whether a coroner could compel the sheriff to do so. When he was solicitor-general and the inquest operated as a preliminary, the coroner had such power.
