ROSSLEY'S. The popularity of Carroll and Ellor, Irish musical comedy artistes, now appearing at Rossley's was proven last night, when so many patrons turned out to witness the show. The laughs and applause showed how much the audience enjoyed the performance. The musical comedy was rich in wit and humour, and the female impersonations of Carroll had the crowd in roars. This act is away ahead of anything seen here before. The singing of Mr. Carroll is positively marvelous. Miss Glorie Ellor wore the most delightful costumes ever seen on any stage. Miss Ellor has a great personality and from the moment she steps on the stage, she has her audience with her. There will be a big contest to-night, with lots of fun. The vaudeville and contest will not take place until the stores are closed to give all a chance to see the best entertainment ever witnessed in the city.

#### Constantinople Want the British

The "Saturday Evening Post" publishes two articles smuggled out from Constantinople by a lady correspondent who has been there ever since the Allied fleet commenced hammering at the Dardanelles. The previous article showed this lady to be on intimate terms with the German authorities at Constantinople and evidently friendly to their cause, but after reviewing the situation thorough ly, she plainly states that the Turks have little or no use for their German masters. She quotes a German officer as saying-"Of course we do not like to admit it, but long as we have been here, it must be confessed that these people like the English better than they do us." And again she tells how a citizen told her in a confidential whisper that a great majority of the people are merely holding their peace and enduring present terrible conditions in the certainity that things will be straightened out upon the arrival of the British "who are just." In concluding the article the correspondent says: - "Constantinople presents the unique spectacle of a besieged city, three quarters of the inhabitants of which are praying for the success of the besiegers."

#### CANADA'S DEBT NOW \$500,000,000

OTTAWA, Nov. 9.—Canada's debt is now almost up to the half billion mark. On the 21st of October it stood at \$492,528,492, an increase of \$7,683,-458 during the month and of \$139,853, 093 during the past twelve months. During that period the war expenditure has been approximately \$105,-000,000. The increase in the national debt during the twelve months, due to the excess of domestic expenditure over revenue, has been, therefore

about \$35,000,000. The revenue for the first seven months of the present fiscal year has been \$87,683,848, an increase of nearly seven millions as compared with the corresponding period of last year. War expenditure for the seven months has totalled \$53,359,158, or at the To-day an aged women of the West rate of about seven and one half millions per month.

> At the present time, however, the monthly expenditure is up to considerably over ten millions per month as the supplies furnished by Great Britain to the Canadian troops at the front are not included in the monthly financial statement given out today. An accounting for ten of millions of dollars worth of British supplies will have to be made later.
