

THE ACADIAN.

WOLFVILLE, N. S., AUG. 10, 1888.

Summer School of Science.

The second session of the Summer School of Science was held in Pictou, commencing on Monday, July 23d, and ending August 3d.

To the Officers and Members of the Summer School of Science:

In behalf of the citizens of the town of Pictou the town council extend to your Association a hearty welcome.

The aims of your Association are such as should command the interest of all who desire to see the advancement of scientific education.

The Council further express the hope that your disinterested efforts may meet with deserved success, and that your session in Pictou may not only be profitable but pleasant.

Dated at Pictou this 23d day of July, 1888.

Prof. F. H. Eaton of the Normal School delivered the inaugural address.

On Tuesday the regular work of the Session began. There was much interest manifested in all the subjects taught.

The forenoon was devoted to lectures and such practical work as could be done in-doors.

On Tuesday the regular work of the Session began. There was much interest manifested in all the subjects taught.

itive state. The two hours spent in this underground prison, revealed many things described in books; but seen only by a few.

They became a thousand times more real as we saw them for ourselves.

Judging from the area of coal outlined—first, by the sump traced for 2,000 feet descending the inclined plain; second, by the cross section one mile in length with a thickness of 14 feet, and a prospect of its continuing to an unlimited depth—there is no fear of the supply becoming exhausted.

The teachers who have attended this School for the past two years have been stimulated in their efforts to prepare for the successful teaching of the elements of natural sciences and have added considerably to their fund of knowledge.

Much has been done to popularize scientific studies, and the teachers who have availed themselves of the instruction and stimulus this school imparts, have taken a step in advance of those remaining at home.

The teacher who spends a portion of his small salary and vacation in the pursuit of knowledge to fit him to do better work in his school shows a commendable zeal and deserve recognition of trustees.

To the following list, several names were added before the close of the school:

INSTRUCTORS AND OFFICERS.

A. H. McKay, A. B. B. Sc., F. S. Sc. (Lond.) Zoology.

A. G. McDonald, A. M., Land Surveying, and Field Work.

F. H. Eaton, A. M., Physics.

E. J. Lay, Esq., Botany.

John Stewart, M. D. (Edin.), Physiology and Hygiene.

Dr. Weddell, Geology.

A. J. Pines, A. B., Mineralogy.

A. Cameron, Esq., Astronomy.

J. B. Hall, Ph. D., Secretary.

J. D. Sprague, Esq., Asst. Secretary.

ANNIE F. McDONALD, Truro.

M. Barclay, Tatamagouche.

J. D. Sprague, Liverpool.

James McCann, River John.

Alie I. Church, Bedford.

Barbara McKay, Heathbell.

Bessie Tupper, Truro.

Florence Tupper, Truro.

Louie A. McKen, Dartmouth.

Lizzie Olding, Woodburn, Pictou.

Susan Creelman, Upper Stewiacke.

Minnie Harris, Pictou.

Maggie Crighton, West River.

H. H. McLeod, Lunenburg.

Lucella Lynch, Upper Canada.

Martha Kirkpatrick, Shubenacadie.

Y. M. C. A. Work.

Quite a large number of delegates arrived in Amherst by the eastern and western bound express trains on Thursday, the 26th ult., to discuss the various phases of the work of the Young Men's Christian Association of the Maritime Provinces.

At 3 p. m. the preliminary meeting of the Convention was held in the splendid new hall of the Amherst Association. This service was one of prayer and praise, and was led by Capt. Masters, of Moncton.

The Convention joined heartily in singing that grand salutatory hymn—

"All hail the power of Jesus' name; Let angels prostrate fall; Bring forth the royal diadem, And crown him Lord of all."

The chairman made a few opening remarks, in which he said, that he, for one, was glad to be present.

Several faces he recognized, others were entirely new to him, but he hoped that all would be amply repaid for coming in the interchanging of salutations and ideas.

At 3:45 the nominating committee returned to the hall, and their report resulted in the election of the following officers:

President—W. D. McCallum, Truro.

Vice Presidents—John McKeen, Amherst; R. N. Beckwith, Halifax; A. Stockham, Moncton; J. O. Miller, St. John; W. McKie, Charlottetown.

Secretaries—Henry Thackston, Halifax; H. Y. Corey, St. John.

Business Committee—S. E. Whitton, Halifax; John McKeen, Amherst; Geo. McDonald, New Glasgow; to which were added—(Rev.) W. H. Matthews, Mt. Allison University; and John Brown, Westville.

Devotional Committee—H. H. Dixon, St. John; Daniel McLeod; J. B. Robb, Amherst; R. Norman, Halifax; P. F. Moriarty, New Glasgow; to which were added—(Rev.) P. G. L. Harris, B. A., Mt. Allison University; Chas. Leigh, Jr., Charlottetown; and A. E. Chapman, Dalhousie University.

It would take up too much space to give a detailed account of all the meetings. Open air services were held every evening at 7 o'clock, and on Sunday afternoon at 3:30 o'clock.

These were services of special interest and the wholehearted singing of the delegates, as well as their words of warning and invitation must have impressed those who listened that there is a reality in religion.

A welcome meeting was held in the Baptist church (as were all the evening meetings), on Thursday, when addresses of welcome were delivered by J. McKeen, Esq., Pres. of Amherst Association; Rev. D. A. Steele, M. A.; and Hon. Hiram Black; and responses were given by W. D. McCallum, Esq., Pres. of Convention; Rev. Geo. Bruce, St. John; and Dr. Kelly, of McGill University, Montreal.

The regular morning prayer meetings (7 a. m.) were seasons of blessed influence.

As the regular morning prayer meetings were a valuable and comprehensive paper was read by the Rev. Wm. Brown, of Windsor.

The subject was "The Word of God—its place and authority in our work." On Friday evening a large audience assembled in the Baptist church to hear the subject, "The religion of Christ for young men—its reality—its benefits—its results," discussed by Rev. Chas. Hole, L. D., of Halifax.

The Rev. Dr. who is the rector of St. Paul's church, kept his audience in rapt attention throughout his discourse which was eloquent as it was exhaustive.

At the close of the address, Mr. Harding, of Washington, D. C., gave a "talk" to business men. Mr. Harding, who came as the representative of the International Committee, gained for himself the lasting friendship of the members of the Convention by his practical talks and affable manners.

The Convention was specially favored in having the services of the Hon. and Rev. B. Moreton, who gave several very interesting and powerful Bible readings.

At the church services in Amherst and at several of the surrounding villages members of the Convention conducted the services on Sunday. At 9:30 a. m., in Association Hall a consecration service was held, conducted by Rev. Mr. Gerritt.

At 2:30 p. m., a mass meeting of the Sunday-schools was held in the Baptist church. At 4 o'clock, in same place, a men's meeting was conducted by Mr. Dixon, St. John, while at same hour in Y. M. C. A. Hall, a women's meeting was held, led by Mrs. Dixon. At 8 o'clock, farewell services were held in the Baptist and Presbyterian churches, and the closing exercises of the Convention took place in the former church at 10 o'clock.

This closed one of the most successful Conventions ever held in the Provinces, and the members departed to their several homes praying that God would pour out his convincing and converting grace upon the young men of Amherst.

The next Convention will meet (D. V.) at Moncton, N. B. Com.

DOCK BLOOD PURIFIER.

I have been sick with Liver and Kidney Complaint and night sweats, for over two years, most of the time confined to my bed.

A doctor attended me who failed to cure me; and after trying many patent medicines that were recommended for the above complaints, which failed also, I was advised to try Doctor Norton's Dock Blood Purifier; three bottles has entirely cured me, and I now enjoy the best health I have for twenty years.

Wm. S. D. MACOMBS, Avondale, Hants County May 20, 1888

Superintendent White, of the Maritime division of the Canadian Pacific, corroborates the estimate that the surplus of wheat in that province will reach 30,000,000 bushels this season.

A big stock of Stone Batter Cocks at B. G. Bishop's.

Temperance and Politics.

Mr. EDDON.—At the recent meeting of the Montreal Convention, the report of the committee on Political Action urged the friends of Prohibition to organize to secure the election of Prohibitionists as our representatives.

This principle of the resolution was to be applied in Municipal and Local as well as Dominion elections, and the branches of the Alliance were urged to see that it became effective in each county.

In the good sense of this resolution lies a great power. All true temperance workers can now be united in political action.

The existing parties will pay deference to the voice of 200 delegates of the temperance societies from all parts of the Dominion and the patriotic temperance men will be anxious to follow a course so wisely selected by their chosen leaders.

Even in this county there are many who feel that the temperance sentiment could be more powerfully exerted at the polling booth and at the nomination of the candidates than by means of petitions to an elected body.

Some perhaps too harshly condemn our present caucullers for their actions in temperance measures.

It is not my desire to censure public servants who have tried to do their duty, but I am sure that the Councillor who does not vote for the appointment of an Inspector when three-fourths of his electors petition for it, does not represent those electors, and if he does not, this autumn is the time to secure one who does.

Surely good men are not so scarce that we must choose second-rate men to support the wrong.

But it is now time to be up and doing. Halifax county, Ontario, has already organized its forces. Let King's county not be backward.

Temperance men may now work with great effect. But we must organize. Let the King's County Temperance Alliance, or some other strong temperance body, at once, appoint a meeting in some central place for the county and let each Local and Division be requested to send delegates so as to make the meeting representative.

All we need is to get our forces in order. If the temperance element of this county speaks with one uncertain voice, the power of nominating our representatives is in their hands. Only let us exert our power from the first and we need not be afraid of the ram power.

This meeting could appoint a committee of four or five in each ward to make a wise selection of candidates. Candidates would become acquainted with the requirements of our platform, and the prohibition element be worked up and the question not evaded. All we need is to begin now, and let our power be exerted at once.

Thanking you, Mr. Editor, for space I am, Yours truly,

F. D. MUMFORD, Wolfville, Nov 11th, '87

THE "DAISY" CHURN.

People buy the "Daisy" Churn because it makes a superior quality of butter and fully ten per cent. more of it than any other churn in the world.

And because it saves half the labor and is perfect in material and workmanship and is so easily cleaned. And because it is so simple and durable. And because it is warranted to give perfect satisfaction.

Over 80,000 sold in the United States last year. Try one and see for yourself.

For sale by D. MUMFORD, Wolfville N. S., July 12th.
