Perhaps one reason why no formal announcement is made is to be found in the unsettled condition of affairs in Quebec. Dr. Ross still holds office, or did hold it up to yesterday, and the ingenuity of tory politicians seems to be devoted at present to the discovery of some meas whereby he may be able to keep the control of affairs long enough to enable the elections to be brought on. The difficulty in the way of his doing so is the very prosaic one of shortness of cash. If the Quebec treasury were not depleted, there would be no necessity for Dr. Ross to resign, but the trouble is there is no money to do anything with, and a tory in power without money to lavish is a revised and improved edition of Tautalus, or whoever he was, who was immersed in cool water to his lips and yet unable to assuage his thirst. It is even said that money is lacking for the order any administrative service, and that Governor Masson absolutely refuses to sign special warrants until he is satisfied that his advisers possess the confidence of a majority of the assembly. Under these circumstances there does not seem to be rounded to more more and made to the more more to the learned from Databatics of the read that gove and that Governor Masson absolutely refuses to sign special warrants until he is satisfied that his advisers possess the confidence of a majority of the assembly. Under these circumstances there does not seem to be rounded to more more and more intended and more read from Databatics of the read the mount into more would be not necessity for Dr. Ross to resign, but the trouble is there is a paper published in St. John called the Sun, and it claims to have the right to run the Coryism of New Brunswick as it sees fit. Not having been asked to Mr. Temple's convention it bolts the nomination has been made for York by the Tories. This is truel but one has been made for the product of the product of the product of the product of the pr majority of the assembly. Under these circumstances there does not seem to be much left for Dr. Ross to do except to resign, but here comes up the question of his successor. Constitutional usage points to Mr. Mercieras the man to form the new government, but the Tories never follow constitutional usage when it suits

The latter is said to Have absolutely declined the position; the former is said to be willing to take it if he can have a new election at once. As the case stands it appears to us to turn upon this: If Governor Masson will consent to send for Judge Augers to form a new government and grant him a dissolution at once, then Dr. Ross will resign and the Quebec provincial elections and the general Federal elections will be brought on at once and together. This seems to be the readiest way out of the difficulty in which the Tories find themselves in Quebec.

THE LABOR MOVEMENT.

Nothing in recent American politics has excited more interest than the vote of Henry George at the New York mayorally election. We have already given our view as to whatit signifies, and we refer to the subject again principally to say that a similar view seems to be held by the principal journals on both sides of the Atlantic, although the more conservative regard the fact that the labor element and the land question have entered so strongly into American politics as a very dangerous matter and call out for the American people to put the new factors down. But this is very much easier said thandone. The ballot, it vieresal education, and practically universal suffrage, give movements of this kind a significance on this side of the Atlantic which the majority of people of Europe do not appear abie to compression. The laboring man is not an are invaluable as a family medicine, and of the laboring man is not an are invaluable as a family medicine, and provides a family medicine, and provides of the laboring man is not an are invaluable as a family medicine, and provides and the provides of the laboring man is not an are invaluable as a family medicine, and provides and the provides and the many quaits, partiages, ducks and other birds had been tiling stories one night recently of an elling stories one high treently of high many quaits, partiages, ducks and other birds had been tiling stories on a stranger with a term and the lame of the double barrelled in stranger, and the fact that the side of blackbirds. by different physicians, but became so by different physicians, but became so weak that I could not go up stars without stopping to rest. My friends recomended ne to try Ayer's Sarsspartila, which I did, and I am now as healthy and strong as ever.—Mrs. E. L. Williams Alexandria, Minn.

It would be impossible for me to describe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians and tried a great many. kinds of medicines, but never obtained more than temporary relief. After taking Ayer's Sarsaparilla for a short time, my headache disappeared, and my stomach performed its duties more perfectly. To-day my health is completely restored.—Mary Harley, Spring-field, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilia. It tones and invigorates the system, regulates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered.—H. D. Johnson, 383 Atlantic ave., Brooklyn, N. Y.
