

"On the contrary, I am but too pleased and honored to sit next to my future Queen," replied the old general. "But why should I be afraid?" Assuming a woebegone expression the little Queen replied: "Because all my dolls have the measles—they're all of them down with it!" Everybody in the room turned at the sound of her childish treble.

Provide pure water for bees. If you fail they will find it, even if they must go to a stagnant pool. Direct sunshine falling upon the hive is not only hard on the bees but frequently melts the wax.

Millionaire Clergyman.—The Rev. Francis Paynter, of Guildford, was the only millionaire clergyman in this country. He gave directions that he should be buried in a wicker coffin in his grave at Stoke-next-Guildford, and that his body should be borne to the grave by his own men-servants, each of whom should receive £1 for such service.

Seventy-Five Years with One Firm.—Mr. George Ashworth, of Rawtenstall, Lancs who has just completed his eighty-sixth year, has worked continuously for Messrs. Hardman Brothers at Newhallhey Woollen Mills, Rawtenstall, for a period of seventy-five years, and is still in the same employment. He is now engaged as foreman fulling miller at these mills.

Swallowed Her Diamonds.—Mrs. Lizzie Good, of Oakland, California, swallowed two diamond earrings to recover possession of them from Dr. Adam Lyon, to whom she had entrusted them as security for £25—fees for medical services. Dr. Lyon had the woman arrested, but she was released later on the advice of his attorney, who said it would be impossible to convict her of a crime.

Married to a Bunch of Flowers.—In India, with its teeming and poverty-stricken myriads, parents often find it no easy task to marry off their daughters, for a wife has to be bought by the suitor. Widows are cheap, and when a father finds his daughter getting on in years, he makes a widow of her by the simple process of marrying her to a bunch of flowers. When the flowers are dead, she is technically a widow, and can be offered at a bargain price.

Operation on Leopard's Tail.—A novel surgical operation has just been performed on a leopard in Paris. The animal recently, while eating his dinner, also bit his tail; gangrene set in, and it became necessary to amputate a portion of the tail to save his life. The leopard was lassoed, thrown on his back, a piece of soft wood was given him to gnaw, and while held by ten men the veterinarian proceeded with the removal of a portion of the tail and cauterized the wound. The animal roared considerably, but the operation was declared successful.

A Club for Dandy Dogs.—There has just been opened in one of London's fashionable streets a toilet club for dogs. Here the pets of the smart set can have their hair dressed and their coats trimmed to immaculate perfection. For three shillings they can be bathed. If their teeth are imperfect they can be stopped or extracted, and if their claws protrude too far they can be daintily manicured. Thus groomed according to the Mayfair mode, their coats put on, and their goggles attached, these exquisite creatures are taken for their afternoon motor ride.

Some persons have periodical attacks of Canadian cholera, dysentery or diarrhoea, and have to use great precautions to avoid disease. Change of water, cooking, and green fruit, is sure to bring on attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

BACKACHE!

The Remedy Free Until Cured.
No Drugs, Plasters or Liniments

Nearly every disease gives its first warning through the kidneys or the nerve and muscular centre at the "small of the back." Of all first symptoms this is the most important, but unfortunately the most neglected. There is hardly a case of breaking down of the general system or of any of the organs which does not give decided and repeated warnings through lame or weak back. Never was the old proverb, "A stitch in time saves nine," more truly exemplified than in this instance. Could I apply my remedy to every man with lame back in its first stages, all the deplorable consequences this symptom warns you of, such as Debility, Loss of Manhood, Varicocele, Rheumatism, Lumbago, Kidney, Liver and Stomach troubles, etc., could be easily prevented and cured. The causes of backache are so many and varied that I have not space to discuss them in this advertisement, but this you may be sure of; some part of your organism is in distress, and is calling for help—calling for strength. Plasters and liniments are at best only a temporary relief. The cure must be more deep-reaching than this. The natural remedy is Electricity. I have applied it successfully for nearly forty years, and I have a very simple proposition to make to all sufferers, It is this: I will give you my world-famed Hercules

Dr. Sanden Electric Belt Free Until Cured

You need not pay one cent in advance or on deposit. When cured pay me the usual price of the Belt—in some cases as low as \$5. If not cured or satisfied, return the belt and the transaction is closed. You yourself will be the judge. Discount for cash if you prefer to deal that way.

There is no deception about this offer. It is a straightforward business proposition. From my vast experience in treating this trouble I have gained a knowledge which enables me to locate the cause almost invariably when the symptoms are described, and to apply the current so as to reach the seat of the trouble and restore health to the afflicted part.

FREE BOOK. Write or call at once—to day—and let me assist you to health and happiness as I have so many thousands of others. I will at once arrange to give you a suitable Belt on the terms above mentioned, and will send you my book on medical electricity, profusely illustrated, free, sealed, by mail. Send for this book. Every man should read it. Address,
