

- Devil's Coach-horse Beetle—(continued)
 attack on a human finger, 107-9
 biting powers of, 106-8
 colour of, 104
 courage of a, 103-9
 method of scaring its foes, 105
 preparing for battle, 104, 105
 prey of, 110
 tail glands and volatile fluid, 105
 ugliest British insect, 104
Dicranura vinula, 32
 Dor-beetle, 170
 "parasites" of, 170-2
 Dor-beetle's Mite, 170
 in winter, 173
 mating of, 173-5
 method of travelling, 173, 174
 Earthworms and Darwin, 55
 Flea—
 anatomy of, 143, 146-8
 cat, 141, 149
 development of, 148
 dog, 141, 149
 eggs of, 148
 fowl, 146
 hedgehog, 143-5
 hedgehog, curious habit of, 144, 145
 human, 142, 143, 148, 149
 lancets of, 147
 larvæ of, 148
 lateral compression of body, 146
 power of slipping through closely-pressed fingers, 146
 pygidium of, 147
 Fleas, 141
 and their hosts, 141-3, 149
 degenerate flies, 141
 jumping powers of, 143
 monkeys immune from, 142
 origin of parasitic habit, 141
 Fly—
 Golden-eyed, 14
 Hover-, 76
 Ichneumon, 38
 Ichneumon and Magpie Moth, 158-60
 Lacewing, 13
 Ruby-tailed Cuckoo, 166
 Fly—(continued)
 Tachina and Magpie Moth, 157-9
 Fritillary Butterfly, High Brown, eggs and caterpillars of, 101
Gamasus coleoptratorum, 170
 Golden-eyed Fly (see Lacewing Fly), 14
 Gooseberry Moth, 150
 Green-flies—
 and Hover-flies, 76, 77
 eggs of, 79
 reproductive powers of, 78, 79
 Hole in a willow stump, 112, 119
 what came out of the, 113
 Hover-flies—
 and mint, 77
 to encourage in gardens, 84, 85
