

21. All field notes must be clearly and distinctly made in pencil on the spot, no additional notes should be entered with the original notes after the day on which the latter are written. Field notes should not be inked or changed in any way; copies of them may be made in ink and reduced levels entered in ink.

22. All plans and profiles must be plotted so that the end of the survey line (whatever may be the direction of local sinuosities) nearest the Pacific Ocean shall be at the left hand of the paper, and the end of the survey line nearest the Atlantic, at the right hand.

23. Horizontal scales must be 400 feet to an inch; vertical scales 80 feet to an inch.

24. Without in the least desiring to dictate on the subject attention is requested to the suggestions regarding service on Sundays, which have been placed in the hands of the Engineers in charge of parties

25. The Engineer in charge will be furnished with a diary and a note book, in which he will enter daily, a record of the progress of the survey and every thing relating thereto.

SANFORD FLEMING,

Engineer in Chief.
