SUCCESSFUL WINTERING

So much depends upon the successful wintering of bees, some general advice may, perhaps, be usefully given here. The main points to be attended to are—(1) To winter only strong stocks. (2) To provide a sufficient quantity of wholesome food. (3) To keep the bees as quiet as possible. (4) To supply sufficient ventilation. (5) To avoid damp and the ill-effects of storms.

Want and Exchange Column

Advertisements for this column will be received at the rate of 50 cents for 25 words, each additional word one cent. Payments strictly in advance, as the amounts are too small to permit of book-keeping. Write copy of ad. on a separate sheet from any other matter, and on one side of the paper only. Say plainly how many times ad is to be inserted. Matter must reach us not later than the 23rd of each month.

WANTED
