

## IT'S WASHDAY IN THE MORNING!

What does it mean to you? Is it a burden—a toil—a weary round of drudgery? Get a

# Maxwell

### "EXCEL-ALL" WASHER

and laugh at washday. Just put the clothes in. The washer does all the hard work. Clothes come out clean and white—better than if you spent hours scrubbing over a steamy tub. The Maxwell "Excel-All" Washer has an adjustable wringer board, top opens up giving heaps of room for work and has assisting spiral springs and ball bearings.

Ask your dealer to show you the Maxwell "Excel-All". Also enquire about our Washers for Water, Electric or Gas Engine power.

**DAVID MAXWELL & SONS**  
ST. MARY'S, ONT.

# Big Ben

## He's Big All Over And Good All Through

Big Ben is built for endless service. He has no "off-days," no shut-downs. His four years of existence have been one long record of on-the-dot accuracy. 7,000 Canadian dealers say that he does more efficient work for less pay than any other clock alive.

A Big Ben battalion, over 3,000 strong, leaves La Salle, Illinois, every day. Their sparkling triple nickel-plated coats of implement steel, their dominating seven-inch height, their big, bold, black, easy-to-read figures and hands; their big, easy-to-wind keys—all make Big Ben the world's master clock.

In return for one little drop of oil, he'll work for you a full year. From "Boots on" to "Lights out"—165 times—he'll guarantee to tell you the

time of day with on-the-dot accuracy. He'll guarantee to get you up either of TWO WAYS—with one long, steady, five-minute ring if you need a good big call, or on the installment plan, with short rings one half-minute apart for ten minutes, so you'll wake up gradually, and he'll stop short in the middle of a tap during either call if you want to shut him off.

Big Ben is a mighty pleasant looking fellow. His big, open honest face and his gentle tick-tick have earned him a place in thousands of parlors.

The next time you go to town call at your dealer's and ask to see Big Ben. If your dealer hasn't him, send a money order for \$1.00 to his maker—Wetzel, La Salle, Illinois—and he'll come to you prepaid.

## Styles Adapted to Practical Women

Farm and Dairy patterns shown in these columns are especially prepared for Farm and Dairy Women. They can be relied upon to be the latest and include the most modern features of the paper patterns. When sending Farm and Dairy your order please be careful to state best or worst measure for children and the number of patterns desired. Price of all patterns is Our Folks, one each. Address all orders to Pattern Dept., Farm and Dairy, Peterboro, Ont.

THE spring sewing will now be in and the pand front, which is cut big full swing in many homes, all over the bust and thus affords ease though the weather so far has protection for the dress. This spring not been such as to inspire one with is easy to make and should give satisfaction. The feeling that lighter clothing is yet necessary.

The weather were fine and warm, however, we would all be anxious to begin our spring house cleaning, and the spring sewing would in all probability have to be set aside for a time. This kind of weather is just right for getting the sewing completed, so after all "every cloud has a silver lining."

One of the most noticeable fashion features at present is the popularity of the separate skirt. For several seasons the separate skirt has been considered as adapted mainly for serviceable wear, but it has gradually wended its way back to popularity, until this season we may have them as fussy and elaborate as we please. Of course all who have been following the fashions know that the tunic skirt holds the place of honor, but there are various other styles almost equally attractive.

In design 9880 we show a unique style of separate skirt. It is cut to simulate a tunic and is most graceful in its shaping and outline. It may be finished with closed or slashed seam at the front. Five sizes: 22, 24, 26, 28 and 30 inches.

A simple, becoming and popular blouse in kimono style is shown here in No. 9883. It is cut with body and sleeve in one and closed in surplice style.

The chemise may be omitted. This model developed in white crepe voile, with a finish of embroidery in net most mercerized thread would be very pretty. Six sizes: 32 to 42 inches bust measure.

A dainty princess combination suit may be designed from 9519. Short nainsook with val lace and insertion would produce pleasing results in this garment. It is fitted with side front, under arm, side back and shoulder seams. Six sizes: 34 to 44 inches bust measure.

The apron design that we are showing this week has two especially good points: the deep, convenient pockets

Blue and white combined with blue, would make a stylish dress. If desired the person mercurized thread would be very pretty. Four sizes: 16 to 18 years.

When sending in your order patterns, enclose two cents in extra and we will forward you Spring Number of the Home Economics magazine. This many illustrations of the latest broderie designs, a great many of garments for misses, women, children, as well as a two-page title on home dressmaking hints.
