CAPT. T. E. ROBSON, M. P. P.,
Auctioneer.A. & D. BROWN,
IONA, ONT.

GOSSIP.

At the dispersion sale of Lord Verlam's Shire horses, last month, 43 animals sold for an average of \$405. The highest price was \$2,000, for the yearling filly, Childwick Youno.

At a sale last month, of the Wolferton stud of pedigreed Hackneys and harness horses, the property of His Majesty King Edward VII., the 125 head sold averaged \$173, the highest price being 110 guineas, for a three-year-old filly.

Mr. James Anderson, of Guelph, Ont., the well-known poultry specialist, having given up farming, makes an offering of pure-bred Toulouse geese, elsewhere in this issue, that should attract the prompt attention of any engaged in breeding this class of fowls. It is an exceptionally favorable opportunity to secure improved birds.

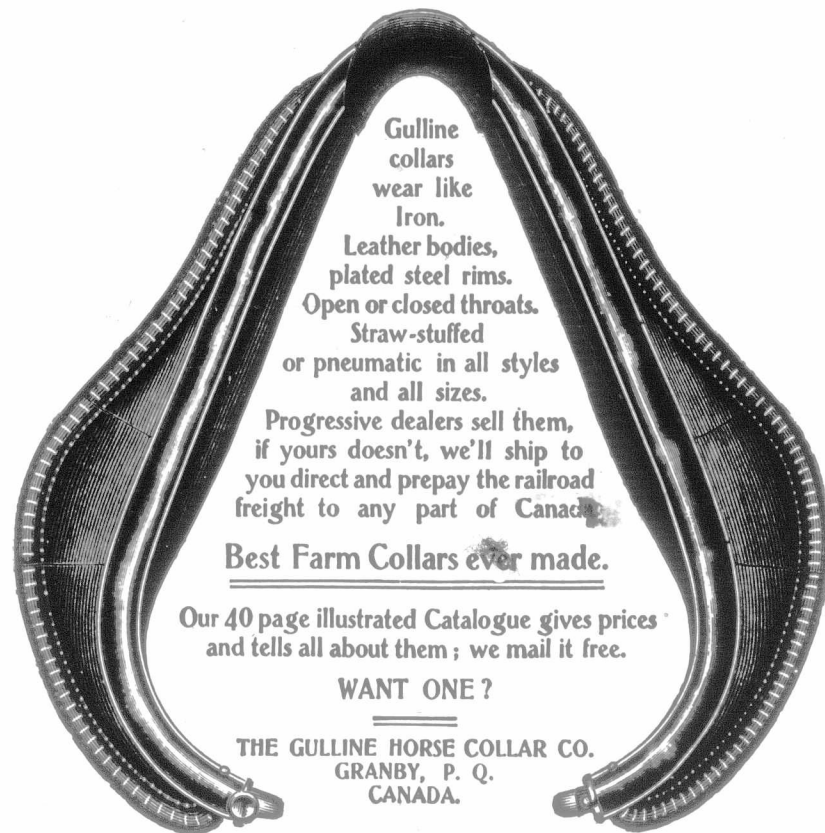

The Valley Stock Farm is the home of a large number of imported and home-bred Improved Yorkshire hogs, and also several varieties of the most fashionable breeds of fowls. The farm lies in the County of Northumberland, about ten miles from Campbellford, G. T. R. The owner, Mr. A. B. Armstrong, Codrington P. O., Ont., several years ago decided to turn his attention to the breeding of pure-bred hogs. Yorkshires being his choice, he made careful selection in the purchase of foundation stock, and seeing a great future for Canada in the bacon trade, selected only those as sires and dams that possessed the best possible conformation to meet the demands of that trade. To-day Mr. Armstrong's Yorkshires are an ideal lot, possessing great length, great depth, and withal a smoothness that would do credit to a Berkshire. His present stock boar is Summer Hill Model 4691, bred by D. C. Platt, and sired by Imp. Summer Hill Hollywell Diamond 3591, dam Imp. Fancy E. 3656, by Ruddington King. This boar shows all the qualities that go to make the ideal bacon hog of today. His predecessor was Summer Hill Victor 7th 4034, who was sired by Oak Lodge Sampson. He was a top-notchster. The dams are a large, even, smooth lot, possessing no end of quality. Oak Lodge White Rose 5th, sired by Oak Lodge Jacko 2809, dam Oak Lodge White Rose 4th, is an immensely big animal, full of quality from the ground up. Summer Queen, sired by Look-Me-Over, dam Imp. Oak Lodge Royal Duchess 2nd, is another extra good sow; a number of other dams in breeding are equally as good. The large and rapidly-increasing number of customers for stock from this herd testify stronger than words of the quality of stock sent out. In poultry, Mr. Armstrong shows splendid birds of the following varieties: B. P. R. of the famous S. B. Thompson strain, N. Y., which for next season's trade will be coupled with a cockerel of A. E. Hawkin's breeding, of Lancaster, Mass.; Buff Orpingtons of E. Harmer's breeding pens, Westboro; White Wyandottes, Dustan's and Massey's strains; Black Minorcas, Pitt's strain; White Leghorns and Brown Leghorns; also a number of Bronze turkeys and Pekin ducks.

Mr. E. Dool, whose farm is situated in the County of Frontenac, about 20 miles north of the City of Kingston on the K. and P. R. R., close to Hartington Station, which is also his post-office address, has for a number of years been breeding Yorkshire hogs of the modern bacon type. At present Mr.

Dool has a number, of both sexes and all ages, that show the long, deep conformation that has made Canada famous as a bacon-producing country. The stock boar, Oak Lodge Hotspur 3042 (imp.), bred by Denston Gibson, Harbury, Eng., and sired by Metchley Hotspur 4383, dam Metchley Novice 2nd 7428, is a large, deep-bodied hog, showing a smooth conformation, standing on perfect legs, despite his great weight, and as a sire has proven very successful, a number of his get being prizewinners. Some young ones by him, out of the sow, Snowball 3089, by Robin H. 1678, are splendid specimens of bacon type, and cannot fail to be profitable as breeders. Another dam of splendid merit is Bacon Queen, whose dam is Snowball. She is the dam of a six-months-old litter that are exceptionally choice. There are also a number of other choice breeding sows in the herd, the produce of which command a ready sale. Mr. Dool has lately purchased from Mr. D. C. Platt an ideal stock boar in Summer Hill National 3rd 6554, sired by Ruddington Lad 3rd (imp.), dam Summer Hill Belle (imp.), by Hollywell St. David. Mr. Dool has been in this line of breeding for a number of years, and it is satisfactory to know that out of the large number of animals he is yearly shipping, not one complaint has ever been made of inferior stock. Parties requiring such stock will do well to correspond with him.

Wardend Stock Farm lies in Hastings County, about three miles from Hoards Station, on the G. T. R. line running from Belleville to Peterboro. The owner, Mr. P. W. Taylor, whose post office is Wellman's Corners, has for over 30 years been breeding Ayrshire cattle. Being an expert judge of this favorite dairy breed, and acting on the conviction that by a judicious selection of sires possessing a proper conformation, coupled with size, a distinct improvement could be made in the size of what was originally a small breed of animals, the result has more than justified his most sanguine expectations, as his large herd of model dairy cows show good size and capacity, combined with perfect mould of build, large, evenly-balanced udders, and, what is of great importance in dairy cows, they have large, smooth teats. This herd was founded on some cows purchased from Hugh Brodie, of Belleville, a well-known importer of 30 years ago. Among them was Cherry Blossom and May Queen, who was out of the imported cow, Red Rose, Cherry Blossom being a granddaughter of hers. A number of the present herd are sired by such noted bulls as Douglass of London, Earl of Percy, Thomas H. Prince Leopold, and White Prince. The present stock bull is Minto 10490, sired by White Chief of Ste. Anne's 2806, by Imp. Glencairn 3rd, dam Nell of Parkhill 2091. His predecessor was Dewey 10419, whose grandsire was Imp. Silver King. This herd in times past was shown at all the leading exhibitions, and besides their numerous winnings, captured the Agriculture and Arts Association medal for best dairy herd of any breed. The herd consists of some 33 head, of all ages, among them being four yearling bulls that are even, well-built animals, two of them being sired by Glencairn and two by Dewey, and out of Prince Leopold, White Prince and Douglas of London cows. These bulls are for sale, as stated in his advertisement, and from their choice breeding and superior make-up should prove valuable sires.

The Carriage Stallion, Auctioneer (illustrated in this issue), was the first prize three-year-old Carriage stallion and second sweepstakes for the best Carriage stallion of any age at the Western Fair, London, 1901. He was bred by and is owned by Mr. W. C. Brown, Meadowdale, Ont. Auctioneer is a direct descendant of a family of
