

THE "BT" LITTER CARRIER

Note the double purchase in lifting and the simplicity in construction.

No machine on the farm is used as many days in the year, or saves as much hard, disagreeable work as a Litter Carrier. A boy can fill, wind up and push out in a "BT" LITTER CARRIER four barrows of manure with ease, no matter how much mud or snow there is in the yard. The manure can then be dumped into a wagon or sleigh, and put directly on the land, with very little if any more labor and time than is required to pile it in the yard with the old method, where the greater part of the fertilizing value of the manure is wasted.

Write for free catalogue showing best method of erecting Litter Carriers, and telling why you should buy a "BT" LITTER CARRIER.

Synopsis of Canadian North-west Land Regulations.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him, or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing, may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right, and cannot obtain a pre-emption, may take a purchased homestead in certain districts. Price, \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres, and erect a house worth \$300.

When Writing Mention This Paper

EWING'S

—the Seeds You Can Depend Upon

What's the use of having good land—of fertilizing it—of working it well—if you sow poor, old, half-dead seeds?

The best seeds—Ewing's—cost less than the land, the fertilizer or the work—but your crop depends on them. Saving cents on seeds means throwing away dollars in crops, for you cannot get good crops from inferior seeds.

Ewing's Seeds are strong—healthy—clean—reliable. They are not only sure to grow, but sure to grow good crops, if you give them a chance and weather conditions permit.

If you want to get the most out of your land, out of your work, out of your cash investment, get Ewing's Seeds. Don't accept substitutes. If your dealer hasn't Ewing's write us direct.

Send a post card for our big Illustrated Catalogue. It's free—and interesting.

Wm. Ewing & Co., Seedsmen, McGill St., Montreal.

Build Concrete Silos

Any size with the London Adjustable Silo Carbs. Wood Silos, seen red and full, are the best. They have a life of 20 years. Steel Silos eat the steel and they rust out. There is always a large amount of grain around the edges, used by freezing. A CONCRETE SILO will last for ages. Asbestos is better than steel silos, a 4 ft. one is absolutely safe for thousands of years. Write for the merits of concrete silos. We manufacture a complete line of Concrete Machinery. Send for Catalogue. Largest manufacturers of Concrete Machinery in Canada.

Northern Ontario

The forest and mineral wealth of Northern Ontario has attracted many people from all parts of the civilized world.

One ninth of the world's reported output of silver in 1908 was taken from Ontario mines.

New discoveries of undoubted richness are being constantly reported from sections far distant from the far-famed Cobalt. Yet a more certain reward is insured to the settler who acquires for himself 160 acres of the rich agricultural lands now open for settlement and made accessible through the construction of railways and Colonization Roads.

The fertility of the soil is unsurpassed. The timber is in demand at a rising price. Mining, railway and Colonization Road construction, lumbering, etc., afford work in abundance to those who have not the means to provide a market for farm produce at prices unequalled anywhere.

Cochrane, the terminus of the T. & N. O. Ry., on the G. T. P. Trans-continental Railway, now under construction, is in the same latitude as the southern part of Manitoba, and 800 miles nearer the seaboard.

That the experimental stage is past is clearly demonstrated. The country is rapidly filling up with settlers from many of the other Provinces, the United States and Europe.

For information as to terms of sale, homestead regulations and for special colonization rates to settlers and for settlers' effects write to
