## You can roll more ground with the "BISSELL"

The "Bissell" three-drum land roller has no dirt-catching centre bearing. Its large, polished roller bearings, 1/2 inch in diameter, are at the ends of the roller and fully protected against the dust—therefore the "Bissell" runs easier. All neck weight is removed by projecting the seat out from the frame and providing a draw-bracket for low hitch. Because the three drums of the "Bissell" turn shorter and easier than two-drum rollers of same width, and because it is lighter draft, you can roll more ground per hour with the "Bissell." A test on your land alongside other rollers will demonstrate the great superiority of the "Bissell" Land Roller. We welcome such a test. Just write Dept. W, and say you want to make one, or write for booklet describing our 6, 8, 9, 12 ft. lengths. If you would like a Grass Seeder Attachment for the "Bissell," we can supply that, too. And, remember, it isn't the genuine "Bissell" unless the name "Bissell" is stamped on the roller.

## OUR FENCE IS THE BEST

This claim in some form is made in every fence advertisement and makes the subject very difficult for you to decide. You have the right to ask for some proof other than the simple statement. We have not space enough here to give it but the details are given in our 48 pages of catalogue, showing why we claim the **Selkirk Fences** are strongest, most durable and economical for the fence user.

### PROOF

We guarantee that everything we sell is exactly as represented or we give money back. Do not buy your fence for 1911 without reading our catalogue. A post card will bring it.
