## An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

## "BAKER" Wind Engines

The "BAKER" Wind Engine is built for heavy duty. Neat and compact in design. Do perfect work because they are built on principles that are absolutely correct, and the easiest-running mill made.

The wheel is built on a hub revolved on a long stationary steel spindle. As a result there is less friction.

It has a large number of small sails without rivets. The small sails develop the full power of the wind.

The engine is so constructed that the gears cannot wear out of mesh.

Has ball-bearing turntable, and self-regulating device.

All working parts are covered with a cast shield, thus protecting same from ice and sleet. We make a full line of steel towers, galvanized steel tanks, pumps, etc.

All goods fully guaranteed. Write for catalogue No. 58.

## Galt Shingles

The Roof  
that  
Protects

"Galt"  
Galvanized  
Steel Shingles  
protect your  
home from  
Fire, Lightning  
and storm.

They last three times as long as wood shingles. The fire protection alone is worth their whole cost.

Example:—If there was a fire in your neighborhood on a windy day after a prolonged dry spell and the air was filled with burning fragments of wood which the wind was blowing towards your roof, what kind of a roof would you rather have then, a "Galt" Galvanized Steel Shingle roof on which you could safely build a fire or a wood shingle roof of which every shingle is like a fagot piled ready to burn.

You cannot bank on the carefulness of your neighbors but a "Galt" Shingle roof prevents your neighbors' fire from becoming your own.

Send for our booklet "Roofing Economy".
