

Enterprise Accuracy and Enterprise Quality are in These Coffee Mills

It is best to consider well, in buying a coffee mill for your store, whether there is **character** under the brilliant finish—whether the machine will do the work perfectly and continue to do it. That is what

ENTERPRISE Coffee Mills

are made to do. **Enterprise** Mills are made under our own patents. Expert mechanics make every part. The grinding system gives absolutely uniform, perfect results. There is no crushing of the coffee, but an even grind to the fineness you want—every time.

All parts interchangeable. And under our system of manufacture, there cannot be the deviation of the thousandth part of an inch. Replace a part next year—ten years from now—and it fits **exactly**. Strong, staunch, grinders guaranteed equal to steel do the work evenly and perfectly. New grinders can be put in your machine at low cost. The easiest running machines made. Better to be sure of good quality—service—first of all. The name **Enterprise** is your guarantee of both. Let us send you catalogue showing you the line of **Enterprise** machines—many styles in hand and electric power.

There is a maximum service in **ENTERPRISE** Meat and Food Choppers. The one right cutting principle — four-bladed steel knife revolving against the inner surface of a perforated steel plate. Cuts like shears.
