The Grocer Gets His Money

When the Customer Gets a Receipt

The "Get a Receipt" plan compels the giving of a correctly printed receipt to the customer, which means that there are corresponding and unchangeable records inside the register for the grocer and the clerk.

The customer's printed receipt, the clerk's receipt on the sales-strip, and the grocer's receipt on the adding wheels, are all made by the same operation of the register and therefore must be the same.

This receipt, which goes to the customer, is printed by the register. The Grocer's Receipt

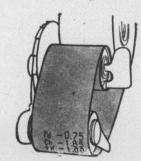

These are the adding wheels which must show the same record as the receipt. They are the merchant's receipt for a correct unchangeable record.

National Cash Registers range in price from \$30 to \$900.

Write for complete information about the "Get a Receipt" plan.

The Clerk's Receipt

The sales-strip, which must show the same record as the customer's receipt and the adding wheels, is the clerk's receipt for having handled the transaction correctly.
