HAVE YOU SEEN THE NEW

# PERFECTION BROOM?

OLD STYLE

It is no exaggeration to say that it represents the high water mark in broom making. It combines all the merits of the ordinary broom, and has, besides, a device which makes it just **twice as strong** and therefore **twice as lasting** as the ordinary broom. This device consists of a special handle, deeply inserted, with a cross wire at the end. This secures **absolute rigidity**, and so does away with that weak point of the old broom, viz: working loose at the shoulder. Yet **Perfection Brooms** cost no more than other brooms.
