FUNSTON CHAFES AT THE DELAY

Admiral Mayo Also Anxious to Get Into Action at Tampico.

WASHINGTON, D.C., May 8.—With the virtual elimination of the Constitutionalists from proceedings aimed at a general settlement of Mexico's ills, the South American envoys began plans to compose differences between Huerta and the United States Government that led to the seizure of Vera Cruz. The mediators left open to Carranza the opportunity to enter the proceedings whenever he was ready to fix an armistice.

In official circles it was declared unlikely that the mediators would hold their sessions in Canada; some quiet New England resort is more likely.

The delegates will simply transmit the proposals of the mediators to their Governments and deliver the replies.

Funston is Chafing.

Information came from Vera Cruz to the War Department recently that the Mexican Federal troops have mined the railroad tracks in preparation for the utter destruction of the road in the event that the American forces attempt a march on the capital.

These preparations and the throwing up of defences are known to be a source of worry to General Funston, who would welcome orders to start for the Mexican capital at once.

Admiral Mayo at Tampico has informed the Navy Department that he would have no trouble in taking Tampico with his present forces, and it was learned that he has more than once hinted in his despatches that it would be advisable to take such action. He has now his flagship, the Des Moines, two cruisers and a torpedo boat fleet of nine.
