AUSTRALIA PLANS FOR TROOPS WHEN THEY COME HOME

Outline of General Scheme Arrived at get Them on the Land.

STATES WILL GIVE LAND.

Federal Government Will Provide Funds for Various States' Use.

(Journal of Commerce)

Australian newspapers contain the details of the conference held in Melbourne recently between Federal and State representatives to consider a number of the aspects of the problem presented by the need for absorbing the returned soldiers. The conference adopted a complete scheme for the settlement of soldiers and their dependents on the land. The details of the scheme are given below in a series of resolutions, which were agreed to by the conference. It is estimated that the scheme will result in the placing of about 42,000 families on the land during the next three years.

The conference of Federal and State representatives adopted the following resolutions with regard to land settlement:

(1) The Government of the Commonwealth and the states should cooperate in the promotion of a scheme for the settlement of willing and suitable returned soldiers upon the land.

(2) The provisions of the settlement scheme, applied to the land is to rest with the states. Such land is to be made available to those who were dependent upon soldiers, as well as to returned soldiers.

(3) The Federal Govt. will provide the funds by way of loans to the states for the purposes of making advances, through the agricultural banks or similar government institutions, against improvements, the state institutions to advance to the soldier settlers such money at cost, plus reasonable working charges.

(4) With a view to meeting the special requirements of the soldier-settlers, the state governments will be invited to liberalize their conditions, applied to the repayments for stock and bank advances, and, if practicable, upon a uniform basis.

(5) In order to provide for the subsidiary requirements of the returned soldiers, the citizens generally will be invited to subscribe either in cash or kind to a special repatriation fund. This fund is to be raised by appeal for land from the federal parliamentary committee, the state war councils and their associated local organizations, and is to be vested by an Act of the Commonwealth in a body of trustees. The fund is to be distributed subject to conditions to be prescribed by the federal parliamentary committee, and advances from the fund are to be made to returned soldiers or by way of general assistance to returned soldiers and their families as determined by the committee. Such advances are to be loans without interest.

Training Farms

(6) Provision should be made where necessary for the immediate establishment by the states of training farms on which inexperienced men might serve a probationary period, for the purpose of determining whether they have an aptitude for the work. Where the state authority is satisfied, such training may be arranged for an approved private farm, distinct from the training farms, of men who are obviously unqualified for land settlement, and who, within a prescribed period after discharge, are addressed to a central authority, constituted by each state government, the duty of which should be to divide the applicants into three groups, as follows: (a) Those who are immediately eligible; (b) Those who may prove so after a period of training; and (c) Those who are unsuitable.

(8) Concurrently with the proposals herein contained every encouragement should be extended to approved private efforts for the settlement of returned soldiers on the land.

Loans to Men

(9) Loans to soldiers for land

Drink Hot Water if You Desire a Rosy Complexion

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of impure material, which if not eliminated, forms toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning, upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach. Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin drinking this phosphated hot water drinking, and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

WILL LOSE THEIR BRITISH TITLES

German nobles holding British titles of nobility of which the British Government proposes they be stripped. Premier Asquith has announced that the King will be asked to take away from the Duke of Cumberland and Duke of Albany, bottom, Prince Albert of Schleswig-Holstein.

AMERICAN OFFICER VICTIM OF HOAX

British Warships Have Orders Not to Enter Chesapeake Bay.

Washington, July 28.—Sir Cecil Spring-Rice, the British Ambassador, informed Acting Secretary of State Polk yesterday that he had received a message from the Admiral commanding the British squadron on the Atlantic denying that a British warship had entered Chesapeake Bay as reported by the commander of the battleship Louisiana.

The Ambassador said the British ships had strict orders not to enter the three-mile limit of American territorial waters, to waylay the German submarine Deutschland, or for any other purpose, and the Admiral had reported that these instructions had not been violated at any time.

The statement of the Ambassador will be accepted by the State Department, but the commander of the Louisiana is being pressed by the Navy Department for further details on his report that a craft which passed him at Lynnhaven inlet signaled "English cruiser." Officers do not know what to make of the case, but some are inclined to believe that an American officer was the victim of some kind of hoax.

GERMAN SOLDIERS ARE DESERTING TOO MUCH NOW
Anglo-French Bombard Will Drive Them Mad They Say.

By Special Wire to the Courier.
London, July 29.—Telegraph from The Hague, the correspondent of the Exchange Telegraph has received the following from Maestricht, a Dutch town fifteen miles east of Brussels: "Fifteen German deserters, including a non-commissioned officer, arrived here (Maestricht) yesterday. They said it was impossible to live through the Anglo-French bombardment without going mad, preferred desertion to insurrection."
FRENCH ADVANCE NEAR VERDUN

By Special Wire to the Courier.
St. John, N.B., July 29.—Two strong German parties which attempted to recapture French lines at a point were manouvered on the Somme and announced by the French department to-day.
In the region of the French front of Verdun, two German units were repulsed, it was announced by the French department to-day.
The official statement says some progress in the Champagne.
In the sector of the French front of Verdun, an artillery continues.

By Special Wire to the Courier.
St. John, N.B., July 29.—St. W. Robson is severely injured by the Dominion wreck of the steamer Captain L. A. Demers, which was wrecked in the bay. The Murr Ledges in the Bay of Fundy. The Commission, however, never been in the bay. The refloating of the ship under circumstances where struck is almost impossible.
