TRY THIS FOR YOUR COUGH

To relieve a cough or break up a
cold in twenty four hours, the follow-
ing simple formula, the ingredients of
which can be obtained at any good pre-
scription drugist at small cost, is all
that will be required: Virgin Oil of
Pine (Pure), one-half ounce; Glycer-
ine, two ounces; good Whisky, a half
pint. Shake well and take in tea-
spoonful doses every four hours. The
desired results can not be obtained un-
less the ingredients are pure. It is
therefore better to purchase the in-
gredients separately and prepare the
mixture yourself. Virgin Oil of Pine
(Pure) should be purchased in the
original half-ounce vial, which drug-
gists buy for dispensing. Each vial is
securely sealed in a round wooden case
which protects the Oil from exposure
to light. Around the wooden case is
an engraved wrapper with the name
"Virgin Oil of Pine (Pure)" plainly
printed thereon. There are many imi-
tations and cheap productions of Pine
Oil, but these only create nausea, and nev-
er effect the desired results.

THIRTY FEET TALL.

Horses Rescued in Wyoming in One
on Days New Fossilized.

Out in Wyoming a lot of scientific
grubbers have unearthed the fossil re-
mains of a horse thirty feet long and
more than thirty feet high. The grub-
bers seem to have placed the horse to-
gether without any comment, and they
don't offer a word of information con-
cerning either his genealogy or his
track record.

A horse thirty feet long would ap-
pear to be a lot of horse. If he belong-
ed to the cave man the latter certainly
had his hands full. A horse so tall
that a thirty foot ladder became nec-
essary when his head was to be put
on might well be called the pride of
the stable, although no ordinary stable
would begin to accommodate him.

If the cave man hadn't any ladder
and couldn't borrow one the next best
thing was to climb a tree. Then try to
imagine him shinning up a tall palm
with the heavy burden on his back, only
to find when he attained the right alti-
tude that the horse had moved beyond
reach and was peacefully browsing on
the tall grass of the jungle!

Of course a thirty foot horse could be
expected to cover much more ground
than the ordinary animal of the same
breed, even at a walk. And if he took
it into his head to work his way across
lots there would appear to be nothing
to impede him. Fences would go down
before him like stubble, and a merely
playful cavort would carry him over
racing torments.

When a thirty foot horse shied at a
bit of white paper in the roadway the
chances are that he jumped clear over
into the next county.

As a war horse the thirty footer
must have been a starter. When he
let out a neigh the enemy fled in blind
and unreasoning terror. When he
champed his bit and pawed the ground
the very hills shuddered. When he
switched his tail the blizzards fell
about him like ripened grain.

And then think of the nightmare that
could be expected to follow the first
sight of this prodigious equine! He
certainly was a wonder. It is a great
pity we know so little about him.—

Vanishing Chinchillas.

In common with many animals noted
for the beauty and value of their fur,
the chinchilla of South America is in
danger of becoming extinct, owing to
the reckless impunity with which these
little natives of the Andes have been
slaughtered both in season and out.
The chinchilla is about the size of a
squirrel, has a head somewhat the
shape of a rabbit's and is covered with
a light gray, silky fur, which has long
been very popular in the fur markets
of the world. Chinchillas are captured
in various ways, but the most common
method is to hunt them with dogs, the
terrier being the most useful and
skillful in their capture. In hunting
them the Indians employ a wessel,
which is trained to enter the crevices
of the rocks, where the animals often
lie concealed during the day to avoid
the sunshine, and drive them out,
when they are easily killed. The rapid
extermination of the chinchilla and
the absolute lack of protection or regu-
lation in taking them have resulted in
a tremendous advance in the price of
the skins in the past two years.

SCORED ANOTHER WONDERFUL VICTORY

One More Added to the Long List of
Cures Effected by Psychine.

This young lady, who lives in Brown-
ville, near Woodstock, Ont., tells her own
story in a few effective words of how she
obtained deliverance from the terrible
grip of weakness and disease.

I have to thank Psychine for my present health.
Two years ago I was going into a decline. I could
hardly drag myself across the floor. I could not
even get the carpet.
If I went for a mile
on two on my wheel I was too
weak to lift it through the gate-
way, and the last time I came in
from having a spin I dropped
utterly helpless from fatigue. My
father would give me no peace until
I procured Psychine, knowing it
was excellent for decline or weak-
ness. I must say the results are
wonderful, and people remarked
my improvement. Instead of a little, pale, hollow
shaded, listless, melancholy girl, I am to-day
full of life, ready for a slight ride, a skating
match, or an evening party with anyone, and
a few months ago I could not struggle to church,
48 rods from my home. I have never had the
slightest cause to fear any return of the disease.

Thousands of women are using PSY-
CHINE, because they know from exper-

aids digestion and assimilation of food,
and is a positive and absolute cure for

and other organs. It quickly builds up
the entire system, making sick people
well and weak people strong.

Dear Sir,—Being laid up with lame back, I
thought I would drop you a line to tell you
that your St. Regis Lumbago cure will do all
you claim for it, as I have only used part of the
bottle and I feel no returning symptoms of the
disease.

I can heartily recommend it to any troubled
