Three Maple City Gentlemen Pay a Visit to the Top of the Power House Chimney and View the Surrounding Country

Geo. Heyward, Ward Stanworth and Harry Northwood, three prominent young Chathamites, showed their predilection for high living this morning by taking a trip to the top of the power house chimney, which has just been completed.

From the top of this chimney, which is 130 feet above the ground, a splendid view of the surrounding country can be obtained. On a clear day it is possible to see the waters of both Lake Erie and Lake St. Clair and to distinguish places between these points.

"The view is a grand one," remarked Mr. Heyward this afternoon, "but I doubt if I would care to go up again. The height makes a person too dizzy to feel very comfortable. The windings of the river can be seen very plainly, and it looks beautiful. It is also a pretty sight to see the electric road winding out through the country. We could see the grist mill at Blenheim and could also see a man threshing near Blenheim."

"I think the prettiest sight, however, was to see the beautiful foliage right in the city. The maple trees on the streets showed up beautifully and the whole city seemed to be one big mass of foliage. I had no idea there were so many maple trees in Chatham. No wonder it is called the Maple City."

Mr. Stanworth took some splendid views with his camera, and he has promised to allow them to be published later on in the Planet.

Geo. Heyward said he had a short conversation with the man in the moon, who informed him that fishing on the moon has been pretty poor this season.

HARVESTERS

The Western crops this year are enormous and demand a great number of harvest hands to garner them. The C. P. R. ran an excursion to Winnipeg to-day for this purpose. Over 250 men took advantage of the cheap rate to go west. The train left here with ten coach loads of harvesters aboard gathered from Windsor, Chatham, and intermediate points.

GAME MONDAY

The protested game with Brantford has not yet been decided. In the meantime Chatham is still in the running, and will play the Shamrocks of Toronto Junction at the Agricultural grounds on Monday next, Labor Day.

The Shamrocks are the winners of their district in the fight for the junior championship, in the same manner as Chatham is in this district. The game will be a fast one.

BASIS OF COMPROMISE

Japan Waives Indemnity to Secure Peace.

Price of the Northern Half of the Island of Sakhalin to Be Arbitrated by a Mixed Commission If Russia Accepts the New Proposition—A Stumbling Block Gone—Plenipotentiaries to Meet To-day.

Portsmouth, N. H., Aug. 29.—This morning Baron Komura, acting upon instructions received from Tokio as a result of yesterday's meeting of the Cabinet and "elder statesmen" under the direct presidency of the Emperor of Japan, will submit to M. Witte, a new basis of compromise, and that compromise, it was firmly believed last night, will insure peace.

The revelation yesterday that Japan had already informed Emperor Nicholas, through Ambassador Meyer, that Japan was ready to waive the question of indemnity and submit the price to be paid for the northern half of Sakhalin to a mixed commission, had prepared the way for Japan's backdown upon the main issue. The announcement was the sensation of the day. The Japanese declined to admit it, and the Russians, who they had no confirmation. M. Witte intimated strongly that St. Petersburg had not apprised him of any such action by the President. There was even a disposition to ridicule the idea of arbitrating the price of the island. Nevertheless, on all points it was admitted that if Japan took this position, the ground was cut from under Emperor Nicholas.

Everything will depend upon the form in which the proposal is submitted. Should the renunciation be coupled with the other proposition that Russia could claim it was still only a disguised demand for tribute, the gulf might only be narrowed, not bridged. All the prior advances that reach the Russian mission from St. Petersburg indicate that the military party is bellicose, insistent that Linévitch be given a chance, and that active in its insistence that negotiations be broken off.

M. Witte feels the pressure of this sentiment.

Stumbling Block Gone.
St. Petersburg, Aug. 29.—The dispatch from Portsmouth, declaring that the "Redemption" price of it to the several days ago on behalf of Japan to waive all claims for indemnity or reimbursement for the cost of the war, and to cede back to Russia the northern half of the Island of Sakhalin, less the "Redemption" price of it to the arbitration of a mixed commission, was received too late here last night to reach the general public, but its significance was instantly recognized in the few quarters where it became known.

There is every reason to believe that the proposal by Japan to waive the question of indemnity goes far toward removing the last, and according to official explanations, the only stumbling block in the way of peace.

Mobilizing Reserves.
St. Petersburg, Aug. 29.—Telegrams from various centres, including Riga, Windau and Simbirsk, announce the beginning of an extensive mobilization of army reserves.

Has Kuropatkin Quit?
London, Aug. 28.—(C. A. P.)—The Japanese correspondent of "The Daily Telegraph" at Mool, Japan, sends a report that Gen. Kuropatkin has resigned his command and that his health has collapsed.

CANADIANS ARE PRISONERS.

Sealhunters Caught by Russians in Dures at Medwed.

London, Aug. 29.—Capt. Anderson, who commanded the Sadu Maru, the Japanese vessel captured by the Russians last year, stated in prison at Medwed are two Canadians, R. Finlay of Victoria, B.C., and C. Grant of Pictou, N.S., seal hunters, who were on board the Japanese sailing schooner captured by the Gromobol 250 miles east of Vladivostok. The Russians took the vessel in tow for some reason, receiving a wireless message that the Japanese squadron was approaching, blew up the vessel.

The men were sealers, and had nothing whatever to do with the war. Nothing is known in this country of the continued imprisonment of the Canadians, their case not having been reported to the Foreign Office, nor to Lord Strathecona. Medwed is an extensive military station not far from St. Petersburg.

No Cheering.

Vladikavkaz, Northern Caucasus, Aug. 29.—The announcement of the promulgation of the National Assembly was received in the chief towns of the Caucasus, with apathy and indifference.

Professors on Strike.
Odessa, Aug. 29.—A meeting yesterday of 342 professors decided to continue to abstain from participation in university work until a new order of things is established and the people generally are given all civil rights and the universities are granted full academic autonomy.

WITHIN TWO WEEKS

Chairman King, of the Market Building Committee in conversation with the Plan reporter, stated that with good luck, it ought to be possible to use the Market sheds, temporarily, in two weeks' time.

He was not able to positively set any date in view of contingencies which might arise. At the present time workmen are engaged putting in the floors and stairs and slating the roof. The contract calls for the completion of the entire job by Sept. 15th, but an extra month is allowed the contractors, if necessary, on account of the delay experienced in tearing down the old stalls.

EXCITING TIMES

The Aberdeen Hotel the Scene of a Lively Row Last Evening, the Result of a Linemen's Strike

Quite an exciting incident, arising out of the linemen's strike on the Electric road, happened at the Aberdeen hotel last evening, when some of the men from outside places who have been taking the positions made vacant by the strikers, attempted to move out.

The railway company last week became dissatisfied with the work being done by the linemen and dismissed the foreman, bringing a man from Grand Rapids to take his place. When the gang learned of this, nine of them stayed by the late foreman and went out on strike.

The company in order to keep the work going, brought linemen here from London and Grand Rapids to take their places. They arrived here with their wives and put up at the Aberdeen Hotel. The striking linemen are also boarding at this hotel and during the last few days the new men have been having an interesting time around the hotel defending themselves against the jeering attacks of the strikers.

The new men decided to move out last night and quite a crowd assembled around the hotel to see them go. The draymen who had been hired to move the trunks and boxes when he found out they were taking strikers' jobs and the crowd joined in jeering and upbraiding the linemen who were moving out.

The attacks became so vicious that a policeman was telephoned for and Peter Dezella soon arrived on the spot. He found a passing dray and got the stuff loaded on it, and the men were allowed to move over town and put up at a King street hotel. No violence was used but the crowd gave strong evidence of the fact that they were with the strikers. None of the men on either side had been drinking.

It was thought that an effort might be made to keep the linemen from going to work this morning, but no such move was made and the outside men are working on the construction this morning unmolested.

It is said that Mr. Bechard asked one of the new men to show his marriage license and when he could not do so, he ordered him and his woman out of the hotel.
