**Awful Boiler Explosion.**

Three Men Dead; Two Missing  
Fifteen Reported Missing.

MATTAWA, Ont., Wednesday.—As the result of a boiler explosion on the double decked steamer Temiskaming, of the Temiskaming Navigation Co., which took place at 4 o'clock yesterday afternoon, three men are dead, two are missing, and fifteen are injured, two so seriously that their recovery is impossible.

The Temiskaming left Halleybury at eight o'clock yesterday morning for Temiskaming, with twenty-five people on board, including the crew of the vessel. The boat was within four miles of her destination when the boiler blew up, deluging the vessel with flying missiles and scalding steam. The Captain immediately beached the boat, and the dead and injured were removed without difficulty. The cause of the explosion is a mystery to the engineer, who declares that there was a good head of water in the boiler.

J. McBride, of Columbus, Ohio, and C. Ryan, of Ottawa, jumped into the water and attempted to swim to shore. Ryan, though terribly burned, reached shore, but McBride was undoubtedly drowned.

The dead are:  
John Bergunhan, fireman, 49 years of age, of Ville Marie, leaves a wife and six children.  
John Menard, fireman, Temiskaming.  
E. Chartier, Gatineau Point, died at hospital early Wednesday morning.  
J. McBride, Columbus, Ohio, missing.

Unknown man, missing.  
The injured are:  
C. Ryan, Ottawa; serious.  
James Morrison, Liverpool, England, serious.

P. Roy, Montreal; serious.  
S. Lament, Maisonneuve, Que.  
Frank Lavrude, Levis, Que.  
Joseph Therien, James Keenan, Temiskaming; members of the crew.  
W. C. Towers, Yanketec Hill; Joseph Therien, Hull, Que.; James Keenan, Mattawa.  
Six others received slight injuries.

**ADVICE TO THE OPPOSITION.**

It is not enough that an opposition should expose the wrongdoing of a ministry. It is necessary, also, that the opposition should inspire the confidence of the country, so that if the people can be induced to slump they will have something to slump to. If repelled in one direction they should be attracted in another. If warned by robbers ahead, they should be reassured on looking back, to see honest faces behind and safety somewhere. A caravan warned to turn back on account of robbers ahead, may choose to keep on, when it is seen that those who raise the alarm bear the appearance of being a rival band lusting for prey. An opposition that with twelve years to make ready, cannot even look virtuous, fails indeed—Saturday night.

It's a wooden leg that cannot be pulled.

Real charity doesn't employ a publicity promoter.

Every man's troubles are the worst from his point of view.

Cheap notoriety sometimes costs a lot more than the other kind.

And there are girls that dislike being kissed—by the wrong fellow.

Few men are as wicked as they like to have women think they are.

A woman may have an old hat on her head, and a new one on her mind.

The average man is what he is because some woman thinks that's what he ought to be.

On second thought Serbia will not wipe Austria off the map, this time, besides the Czar will not stand for it.

The Boers will learn with sorrow that the strategy to which they succumbed was suggested by their old friend, Hoch der Kaiser.

However, the wise man will hang to his dollar a day job even if he is making millions in his mind out of mining stocks. He gets real money in his pay envelope.

The King of Portugal has sent to His Eminence, Cardinal Merry del Val the Grand Cross of the Order of the Tower and the Sword, which is the highest Portuguese decoration.

Dr. Rachael Skidelsky, of Philadelphia, says that women should smoke five minutes after each meal. Without further committing ourselves we merely say, 'Skidoo Skidelsky.'

Now that they have found gold, tin and copper in the Congo, that interesting region may look forward to being civilized with a rapidity that will make its wool curl, that is if it isn't that way already.

John Burns says the unemployed of England are at a disadvantage because they drink. Mr. Burns' habit of talking straight from the shoulder instead of using the safe platitudes of the statesman are much to be commended.

**BENGALIS REBELLIOUS.**

British Officers Have to be Guarded in Calcutta.

A remarkable anti-European demonstration was made throughout Bengal recently on the occasion of the third anniversary of the partition of the province.

The natives observed the anniversary as a day of mourning, discarding their clothes and footwear, and abstaining from food. All shops were closed in Calcutta.

Several police proclamations were posted everywhere forbidding meetings and processions after 5 o'clock, and ordering the arrest of any native found carrying weapons.

In consequence of the alarming rumors that the Bengalis contemplated an attack on Europeans, two companies of Gordon Highlanders were turned out for patrol duty, and the remainder of the regiment was kept under arms in the fort.

Two hundred police, with fixed bayonets, marched to the scene of the principal assemblage of Calcutta, while five hundred other police, including plain clothes men, armed with revolvers, were posted in the native city, in order to be ready to quell any rioting.

Forty thousand Bengalis paraded the streets, the procession being about a mile and a half long, and stopping all traffic. Surendranath Banerjee, the "uncrowned king" of Bengal, was escorted by a bodyguard. He walked beneath the standard of Bengal.

The police prevented any speeches being made by the agitators, and attempts to create disturbances were promptly suppressed. A European corporation official was attacked outside the university, and his carriage was stoned. One of his footmen was severely injured, and only escaped instant death by an act of bravery on the part of the coachman.

**FRENCH MEN MORE COURTEOUS.**

That the French-Canadian population of Canada show more regard for good manners and the little courtesies of life than do the English-speaking citizen of the Dominion, was the feature of the address made by His Excellency the Governor-General at the opening of the public meeting at Ottawa of the National Council of Women in session at the Capital. Earl Grey points out that Protestant Canadians could take a lesson in politeness from Catholic Quebec, and he suggested that the women of Canada could do much to improve the manners of the rising generation of Canadians.

**FOREST ENGINEERS**

Trained foresters, or forest engineers, are now badly needed in Canada to assist in the establishing of a better system of forest management in the public forests. To meet this need, two forestry schools have been established by two of the Canadian universities namely the University of New Brunswick and the University of Toronto.

The Faculty of Forestry of the University of Toronto has now entered on the second year of work. Its staff "By the way," he said, "a queer thing happened last night at the mess. I've been meaning to consult you as a consultant of the mess, two lectures and an assistant. His course of study covers four years and leads to the degree of Bachelor of Science in Forestry (B. S. F.). A post graduate degree of Forest Engineer, is granted after two years at least, of practical work.

The head, or dean, of the Faculty of Forestry is Dr. B. E. Fernow, one of the foremost living authorities on the forestry of North America. A German by birth, Dr. Fernow received his professional training at the Forest Academy of Muenchen (Germany), and also studied at the University of Koelnberg. In 1876 he came to the United States and from 1888 to 1898 was the chief of the Bureau of Forestry in the United States Dept. of Agriculture. He then became head of the New York State College of Forestry in connection with the Cornell University, a position which he occupied for some five years. After some years spent in private work as consulting forest engineer, he organized the department of forestry at the Pennsylvania State College, and from there came in 1907 to Toronto to organize the Faculty of Forestry at that university.

The University of New Brunswick opened its department of forestry in September last. Here, too, the course is an undergraduate one of four years; the degree conferred is Bachelor of Science in Forestry. The professor in charge of the department is R. B. Miller, M. A., M. F., a graduate of Yale Forest School, one of the foremost schools of forestry on this continent.

A third school will soon be in full operation in the Province of Quebec, and courses in forestry, or preparatory thereto, are given in a number of other Canadian universities and agricultural colleges.

Perfumed olive oil sprinkled on library shelves will prevent mold on books.

After trimming, turn the wick of a lamp below the burner or the oil will smoke.

**NOMINATION DAY**

IN P. E. I.

Liberals Capture Charlottetown by Acclamation.

CHARLOTTETOWN, Wednesday.—This was nomination day for the provincial elections.

The Liberals captured Charlottetown without opposition.

Hon. George E. Hughes and Doctor Warburton, the present members, being elected by acclamation. In each of the other fourteen districts there are full tickets on both sides.

Hughes was one of the delegates from the Island to the Conference at which the \$70,000 increase of subsidy was secured for this province from the Dominion and his election by acclamation indicates that people are satisfied with the result of the conference. This is the first time that Charlottetown has gone Liberal by acclamation, and it is taken as auspicious omen for November 18th, which is election day.

Mlle. Miropolsky is a handsome brunette, with fine dark eyes, a wealth of wavy black hair clustered out from beneath the coquettish toque, and she is in the bloom of 21 summers.

It is not generally known that prior to the great revolution of 1789 no woman was admitted to the bar. The rules of the order were extremely strict, and excluded "the deaf, dumb, mad, minors of 16, women, judges, notaries, policemen and persons belonging to a religious order." When the revolution broke out the Corporation of Barristers shared the fate of every other privileged body; it was dissolved and the bar was thrown open to everybody.

Many prisoners, most, indeed, defended themselves, and there is more than one famous instance of women having come forward to plead the cause of their husbands and fathers. The first on record was Mlle. Nina d'Ambert, whose father, the Marquis de Merle d'Ambert, colonel of the regiment of Royal Marines, had quitted France without permission, for England, in order to put his wealth in a place of safety. The tribunal could not in decency refuse to listen to her, but her eloquence was in vain. The marquis was guillotined and his unhappy daughter died broken hearted.

**McGILLICUDDY PLEADS JUSTIFICATION OF LIBEL**

CALGARY, Tuesday.—In the McGillicuddy libel suit this morning a written plea claiming justification on the grounds of public good was entered. Mr. Nolan, Counsel for Edwards, objected to the written plea. Mr. D. said the defense will be that Edwards was a degenerate, but not the kind his learned friends mean. The judge allowed the plea, which referred to Edwards, as degenerate.

**MARINE ENQUIRY SHOWS GRAFT.**

Startling Disclosure Now Being Made at Quebec.

QUEBEC, Wednesday.—R. H. Gale, had of the Slade Electric Company, of Quebec, was the first witness in the marine investigation this morning.

His company had done business with the department, amounting to \$10,200 during the past three years. He got \$2,500 for wiring the steamer Arctic.

Gale declared that Gregory retained \$54, finally paying over \$562 and keeping the remainder, which Mr. Gale called interest. Witness also had sent Gregory cheques for small amounts.

J. B. Cote said he had sold \$23,000 to the government in the last three years. He paid O'Farrell about one hundred dollars; Captain Koenig about \$540; Fontaine \$250; Captain S. Belanger, about \$100; Pettit \$75.

Witness also did some work for Mr. Gregory for which he never asked any payment. As another consequence of the disclosures of the marine enquiry, Mr. Brodeur has issued an order to the effect that all the patronage list must be suppressed, and that all purchases made by the department must be made in open markets.

Newspaper—Did you tell Mrs. Flatleigh that the baby had a tooth.

Mrs. Newspaper—No, I didn't get a chance. Her husband presented her with a poodle yesterday.

My motto, said the new arrival, is "Pay as you go."

It wouldn't do in my business, rejoined the landlady. My terms are cash in advance.

The Benedict—My wife is a woman who knows a good thing when she sees it.

The Bachelor—Possibly; but judging from her choice of a husband she is evidently near-sighted.

Oh, any fool can tell what he knows, sneered the very young man.

Yes, rejoined the venerable Sage of Sageville, but it takes a wise man to conceal what he doesn't know.

Cheap cuts of meat can be served palatably in stews and croquettes.

Mud stains can be removed from black cloth by rubbing them with a raw potato.

## "ONLY MEDICINE THAT DID ME ANY GOOD"

"Fruit-a-tives" Cured Backache After Doctors Failed Utterly.

"I have received most wonderful benefit from taking 'Fruit-a-tives.' I suffered for years from backaches and pain in the head and I consulted doctors and took every remedy obtainable without any relief. Then I began taking 'Fruit-a-tives' and this was the only medicine that ever did me any real good. I took several boxes altogether, and now I am entirely well of all my dreadful headaches and backaches. I take 'Fruit-a-tives' occasionally still, but I am quite cured of a trouble that was said to be incurable. I give this testimony voluntarily, in order that others who suffer as I suffered may try this wonderful medicine and be cured."

Mrs. Frank Eaton, Frankville, Ont.

Be wise. Profit by Mrs. Eaton's example, and start with 'Fruit-a-tives.' They will quickly relieve Pain in the Back, and stop Headaches because they keep bowels, kidneys and skin in perfect order and insure the blood being always pure and rich.

"Fruit-a-tives" is now put up in the new 25c trial size as well as the regular 50c boxes. All dealers should have both sizes. If yours does not, write Fruit-a-tives Limited, Ottawa.
