

KEEP THE MONEY IN THE FAMILY.

Mutual Life Looked After the Relatives of the President.

Payments About Which There Was Nothing Known.

Family Compact Principle Carried Out in Mutual Life.

New York, Oct. 6.—Closing a week, every day of which has produced a sensation that has stirred the country, the special Legislative committee investigating the methods of insurance companies adjourned to-day until Tuesday of next week. The sessions hereafter will be held Tuesday, Wednesday and Thursday.

In to-day's testimony the sensational development was when Mr. Hughes demanded the pay roll of the executive officers of the Mutual Life Company. This was produced, and showed the salaries of these officers since 1877. For the year 1904 President McCurdy received \$150,000; two Vice-Presidents were paid \$50,000 each; a Second Vice-President, \$17,000; the Third Vice-President, \$10,000, and the General Manager, \$25,000, who will receive this year \$30,000 and the Treasurer, \$50,000.

Robert McCurdy said he never knew the salary of his father until to-day, when he heard it read in the committee room. He thought, however, that there should be no limit to the salary of such positions, because they should be in accordance with the accumulations of the company.

When asked if it was any benefit to the policyholders to increase the President's salary, Mr. McCurdy said he thought the trustees had considered that when they increased the President's salary. No increase, however, had ever been considered when he was present at the trustees' meetings.

During Mr. McCurdy's testimony it was brought out that George Leysmond, a brother of Charles H. Raymond, was the general agent for New Jersey; that Howard Lewis, the general agent for northern New York, with an office in Albany, was a cousin of either the Vice-President, Mr. Granis, or Mrs. Granis; that Dr. E. J. Moss, the medical director of the Mutual Life, married a sister of the President of the company and that Dr. Stuyvesant Pilot, an inspector of risks, is the cousin of Louis H. Preller, son-in-law of President McCurdy, and partner of the Raymond firm. G. W. White, a secretary of the company, whom Mr. McCurdy was asked about, said he was not a relative of any officer of the company, but that Mrs. White was a niece of Mrs. Granis, wife of Vice-President Granis. He knew none of the salaries of these officers.

Much interest was manifested to-day when the expenditures of the company were taken up. An auditor of the New York Life, Mr. Preller, was on the stand, and he was asked as to the methods of recording the expenditures. It was gathered that these were passed by an Expenditure Committee, of which Robert Olyphant, was Chairman. Three entries on the books of payments to Mr. Olyphant of \$25,000 were looked into, but no information could be gleaned. Mr. Preller was asked about the company's contribution to the Republican Congressional Committee, which was disclosed yesterday, but said none had come under his observation. The contribution of \$2,000 to the Congressional Committee was looked for when the ledgers were produced, but up to adjournment to-day it had not been found.

ENGAGED TO ELEVEN MEN.

Geneva, Oct. 6.—Mlle. Kerner, of Thun, aged 18, has had the strange experience of being engaged to be married to 11 men at the same time. Found as a wealthy orphan, she corresponded with several matrimonial agencies in various Swiss towns, forwarding photographs of a charming girl friend instead of her own. Without knowledge of her parents, who are poor tradespeople, she corresponded with all her lovers, she corresponded with all her lovers, she corresponded with all her lovers.

The affair had been going on several months when Mlle. Kerner decided upon a bold bid for matrimony. She invited her 11 lovers to call upon her at the same hour on the same day, intending to throw herself on their mercy in the hope of finding one who would be willing to marry her.

A hitch occurred in her plans, however, as she was unable to send her parents away on an excursion, on which she had counted, and yesterday afternoon, between 3 and 5 o'clock, the 11 lovers arrived from various parts of claim their fiancée, to the great astonishment and anger of Mlle. Kerner's parents.

The girls was obliged to explain the situation and her lovers, who took the affair in good part, departed. It is believed the girl's mind is unshaken.

THIS PREACHER REFUSES TO SIGN ANY TEMPERANCE PLEDGE.

Pittsburg, Oct. 7.—At to-day's session of the Pittsburg Presbytery Rev. Dunlop Moore, one of the most prominent Presbyterian ministers in Pennsylvania, astonished his auditors by his views on the question of drinking and his assertion that he would not take the pledge. The remarks were occasioned when Rev. Herbert Hezler, Chairman of the Committee on Temperance, read his report and named each congregation which had not contributed to the committee during the year.

Of the 78 congregations in the Presbytery, 35 made no contributions to the committee and 17 of them contributed to no temperance cause. When Dr. Moore, who has held chairs in several theological seminaries, has travelled all over the earth and speaks seven different languages, was called upon to express his sentiments on the rum habit, he said: "I hold myself at liberty for my health's sake and for the glorification of God to take a glass of wine when I think it necessary. I will not commit myself to take the pledge. I want to be my own free agent in such matters. I do not wish it understood that I am opposed to temperance, for I always have been a strong advocate of temperance. What I am opposed to is this doctrine of 'touch not, taste not, handle not.' I believe men should act as intelligently in the matter of the use and abuse of intoxicating drinks as they do with any other dangerous instrument."

When the vote came on the adoption of the report of Mr. Hezler, Dr. Moore was one of the most vigorous "Noes," but the report was adopted by a large majority.

TRACHOMA IN QUEBEC.

Quebec, Oct. 6.—Dr. Coote, the leading practicing oculist of Quebec, has reported to the Provincial Government that the contagious eye disease, trachoma, is prevailing along the line of the Quebec and Lake St. John Railway, and calls upon the authorities to investigate the matter before the disease becomes epidemic. It is said that trachoma is being carried from the Lake St. John region by foreign immigrants some two years ago, when the medical examination of immigrants landed in Canada was not so strict as at present.

Hon. Rudolph Roy, Secretary for the Province of Quebec, will name a board of physicians without delay to investigate the complaint and take means to arrest the spread of the disease.

TO SAVE NIAGARA FALLS.

American Civic Association is Taking Action to That End.

Cleveland, Oct. 6.—The American Civic Association at its session here to-day adopted resolutions calling upon the governing powers of the United States and Canada to do something to save Niagara Falls from what was termed commercial vandalism. A committee was directed to send telegrams to President Roosevelt and Governor General Earl Grey requesting that they appoint a joint commission to suggest the best way of preserving the Falls for the benefit of future generations. There was considerable discussion, and the encroachment of corporations upon the natural wonders of the Falls was severely condemned.

ESCAPED RUSSIAN PRISON.

Mutineer Walks From Cell Disguised as Guard.

London, Oct. 6.—The Daily Graphic publishes the following from its correspondents in Berlin: "The agents of the Russian Burdick Committee in this city have received information of the escape from prison of the Russian mutineer, Feldmann, who was the chief organizer of the mutiny of the Kniaz Potemkin in the Black Sea. The mutineer was found in a cell in the prison of the Bund and Social Democrats, and was carried out with remarkable skill. Two revolutionists disguised as prison guards entered the prison, and boldly walked out again with Feldmann clothed in a uniform similar to their own. It was anticipated that the other guards on duty would be unable to remember how many had originally entered Feldmann's cell, and that consequently the departure of three instead of two would pass unobserved by them. This calculation was fully justified, and Feldmann, with his rescuers, got safely away. A prominent lady revolutionist also played an important part in organizing the rescue."

PRESTON'S NARROW ESCAPE.

He Was Nearly Asphyxiated While Crossing North Sea.

London, Oct. 6.—Mr. W. T. R. Preston, Canadian Emigration Commissioner, while crossing the North Sea last night, had a narrow escape from death by asphyxiation. It seems a gas pipe in the stateroom leaked, but Mr. Preston, though nearly overcome by the fumes, was able, on awakening, to get to the stateroom door and summon assistance. The doctor says that in a few minutes the old man committed suicide immediately after the quarrel.

Body Identified at Falls.

Niagara Falls, Oct. 6.—The nude body of a man which was taken from the river last Saturday has been identified as that of Thomas Morris. Deceased was seventy-three years old and lived with his son, Benjamin E. Morris, at 1,601 Ontario avenue. Last Saturday afternoon he was taken to a rooming house after a quarrel over a trivial matter he left the house in a rage. The son supposed for several days that his father was in Buffalo and made no search for him till yesterday, and it is supposed that the old man committed suicide immediately after the quarrel.

NOT A VERY FRIENDLY ACT.

President Roosevelt Strongly Opposes Cuban-British Treaty.

Havana, Oct. 6.—Owing to the development of strong opposition to the ten-year treaty of commerce and navigation between Cuba and Great Britain, the ratification of which is pending in the Senate, the Senate Committee on Foreign Relations to-day authorized the publication to-morrow in the leading Government organ of the text of the treaty. Some of the senators are strongly in favor of ratifying the treaty as a means of showing Cuban independence of the United States, but it is now believed that the strong opposition of President Roosevelt, combined with that of the Spanish commercial element, will prevent ratification.

Secretary of State O'Farrell insists that the treaty is entirely harmless either to Cuba or the United States. He pointed out to the Associated Press that the Cuban Government is entirely willing to make a similar, or even a more liberal, convention with the United States.

A Noted Turk Is Dead.

London, Oct. 6.—A despatch from Constantinople to-day announced the death of Field Marshal Edhem Pasha, who was commander-in-chief of the victorious Turkish army in the war with Greece, and who also distinguished himself during the defence of Pleyna against the Russians in 1876.

Bradstreet's on Trade.

Montreal.—Trade conditions here continue to reflect satisfactory conditions generally and a bright outlook for the future. Some apprehension had been felt regarding the way in which paper due on the 4th of the month would be met. But serious apprehension was not justified. Wholesale dry goods men report trade exceedingly active. Woollen goods are large and well assorted. Orders are very firm and prices are expected to advance. Retail stocks are moving fairly well. Orders for staple lines of goods are good and general hardware is moving well with values showing a firm tone. Large orders placed with Canadian manufacturers of steel rails are the first evidences of activity in Canadian railroad building which will have a far-reaching effect upon Canadian trade generally. Markets for country produce here are generally steady.

Toronto.—The volume of wholesale trade here continues very large and all lines are moving briskly. On the whole, collections are going admirably in the dry goods trade is general. Woole hold very firm. Grocers say their trade compares well with that of any previous year. Exceptionally fine weather has permitted great activity in outdoor industries and the building trade has activity in the dry goods and hardware trade. Retail trade is generally active. Farmers are making good deliveries of grain and country produce here but prices hold up well.

Quebec.—Wholesale trade is much about the same as previous week. Staple articles are in demand. City trade is active, but collections are slow. Manufacturers are busy and the outlook continues favorable.

Winnipeg.—The volume of wholesale trade here continues satisfactory, although there is hardly as much activity as was noticeable a week ago, but fall sorting orders are coming in well and there is a good tone to all lines of trade. Retail trade has been quiet. There is still a good volume of business moving in groceries and the hardware trade is still active. Dry goods stocks are moving well although the shipments of the heavy fall lines are mostly over. Collections generally are going well here and the improvement of the market is evident. Victoria and Vancouver.—There is continued activity in all lines of trade here and business is profiting by the large amount of money in circulation. Wholesale and retail trade is brisk and orders to the factory cover a wide distribution of lines and are fairly large. Real estate is active and the building trade exceedingly busy. The demand for lumber is heavy and the mills are busy.

Hamilton.—The condition of trade continues satisfactory. Wholesale houses report a good business in all lines with seasonable orders coming in well. Values generally are steady to firm. Receipts of country produce are large and local industries continue busily engaged.

Ottawa.—Fall trade continues active. Ottawa's business in the hardware trade situation. All lines of goods are moving fairly well and owing to activity industrial lines and the successful season which the farmers have had, the outlook generally is bright. Collections are generally fair.

BURFORD

Mr. and Mrs. Acland of Burlington have been visiting at Mr. Cairns'.

Mr. R. Gray has purchased a lot from Mrs. Townsend and intends erecting a fine brick house.

John Robertson & Sons' new store is completed and they will occupy it the beginning of next month.

Mrs. Park, of Burgessville is visiting her mother and other relatives.

Mr. Simon James has sold his lease of the hotel here to Mr. Noble, of Brantford.

The Burford people were favored with fine weather for the fair on Tuesday and Thursday, and the result was the largest crowd that ever attended the fair here.

Herbert Poirier, with several other employees of the Canada cotton mill, was sitting on the railing of the bridge over the mill race, when he lost his balance and fell into the water, which is nine feet deep, with a strong current.

Poirier cannot swim, and was going down for the third time when Fred Pitau, attracted by them, with some of the other boys, jumped in without removing his clothes. He succeeded in clutching the drowning boy and brought him to the shore. This is the third life Pitau had saved at this point this summer.

PET DOGS AS MUTTON CHOPS.

Large Number of Poodles in Paris Sold as Food.

Paris, Oct. 6.—For the last month a large number of poodle dogs have been missing in Paris, and the police have been amused with complaints lodged by the aggrieved owners, in most cases women.

Careful investigations made by the police have resulted in the discovery of several persons who make a fairly profitable business out of capturing the animals, slaughtering them, and selling their flesh to the proprietors of cheap restaurants, who pass it off as mutton. The dog stealers are being prosecuted.

THE INTELLIGENT HOUSEKEEPER

Will note these facts: Gerrie's Perfection Baking Powder is the strongest, purest and the highest grade baking powder sold in Canada. It is prepared from chemically pure cream tartar and soda. It costs 30c a pound, only 5c more than the low grade cream tartar and soda baking powder (claimed to be pure) sold by many dealers. Sold at Gerrie's drug store, No. 32 James street north.

Leonard Indicted for Forgery.

New York, Oct. 6.—An indictment for forgery in the second degree against Henry A. Leonard, the boy who secured more than \$359,000 worth of securities from the National City Bank on a forged cheque last week, was returned by the grand jury to-day. Leonard is liable to further indictment for larceny in the same case. He is in jail, not yet having furnished \$10,000 bail.

SWINDLED BY MODERN WITCH.

"Driving Out the Devil" Costly Cure for Farmer's Superstition.

Berlin, Oct. 6.—The trial at Erfurt yesterday of a so-called "wise woman" for defrauding a rich farmer and his family brought to light an extraordinary case of superstition.

The farmer, who owns a large estate near Naegelsdorf, six years ago met with some ill-luck, and at once concluded that he was "possessed by a devil," or "the wise woman" of Langensala, who was consulted, confirmed this belief, and was requested by the farmer to relieve him of the evil one. She went about it with many ceremonies, which would up with the burial in the earth at the feet of an ordinary new cart, in which the farmer had previously placed a considerable amount of money. The pot was buried the farmer, his family and the "wise woman" retired some distance and waited.

Suddenly there came a slight flash and a little explosion on the spot where the money was buried. The peasants were awakened; and the "wise woman" at once declared: "There goes the devil. He took your money, and you have got rid of him."

The farmer said at the trial that he felt relieved after the occurrence for some time, when the devil took possession of him again. This time a larger sum was needed to counter the fiend, and in this manner the woman continued to defraud the farmer for six years, during which time she retired about \$25,000, she had five accomplices, who helped her to dupe the superstitious people in the vicinity of Langensala, from whom they extracted many thousands more by the most absurd methods.

All the defendants were convicted and sentenced to imprisonment.

Died in Epileptic Fit.

Guelph, Ont., Oct. 6.—A man named Vannagan, aged 37, was found dead early this morning on the grounds of the House of Providence here. He was a recent arrival from the Old Country, but had to be committed to some institution for safe keeping because of being subject to epileptic fits. The coroner decided that there was no need of an inquest.
