Fourteen roads for January, show

especially as this panic—violent as it was in the financial district—is having less effect on trade than usual, because of the absence of any great surplus of products. Better times are surely com-

ing.

The present antipathy to Wall street savors largely of public hysteria, bogyphobia and political dementia. Apparently, it is a disease which must run its course; if so, the best cure will be a period of reflection in which to cultivate calmer and more rational views.

## Stocks and Bonds

New York, March 2, —The market during the morning met good support, with sentiment favorably influenced by the decision to resume operations at the Butte copper mines. This matter has received endorsement of Rogers, Thayer & Ryan, after careful consideration. The idea is that with surplus stocks of copper cleared away, largely by foreign demand which always is large when prices are low, the Amal. mines should be opened, as within the three or four months necessary to place any metal on nonths necessary to place any metal on he market, the trade conditions will the market, the trade conditions will fully warrant such action. Another good feature to-day is the Pa. statement for January, with its extremely sharp scaling down of expenses. Among stock dividends which seem well protected by earnings and earning prospects are the Hill issues, St. Paul, Rdg., D. and H. Co., and up and So. Pac., Sugar, U. S. S. and National Lead. Since January 1st, 6.256 miles of railroad have gone into hands of receivers, partly as result of the hostility toward these corporations displayed by various State officials. Naturally the average outsider has hesitated to invest for fear that he will select unwisely. The bulk of the buying is being done at present by well informed interests who exercise great discrimination, somewhat along lines above indicated, choosing the best stocks. Substantial profits will undoubtedly accrue in due course. ully warrant such action. Another good

Provost Macklem, of Trinity College. Toronto. Owing to the severity of the weather the services were not as well attended as they would otherwise have been. During the morning service, Mr. Adam Brown, who is greatly interested in the Church of England Laymen's Missionary movement, delivered a short address to the congregation, in which he urged the members to greater efforts in the cause of missions. He pointed out that the Laymen's movement has achieved great results everywhere, and that the Church of the Ascension is the first church in this diocese in which the missionary at Lincoln Park, N.
