Corner on Beulah Survey

This survey was opened up one year ago last May. The number and class of homes built thereon is conclusive proof that Beulah has proved the most popular survey offered in our city. The district is a charming, healthy one, with all the city conveniences and within five minutes' walk of one of the most beautiful natural parks in our Dominion. You will never purchase a building lot in the southwest as cheaply as you will to-day; a man does not require to be a close observer to be convinced of this fact. Keep your eye on the southwest and you will see values increase even more quickly during the next five years than during the past five years. For your satisfaction look the situation over and you will observe that the land available for desirable homes is in a very small compass,, and you will further note that "Beulah" and "West Mount" contain the largest blocks of desirable residential property in our city. If you propose building a home now or at some future date, investigate the merits of the 300 building lots we offer and compare values with others and you will conclude that this is your opportunity. values with others and you will conclude that this is your opportunity

Our Terms Are Most Reasonable
