Wisconsin, the "Columbian" east-

The engineer and fireman were in-

senger seriously injured. Reports
from the wreck are meagre. The in-

The "Columbian" is the second

the completion of the road. The
train was new and extensively equip-
ped. The seven cars were derailed
and the engine, smoker and day
coach demolished.

the United Commercial Travellers, it
was proposed to apply to the head

which, in number, are in the same

and South Dakota. About 100 mem-
bers will attend the "bathing at"

NEARLY TWO MILLION NEW COMERS TO CANADA IN PAST TEN YEARS

Official Bulletin Figures of WESTERN BANKER the Immigration Movement.

VAST MAJORITY WERE ENGLISH SPEAKING

Great Britain Provided the Largest Number of New-Comers.

Sixty-five Per cent. of United States Immigrants and Thirty Per Cent. of Britishers were Farmers and Farm Laborers—Half Million of New-comers Came to Alberta and Saskatchewan.

Ottawa, May 25.—During the past
ten years Canada has received nearly
2,000,000 immigrants, of whom 750,
000 were from Great Britain and
700,000 from the United States.

An immigration bulletin, just is-
sued, gives the actual figures up to
the end of the fiscal year, March 31,
1911, as 1,714,328 for the decade.
Since then nearly 200,000 more have
arrived, divided about equally be-
tween British and American.

According to occupation, about 65
per cent. of the immigrants arriving
from the United States have been
farmers or farm laborers, who for the
most part have settled in the prairie
provinces. Thirty-eight per cent.
of the total number from across the
line made entry for "homesteads in
the West."

About 30 per cent. of the British
and continental arrivals were farm-
ers or farm laborers, while 25 per
cent. were classed as general laborers,
and nearly the same percentage were
classed as mechanics.

The influx of negroes has totalled
only one fourth of 400, while 5,200
Hindus have come. Of the British
immigrants, approximately 560,000
have been English and Welsh, 150,
000 have been Scotch and about 45,
000 Irish.

Figures for other nationalities in-
clude the following: Austria-Hun-
gary, 121,000; Russia, 62,224; Hebrews,
48,875; Russians, 35,950; Sweden, 19,
349; Germans, 21,145; French, 16,236;
Norwegian, 12,778; Syrians, 5,222.

The distribution of immigrants by
provinces gives a good idea of the
later's respective population and
growth. Saskatchewan and Alberta
got a little over half a million during
the decade, Ontario came next with
400,000, Manitoba 309,823, Que-
bec 288,828, British Columbia and
the Yukon 188,599, the Maritime
provinces 92,200.

Western Canada got 10,000 more
new settlers than Eastern Canada.

PRESS COMMENT ON IMPERIAL AFFAIRS

London, May 27.—The Standard,
regarding the imperial council, says
that although it is a "British" affair,
the views of Sir Joseph Ward, its
president, are of great importance.
The conference would fall to avoid
the conclusion that the time was not yet
ripe for the establishment of such a
scheme as Premier Ward suggests.
Overstated confidence in the Standard
the day may yet come, sooner, in-
fact, than some people expect. It
may be needed.

The Daily Chronicle, agent of
the proposal laid before the conference
for the establishment of a standing
committee, says that the opinion of
the premier taking part in the con-
ference is somewhat reserved. The
fact is asserted that the chronicle,
governing motive in the minds of the
premier is the maintenance or even
the extension of the autonomy of
their respective states, and from this
viewpoint they regard every proposal
submitted to them.

The Daily Mail, discussing the
forthcoming census, says the future
of Canada, Australia, and New Zea-
land depends on the capacity of the
British race to fill their vacant spaces.
The United Kingdom is the only re-
servoir from which to draw people
to meet this need, but from the do-
mestic standpoint this wave of emi-
gration is desirable, for men do not
leave their homes in the motherland
when conditions are favorable.

NEW INDUSTRIES AT MEDICINE HAT HOW TO TREAT SKIN TROUBLES

Greasy Ointments of No Use—The Trouble Must be Caused Through the Blood

It is not a good thing for people
with itchy skin to have pimples and
a blotchy complexion to smear their
faces with greasy ointments and
such things. In fact they can't do
anything worse, because the greasy
clogs the pores of the skin making
it more irritable and a soothing bore-
wash may help to allay the pain of
itching, but of course it doesn't cure.
Skin complaints arise from an impure
condition of the blood and will per-
sist until the blood is cured.

Dr. Williams' Pink Pills have purified
the blood and cured many skin disor-
ders because they make new, rich blood
which drives out the impurities, clear-
ing the skin and imparting a glow of health.
Mrs. S. L. Peterson, Brandon, Man-
itop, writes: "I suffered for many years
with a skin eruption which brought
with it a poor appetite, headache and
general weakness. The portions of my
body affected by the eczema gave me
much discomfort, and I was unable to
wear a hat or to go out in the sun.
I tried several doctors and all sorts
of ointments and lotions, but did not
get the least relief. Finally I was
advised to try Dr. Williams' Pink
Pills and I used them for some time
with relief and heat began to grow less
and the general weakness and irrita-
tion went away. I continued taking
several months and every vestige of
the trouble disappeared and my skin
is again as free from blemish as in
youth. Given a fair trial Dr. Williams'
suffering from skin eruptions or weak-
ness of the general system."

By a majority of 115 the citizens

of the city council to purchase 235
acres for \$115,000 near the Swift
Packaging Plant for municipal stock
yards. The adverse vote is not re-

Eczema was Spreading

This is a translation of a letter
written by Mr. P. F. Fitch, on April 18,
1910, by Mr. Dan Robinson, who has
been suffering with eczema for
about six months, and had consulted
several doctors who did not do com-
paratively good. The disease was spreading
and I was most uncomfortable. I
thought I would go crazy. All my
friends were telling me I would lose
my hands unless I found the right
treatment.

One day I read in the Messenger
about your D. D. D. treatment and had con-
sulted for a sample. I immediately ordered
much good. It took eight bot-
tles together to cure me of this ter-
rible disease. I shall never be without
a bottle of D. D. D. in my home. I
write today for free trial bottles to
the D. D. D. Laboratories, Dept. E.B.W.
49, Colborne St., Toronto. It will give
you instant relief.

VANCOUVER UNIONISTS VOTE STRIKE JUNE 5

Used in Canada for over half a century —used in every corner of the world where people suffer from Constipation and its resulting troubles—

Dr. Morse's Indian Root Pills, stand higher in public estimation than any others, and their ever- increasing sales prove their merit. Physicians prescribe them.

Vancouver, B.C., May 25.—With
forty delegates voting yea and only
five against, the Trades and Labor
Council tonight declared in favor of
calling on the eight thousand union
workers of Vancouver on a general
strike on June 5th in sympathy with
the striking carpenters, bakers and
machinists, and as a test of the com-
parative strength in the city of
unionism among the forces of the
employers. Five other delegates
gave conditional affirmation to the
resolution approving the strike as a
commendation from the joint com-
mittee, while two refused to cast
their ballots one way or the other.

Practically all of those returning a
negative answer, as well as the dele-
gates declining to vote at all, and
those making their ballots conditional,
explained that their failure to
come out plinly with the majority
lay not in the fact that that might be
opposed to a general strike, but
rather that they lacked instructions
from their several unions and they
did not care to pronounce an opinion
which might prejudice those they re-
presented.

The discussion was almost entirely
in favor of opening a campaign
against the employers of Vancouver,
to demonstrate the strength of the
unions in making their demands for
closed shop conditions. Messrs.
McIntyre, McVey and Wilkinson
fired the heavy guns of argument in
favor of the proposed cessation of
work, while Messrs. McVey and Wil-
kinson supported from a large number of
delegates and the consideration of this
one question entailed a session last-
ing over three hours.

The executive officers of the coun-
cil were given authority to act with
the executive of the Building Trades
Council and the business agents board
in planning details of the strike cam-
paign. It is proposed to have a
parade in the city on Saturday next,
followed by a mass meeting. In-
structions were also issued last night
to the unions affiliated with the
Trades and Labor Council to arrange
for special meetings before the next
general meeting of the council, on
Thursday night, in order to have de-
legates present at the strike coun-
cil in the intention to take the ques-
ion up again and re-affirm the decision
arrived at tonight.

A resolution first passed instructing
the secretary to prepare an account,
accompanied by affidavits, of the
hands taken in Vancouver by Mr.
F. W. Nicholson, president of the
Master Builders' Association and
manager for the Northern Griffiths Steel
Construction Company, with respect
to the union carpenters, to be for-
warded to the Liberal and Labor
party headquarters in England. It
is proposed that this account, which
is to go minutely into the Labor
trouble between Mr. Nicholson
and the unions, be laid before the
voters of Wednesday, the British
constituency which is repre-
sented in the House of Commons by
Mr. Norton Griffiths, head of the firm.

This trouble arose out of the em-
ployment by Nicholson, on the Labor
Temple, of non-union men. In de-
fiance of a specific agreement, the
council ruled against Nicholson.

Says Canada is Over Prosperous.
London, May 27.—Wallace Nes-
bit, interviewed on his arrival here
with the statement: "Canada is simply drunk
with prosperity. I am convinced that re-
ciprocily will pass by November un-
less dissolution intervenes. It means
a seasonal trade trial between Britain
and the United States."
