## Change of Time Table Heart's Content Branch

We direct attention to the change in the time table of the Heart's Content Branch. Since the opening of the branch the train has left the south side of Trinity Bay in the evening and St. John's in the morning. Passengers have thus arrived in the city at night too late to transact any business and as the train left the next morning too early for them to do business and catch it, they have had to spend two nights in the city. About this they complained. Sir Robert Bond drew the attention of Mr. Lloyd to the matter and on Sir Robert's next visit to the city, they discussed the matter with the Colonial Secretary, Hon. J. R. Bennett, who promised to go into the matter with the Government Engineer and remedy it. The Government Engineer said the Heart's Content Company had submitted two schedules, one which is in operation now, and another which will come into force next Monday. The Government Engineer had selected the former one as of greater safety by avoiding night running of trains, until the bed of the track had settled down. He was satisfied that the bed would be safe enough by September 1st, and recommended the second schedule for the future. This will enable passengers from Trinity Bay South to arrive in the city about noon, transact business and catch the 6 p.m. train to return home the same day. We thank Mr. Bennett for his prompt and courteous attention to the matter.

## Why Take Chances?

We cannot commend those in authority on their action in reference to the Moravian missionaries to the Labrador. The authorities, we understand, ordered them up here and then changed their mind after they had left, but failed to get the message to them, as they had already left for St. John's on the Harmony, which took an outside course, and the Germans could not be intercepted. After their arrival here they have been called upon to give bonds to confine their attention solely to their usual avocations, and they are to be allowed to return to their missions on the Labrador. We are informed that Moravian missionaries, who are British citizens, who happened to be in the enemy country at the time hostilities broke out are now interned. Why should the Newfoundland Government treat these enemy aliens differently? It is recognized that every precaution should be taken. Why then should any chances be taken? Why should the bonds, the subjects of rulers who treat treaties as scraps of paper, satisfy the Newfoundland authorities?

## The Back Door To Constantinople.

Three weeks ago the news was sent that Turkey had surrendered to Bulgaria a portion of frontier territory as the price of Bulgaria's continued neutrality. The report, however, was found to be incorrect, and Bulgaria continued to negotiate with both groups of belligerents. Last evening news was sent from Berlin that the arrangement had been made and a treaty signed between Bulgaria to the same effect. The territory in question is of importance to both Bulgaria and Turkey. Its importance to Turkey lies in the fact that it includes a few miles of railway, and that railway connects Adrianople, the second city of Turkey in Europe, an important fortress with the capital Constantinople. Over this stretch of railway in the territory in question Bulgaria has running rights and by that means Bulgaria makes connection with Sofia, the capital, and Dedagatch, her principal seaport in the Aegean Sea. By the cession of this land, Bulgaria would obtain territorial control over the whole connecting Sofia with Dedagatch and Turkey would lose the territorial control of the railway connection between Adrianople and Constantinople. If this territory has been signed, as is reported by Berlin on what are claimed to be official statements from both Sofia and Berlin, it is a bad setback for the diplomacy of the Entente Allies, who have been endeavouring to set up another Balkan League to make war on Turkey and attack Constantinople through the back-door. It is an important success for Turkey as it removes the danger of the Bulgarian attack, either singly or in co-operation with the other Balkan States, and should the Entente succeed in invading Serbia or Austria or both to the western or northern boundary of Bulgaria, it will enable them to send through Bulgaria munitions for Turkey. Moreover it robs both Greece and the Entente Allies of the chance of sending troops through Bulgaria to attack Constantinople by the back-door, and should they determine on this course they will be forced to make a landing at Enos or to the east of Enos in face of a hostile resistance. It also reduces the probability of Greece joining the Allies in the reduction of Turkey, and the opening of the sea way through the Dardanelles, the Sea of Marmora and the Bosphorus to the Black Sea, and by this means gaining access to Russia. If it is true that the treaty has been signed, the Turkish problem has become more difficult and complicated. The news of the confirmation of the report will be awaited with anxiety.

## Newfoundland Beds.

Editor Evening Telegram.  
Dear Sir,—I have just received from the Headquarters of the St. John Ambulance Association in London, the enclosed letters, which I would be glad if you can publish, so that those who have so generously contributed to the Fund to endow Newfoundland Beds in the St. John Ambulance Brigade Hospital at the Front, may see how deeply their generosity is appreciated by those in charge of the work.

Yours faithfully,  
JOHN FENELON,  
Treasurer Newfoundland Centre,  
St. John's, Aug. 23, 1915.

The Grand Priory of the Order of the Hospital of St. John of Jerusalem England—Ambulance Department.

St. John's Gate,  
Clerkenwell, London, E.C.,  
4th August, 1915.

Dear Sir,—Your letter of the 24th ult., with cheque for £1,000, reached me yesterday. I have passed same on to Mr. W. R. Edwards, Accountant to the Order of St. John, and acting Treasurer to the St. John Ambulance Brigade Hospital, who will send you an official acknowledgment.

It is my privilege to know what generous and handsome gift clothing Newfoundland has already sent, but this further proof of her sympathy and generosity far surpasses anything that could have been looked for.

Believe me to remain,  
(Sgd.) WILLIAM H. MORGAN,

Chancery of the Order,  
St. John's Gate,  
Clerkenwell, London, E.C.,  
4th August, 1915.

Dear Sir,—Mr. Morgan has handed me your letter of the 24th July, enclosing the sum of £1,000 to endow ten Newfoundland Beds in the St. John Ambulance Hospital at Etaples. I have great pleasure in enclosing you a receipt for this munificent gift, and I will see that the beds are named in accordance with your wishes. I trust that you will be so good as to make it known as widely as possible how very deeply grateful the Order is for the kindness of those who have so generously contributed to the Hospital.

Yours faithfully,  
(Sgd.) WM. R. EDWARDS,  
Secretary.

## Death of Mrs. Henderson

LAST OF THE WINTON FAMILY.  
The last of the Winton family "Ann Charlotte" Mrs. D. J. Henderson, died at her residence Torbay, on Sunday afternoon. She achieved the ripe old age of 88 years. The deceased was a daughter of Henry Winton, one of the pioneers of the press in Newfoundland. Her husband who predeceased her some 13 years ago, was a well known citizen, and at one time did a thriving commercial business, being the first to manufacture peat in his works on the road to Torbay. Robert, Francis and Henry Winton were brothers of Mrs. Henderson. Mrs. Pearce, mother of William C. Pearce, 1st clerk at the Department of Public Works, is a niece of the deceased lady, from whose dwelling she was followed to her last resting place in the Church of England Cemetery this afternoon. Mrs. Henderson was one of the old school of women, who have nearly all passed away, affable and kindly towards all, and loved by those who had the pleasure of her acquaintance.

## McMurdo's Store News

TUESDAY, Aug. 24th, 1915.  
In habitual constipation Cascara Lagada has long been known as one of most satisfactory remedies, and it is in the form of a liquid extract, the latter being usually sweetened and aromatized. Now Cascara Lagada is a drug which is best given in small doses, repeated; and a sweetened and pleasantly flavored liquid extract is probably the best way to administer it. So we have had put up an elegant Cascara Compound for that purpose. This will be found the most agreeable way of taking this medicine, and the results will be good as well. Constipation, and the evils which spring from it, can be combated successfully with our Aromatic Cascara Compound. Price 25c. a bottle.

## The Noon (?) Gun

Many citizens are in doubt as to whether the new noon gun recently installed at Signal Hill is an improvement on the old one which rendered such faithful service for so many years. From various reliable sources, where accurate timepieces are kept, we learn that the new gun has recently been from three to six minutes behind time. We have also been informed that of late quite a few passengers who carried "gun time" have lost the train by a few minutes. There was a time within our remembrance when "gun time" and accurate time were synonymous, but alas! how the times do change.

## Examination of Nurses.

A recent examination was held at the General Hospital in General Nursing. The following nurses passed: — Very highly recommended, Young, Mews, Long, Northcott, Sinyard, Jolliffe, Walsh, Bradbury, Miller, Robertson, Tibbs, Snelgrove, Kelly, Doyle, Nurses Mews, Young and Long gaining (99 p.c.) ninety-nine per cent. The highest per cent. ever gained in that examination.
