More Heat on Less Fuel.

Many thousands of users in City, Town and Coun-
try have learned from natural experience that the
Caloric, the Original Patented Pipeless Furnace, heats
the homes better than they were ever heated before,
in all kinds of weather. Also that it save one-third to
one-half the Coke, Coal and Wood. If you want real
winter comfort, if you want to turn your houses into
homes, and if at the same time you want to cut your
heating expenses to practically one-half, install a Cal-
oric. The cost of installation and maintenance, in
money and labor, is much less than the number of
stones required to heat the same space. Thousands of
Caloric users have paid the first cost of their furnace
through the saving of fuel. It can be installed as
quickly in the old houses as in the new, frequently in
a day, because it has but one register, and requires
no pipes in floors or walls.

More than fifty thousand Calorics are giving satis-
factory and economical service in all types of homes,
up to eighteen rooms in size, as well as in churches,
stores, factories and other buildings.

Read the following testimonial from one of our
customers:-

I have installed the Caloric Pipeless Furnace
in my home (it is also the first Caloric in New-
foundland) and find it to give all the satisfaction
claimed by its manufacturers. I would therefore
recommend it to anyone that wants the most per-
fect system of heating by the circulation of warm,
moist air through one register.
