A Useful "Made in Calgary" Article
In the economy of the average house-
hold there is one very necessary thing
and that is the appliance for suspen-
ding the newly washed garments from
the sun and wind that they may be dried
in the gentlest of ways. The "Handy
Clothes Reel" is the answer to this
problem.

Among these inventions is the
"Handy Clothes Reel" which several designs
have appeared. But perhaps the most
modern and by far the best, the most
convenient for the purpose is the
"Handy Clothes Reel." The patent rights
of this machine for Alberta and B. C.
is held by the Handy Clothes Reel
Mfg. Co. of Calgary. This firm is lo-
cated at the corner of Eighth avenue and
Fifteenth street. James Shaw, late yard
foreman at Cushing's factory is the
local manager. Mr. Shaw says the
Handy Clothes Reel will be on the
market in a few days and that he has
already several orders from the few
people who have had an opportunity
to see the best thing of its kind yet
offered. The new firm is preparing
for a large trade in the Calgary dis-
trict. See advertisement on page seven
this issue.

ABBIE WOOD WON MARATHON AND MADE A RECORD

Canadian Runner Outstepped Others

Canadian Runner Second

Toronto, Ont., May 24.—Abbie Wood, the diminutive Montrealer, won the second Canadian Derby Marathon at the Island stadium today from a large and classy field of the best long distance men in America. He also estab-
lished a new Marathon record of 2:34:10 2-5 for the 26 miles 385 yards, the previous record of 2:38:47 being held by John D. Maclean in the Derby Marathon of last year held in the same grounds. Hans Holmer of Halifax was second, 1 minute 24 1-4 seconds behind Wood. The third man was Kollmarer of Finland, over two minutes later. St. Yves and fourth, Jonasson the Swede fifth and Pat Dineen, Boston sixth.

The crowd was small, not more than 6,000 people being in attendance. Wood led the first mile and surrendered to Jonasson, who held it to the seventh mile, which was covered in 39.35.

Yesterday's Gun Club Scores
Yesterday was a big day at the Calgary Gun Club traps. The main event went to J. H. Thompson of "The Shack," with the very creditable score of 45 out of a possible 50. Thompson shot from the 20 yard mark, a big handi-
cap to any shooter. His closest competitor was W. B. McLaren, with 42 out of 50. A high wind made the shooting exceedingly difficult. The prize was a vase, hand painted, and presented by the Hunter Arms Co. of Fulton, N. Y.

Fourteen hundred targets were thrown from the traps during the morning's shoot. The scores were as follows:

Class A—20 Yards

J. H. Thompson	45

MACLEOD FARMERS HOLD A BIG PICNIC

Address Delivered by Messrs
Tregillus and
Swift

THOUSAND PEOPLE
ATTENDED THE PICNIC

Macleod Farmers Have Decided
Upon an Annual
Picnic

Macleod, Alta., May 24.—A monster
picnic was held today just outside
Macleod, arranged by the local unions
of the United Farmers of Alberta. It
was estimated that considerably over
a thousand people were present. Every
arrangement seemed to have been made
by the committee of management for
the convenience of those who attended.
A platform was erected for dancing,
and a local farmers' band rendered
very acceptable selections during the
afternoon and evening, while a special
orchestra provided the music for the
dancers. During the afternoon, as
was arranged, several speeches were
made from the dancing platform.

After the president of the local union,
W. Maclean, who presided, had made
an introductory speech, the vice pre-
sident of the United Farmers of Alberta,
W. J. Tregillus of Calgary, addressed
the large gathering that had come close
around the platform, and spoke on
the importance of the farmers occu-
pied in the community, saying that
they could only fully realize to the full
the advantages accruing from their
calling if they were organized and
worked in co-operation, and urging
every farmer to work with that end in
view.

Thos. Swift of Calgary of the Grain
Growers' Grain company next spoke
on the elevator question, explaining
the grading and shipping of grain in
the internal and terminal elevators,
showing that the present system was
not favorable to the farmers, and how
the Manitoba grain act could be im-
proved to the farmers' advantage. W.
F. Stevens, live stock commissioner,
next spoke, taking up the pork pack-
aging question, and explaining the lines
on which a plant had been proposed
by the government when pledges had
been given by the farmers of the pro-
vince for providing 50,000 hogs per
annum. The meeting was considered
so successful that it was decided to
make it an annual affair, and an invita-
tion was given to the speakers for
the next annual picnic, each one prom-
ising, if possible, to attend. A letter
from Mr. Patterson, the farmers' can-
didate, was read, expressing his regrets
at his inability to attend, because of
an important engagement made prior
to the arrangement of the picnic.
John Herron, M. P., was expected, but
did not attend. After the speeches
were over, everyone entered heartily
into the avenues of pleasure provided,
and the picnic was considered an un-
qualified success.
