\$500 IN CASH

TO BE GIVEN AWAY IN THE NEXT TEN DAYS AT

J. M. THOMSON'S

While the carpenters and painters are busy preparing the second floor, which is in future to be the home of our basement stock.

This change will affect three of our very important departmentsour basement goods, wall paper and toy departments. Toys will occupy part of west side, just at head of stairs. Wall paper will be located in new quarters, over Morphy's jewelry store, and will have splendid light and more room, which are needed for this rapidly growing department. This will leave practically the whole of this welllighted and extensive space to the display of our Dinnerware, China,

This Special Offer Begins

Tuesday, Jan. 25

At 8 a.m. and Continues for Ten Days In order to make the moving and changing of these departments just $a_{\rm S}$ easy $a_{\rm S}$ possible, we desire your co-operation, and are willing

OUR PLAN IS THIS

to pay \$500 in each for your part in it.

ments we will give you a cash rebate. For example: On 50 cents you receive back 10 cents; on 75c cents you get 15 cents; on \$1, 20 cents,

This will be a good time to get in your spring order for Window Blinds, Wall Paper. If you intend to paper two or three rooms, and your bill should come to \$10, we will hand you back \$2 in cash, which will go a long way towards buying Window Shades, Paints, etc.

Remember This \$500 Cash Offer Is for Ten Days Only and Applies to All Basement Goods, Wall Paper and Toy Department.

system to be used, interchangeable from one department to another. For instance, if you only need 25c worth of goods in one department, you will have the privilege of making up 50c in either of the other two departments, and receive the 10c rebate in eash.

Measure your rooms; get out your want list; make this store your buying centre for the next ten days, and you will be pleased with

Thanking you in anticipation for your co-operation in our Stock-Reducing Plan.

wreath of roses by the mother of the and Infielder Bradley will be sent to bride.

HON. ADAM BECK **EXPLAINS CHARGES**

Waited on Water Board and Showed What Has Been Done in Wells Scheme.

TIFF WITH MR. DARCH

But in the End the Commission Agreed That All That Had Been Done Was for the Best.

At the meeting of the water commission, held on Saturday afternoon, the alterations made in the pumping station by Hon. Adam Beck were explained to the satisfaction of the commissioners, and were approved of. Mayor Beattie and Commissioner Darch said the commissioners should have been consulted, but Mr. Beck explained that he had consulted the chairman, Mr. Jones, in every particu-

Mr. Beck was then given an opportunity to explain the changes. Two wells, Nos. 4 and 5, had been pulled, For curiosity sake I bought six bottles of as they were in too close proximity to some of the other wells, and two cured me. I would advise others to others, 15 and 16, sunk. This resulted in the increase of the capacity of the field from 2,000,000 gallons to 2,500,000 gallons. Two additional wells were put down, Nos. 18 and 19, and had proved to be of excellent capacity. The object was to explore the extent of the detrimental to the scheme." said Mr. field, and to bring the supply up to Moore. 3,000,000 gallons per day. This had been done. The additional cost of this, the wells," said Mr. Pocock. "They are including piping to all the wells, and a great benefit. As for the changes, I drilling was \$4,253. .Mr. Beck showed think they are minor, and are better for this capacity to be more than he con- the scheme. tracted for, and asked the commissioners to pay the difference.

Size of the Reservoir. Some saving had resulted from run ning the air and water pipes from No. well directly through the City Gas Company's property, and by using the woodenpipe belonging to the commissioners, rather than steel pipe.

The size of the reservoir had been changed also. The capacity was the same, but the basin had been lengthened and broadened. It was about 5 feet shallower, which made it certain that the city would receive good work, as the foundation, if carried any deeper would be somewhat dangerous. An auxiliary reservoir had been added also, to enable the pumps to be used, while the big reservoir was being cleaned or repairs were being made. The pumping building had been increased in length 61/2 feet. This was done to furnish more room for the Syncronous motors that were likely to be used for furnishing power, which were larger than the motors originally

Building Improved.

A number of improvements had been made in the building also. The terra cotta construction work had been omitted at the request of Mr. Jones. Stone facings had been put on rather than cement. Steel beams had been substituted for cement beams intended to be used and other changes were made.

Turbine pumps would be used in- 5,280. This was also earried. ead of the triplex pumps specified. This These pumps were better in the opin-

on of Engineer Moore. It had been impossible to get prices when tenders were first called for, but they were in hand now, and had been cepted. The gas engine capacity had been increased 25 per cent to give an additional margin of safety over that originally contemplated. The crane had been increased from 5 tons to 7 tons. Al' this had added to the orig-

> c., against the additional cost would "This is figured on a 3,000 horse-power basis," said Mr. Sothmann, "I unhesitatingly recommend the change from the motor intended to the Syn-

to the city. The annual charges,

hronous motor." The Increase in Cost.

"The only increase over the original cost specified, \$98,700, is for the two new wells," asked Mr. Pocock of Mr. "I clearly see that the extra charge for the new motors should be been a tea drinker for twenty-five charged up to the electrical depart-ment, as they will be saved the cost fifteen. of much rower by the use of the new

"That is it exactly," answered Mr "We guarantee to come within our contract price, with the exception of the cost of the two extra wells, amounting to \$4,253, and the motors involving an extra cost of \$5,380."

"It is unfortunate that the changes were made without the consent of the poard," said Mayor Beattie. "The chairman had no authority to allow the changes to be made. I would like to know f our engineer is satisfied." "I do not think anything done will be

Skin Diseases.

Under this name such troubles as Salt Rheum, Eczema, Erysipelas, Tetter, Shingles, Psoriasis, Scurf, Itching Rashes, Eruptions, Boils, Pimples, etc., are included. Skin diseases, as a rule, are not dangerous, but are unsightly, irritating and often terribly annoying to the sufferer; they depend mainly on bad blood. from one cause or another, for if the blood is pure and the circulation good no skin disease can exist, except it arise from lack of proper cleanliness or from contagion.

To get rid of skin diseases it is necessary to observe strictly all the laws of health; maintain regular action of the bowels; avoid high living, eating only plain nour ishing food. Cleanse and keep the blood pure by taking Burdock Blood Bitters which unlocks all the secretions, and makes new rich blood by acting on the entire system.
