Is it not, perhaps, the fact that the world becomes every day more absorbingly interesting, and gives us less excuse for sinking into intellectual torpor and conservatism? There was a time when, to the average mind, the world seemed at best to stand still, and when the normal feeling of the man of 50 was that things were retrograding and "going to the dogs." Today there are people who profess to hold that opinion, at any ate, in the political sphere; but even or them the country is going to the ogs interestingly, absorbing, dramatially. More Praise for Dr. Hamilton's Pills.

"For a period last summer the thought of food excited feelings of nausea," writes Mrs. C. A. Dodge, of Bloomsbury. "The heat had made me listless, and the distaste for food reduced me to a condition of semistarvation, and brought me to the verge of nervous collapse. Tonics were useless to restore an active desire for food. The doctors told me my liver and kidneys were both at fault, but the medicines they gave me were too severe, and reduced my strength, so that I had to abandon them. At the suggestion of a friend who had been cured of blood and skin trouble, I began the use of Dr. Hamilton's Pills. The difference I first noticed was, that while they cleansed the system, instead of feeling weaker, I felt better after taking them. Indeed, their activity was so mild it was easy to forget I had taken them at all, they seemed to go right to the liver, and in a very brief time not only did all source of nausea disap-What would you think of a pipe for pounds, to the smallest, which is a church organ that is six times higher little more than an inch long and a digested it reasonably well.
