## HUMANE SOCIETY DOES GOOD WORK

Interesting Reports Were Made at Regular Meeting Held Friday Night.

## A CASE OF CRUELTY

Society Will Assist the Police in a Prosecution on Tuesday Next—The Funds on Hand.

The Humane Society held its regular meeting Friday night in the board of trade rooms, the president, Col. Gartschke, presiding.

Secretary W. L. Steeves reported the work of the society since its last meeting on July 2. One special case which required the attention of the society occurred on Thursday, and in sequel in the police court is yet to follow.

Henry Hamilton, of Lambeth, is the owner of four horses, three of which are suffering from severe sores about the neck, and lame shoulders. Their present condition is pitiable, and they are absolutely unfit for work. The police are taking a hand in the matter and are prosecuting the owner on one charge, while the Humane Society is using the law in another. Mr. Hamilton appears in the police court on Tuesday next to answer these charges.

Cruelty to Fowl.  
Several cases of actual cruelty were reported in regard to the inhuman custom which many people have of carrying live fowl by the feet and having their heads dangling and striking the pavements, while the birds are squawking painfully. Several cases of this type are to be seen daily on the streets.

Another custom is the boxing of fowl in airtight cases at the market and at the stations. The society are going to, and all citizens who have sympathy for dumb creatures, should work for the suppression of this inhuman traffic.

Insanitary Fountains.  
The insanitary condition of many of the city drinking fountains had been reported to the city council, with the result that these had received attention and have been cleaned.

A motion was carried that a communication be sent to the city council with the view of passing legislation to enforce livermen to number their vehicles similar to that of automobiles, so that when unusual cases of cruelty arose the culprits could be traced by taking the number of the rig.

It is the intention of the ladies of the society to erect a tent and serve refreshments at the Western Fair in the fall.

This method of procuring funds to carry on the work of the society met with the general approval of the members. Another tent will also probably be erected to serve as a field hospital where first aid to the injured will be administered.

Alleged Horse-Killers.  
The case of the four alleged "horse-killers," viz., Brooks, Walsh, Pyman, and Bragg, is at a standstill, owing to the disappearance of Brooks, Pyman, and Bragg. They have left suddenly for parts unknown, it is said, and the police have been unable to locate them. Walsh alone is in the city under arrest, but has his liberty for \$100 bail. It is believed that the three deserters are in the States.

The treasurer, Mr. Whitman, reported the amount of funds on hand to be \$144. The Local Council of Women donated \$10 of this amount. Later in the season the society purpose publishing in the local papers the names and amounts of those contributing.

## BEN TILLET FEARS BRITISH "BREADNOTS"

Says They Are More To Be Feared Than Dreadnoughts of the Kaiser.

[Canadian Press.]  
New York, July 26.—A special cable from London, printed here this afternoon, says: "German Dreadnoughts are less to be feared than British bread-nots," shouted Ben Tillet to a throng of striking dock workers on Tower Hill today. In his speech he exhorted the Government for spending money on battleships, while English workmen and their families were starving. From the crowd someone reminded the speaker that there had been as yet no answer to his prayer for the death of Chairman Lord Devonport, of the port of London authority, whom the strikers believed responsible for the stubbornness with which the employers had held out against them.

"True," agreed Tillet. "I am satisfied now that God does not want Lord Devonport. May the devil take him."

## Old Dutch Cleanser

will clean Pots & Pans Perfectly

Do away with the old-fashioned, arm-tiring method of scraping. Old Dutch Cleanser saves you both labor and time. The fine particles will immediately loosen and remove the grease and the hardest "burnt-in" crusts which soap, soap powder and scouring brick only imperfectly wear off after long, hard scraping. An "all-round" cleanser for every part of the "nest-as-a-gin" house. Strictly hygienic.

Avoid Caustics and Acids
