AN ARMOURY AND GYMNASIUM.

On another page of this paper we publish the announcement that the headquarters of a howitzer battery will be in Campbellton, this battery will drill in the evenings during the winter months so it will be necessary that they should have a place in which to drill. We do not have that place an armory, Campbellton so far has had no need of an armory but now that a battery will be stationed here and the headquarters of the N. B. Signalers has been named as being in Campbellton, we need such a building. Every other town in which there is a military organization has an armory and drill hall; our town could also get one if the proper authorities of this town would work in conjunction with one of the proper authorities of this town, and G. Alder Mowat, O. C. of the Campbellton Signalers, who are doing all they are able to secure such a building. An armory would not only be a valuable addition to our town but all feel sure that it would be used for some other worthy purpose when the militia are not using it. In the summer the troops will entrain for their respective training camps for a few weeks, during that time and for the rest of the summer the armory will not likely be in use. Why should we not ask the permission of the Federal Government for the use of the building as a temporary gymnasium while the militia are not in immediate need of it? This is a suggestion worth thinking about for our town is in sore need of a gymnasium or recreation hall in which the youth of our community can gather and enjoy good clean exercise and fun. To-day the boys are hanging around on the streets, playing ball on the streets, in general putting in all their spare time on the streets. For two months the school will be closed and more boys will of necessity be found on the streets enjoying themselves as much as they can. This street environment is not a particularly helpful one so why should we not place the boys in better and cleaner surroundings. To you, the men of the town, the boys appeal, give them a gymnasium and tomorrow they will do as much for the boys who will then roam the streets. Men the task is yours, do not start it and then leave it to the women to finish as has been done before, but go through with it all by your-elves then when your object is attained you can take the credit with a clear conscience.

THE HEAVYWEIGHT CHAMPIONSHIP

Dempsey and Carpenter Meet
On July 2nd.—Previous Contests.

New York, June 11.—The third bout for the world's heavyweight championship under go decision rules at a limited number of rounds will be under way when Jack Dempsey and Georges Carpentier square off in the Jersey City ring, July 2. The only previous title contests held under similar conditions were the Willard-Moran 10-round battle at New York, March 25, 1916, and the Willard-Dempsey contest at Toledo, O., July 4, 1919. The first bout went the limit, Willard gaining the popular verdict. At Toledo, Dempsey knocked out his ponderous opponent in the third of the scheduled 12-round bout.

Modern ring history in the heavyweight division is considered to have begun when John L. Sullivan knocked out Paddy Ryan in nine rounds at Mississippi City, Miss., Feb. 7, 1882. Including that contest and the one in which Marvin Hart defeated Jack Root to gain the title relinquished by Jim Jeffries, there have been 24 championship bouts. The longest was that in which John L. Sullivan knocked out Jake Kilrain in 75 rounds at Rensselaer, N. Y., the shortest that in which Tommy Burns stopped Bill Squires in one round at Colma, Cal., July 4, 1907.

By the average duration of these championship contests, which is a trifle under 15 rounds, Dempsey and Carpenter, scheduled for only 12 sessions, would seem likely to go the prescribed route. The length of the Sullivan-Kilrain duel however, stretches this average and examination of the records shows that 11 of the 23 battles have stopped short of the 12-round mark, while the most recent championship fight, in New York last December ended with the knockout of Bill Brennan by Dempsey in the twelfth round.

Persons who wager on an official result in the Jersey City bout, can win or lose in two events, a knockout or a disqualification on a foul. To make possible a clean-cut decision, it has been suggested that promoter "Tex" Richard appoint three judges who shall sit at the ringside and announce a verdict after returning to New York following the bout.

A list of the heavyweight championship bouts beginning with Sullivan's defeat of Ryan in 1882 is appended: 1882, February 7.—John L. Sullivan knocked out Paddy Ryan in nine rounds at Mississippi City, Miss. 1889, July 8.—John L. Sullivan knocked out Jake Kilrain in 75 rounds at Rensselaer, N. Y. In last championship bout with bare knuckles. 1892, September 7.—James J. Corbett knocked out John L. Sullivan in 12 rounds at Carson City, Nev. 1894, January 25.—James J. Corbett stopped Charley Mitchell in three rounds at Jacksonville, Fla. 1897, March 17.—Bob Fitzsimmons stopped James J. Corbett in 14 rounds at Carson City, Nev. 1899, June 9.—James J. Jeffries stopped Bob Fitzsimmons in 11 rounds at Coney Island. 1899, Nov. 3.—James J. Jeffries de-

Sun Dance Lodge at Toronto

Toronto can always count on the C.P.R. to provide a unique and attractive exhibit for the tourists looking for the grandeur of Lake Louise from almost any spot behind the Chateau with a glimpse of the wonderful lake and gigantic glacier and mountains in the rear. The Victoria Glacier which forms the background feeds the lake which is shown by real water, while the towering peaks of Mount Lefroy and Mount Aberdeen are observed in the distance. The frieze of Indian decorations and the magnificent transparencies lend a perfect finish to the whole Sun Dance Lodge effect. The remaining sides of the "Lodge" are of typical white birch interspersed with speckling of real Indian mats made from cedar bark, and there are many reproductions in miniature of the famous Totem poles from Alert Bay. There is also on exhibition a very valuable collection of Indian relics from the West Coast, all of which are original, and many over a hundred years old. They include eating and cooking utensils made of wood and whalebone, bows and arrows, cedars and tomahawks, cedar chests, and many Indian ornaments. The illustration effect is perfect comprising eight five hundred feet long. The panorama was executed by Mr. Hal Ross Perrier, assisted by Mr. A. Robinson. The decorations by Mr. J. J. Robinson, assisted by Mr. J. J. Robinson. The C.P.R. Exhibit is not only a historical representation, but a beautiful one.

Performance heads the list of essentials of those who actually drive the car. Ruggedness of chassis that spells dependability; engine power and flexibility that result in quick acceleration, plenty of speed and rare pulling and climbing ability—these are inherent in Oldsmobile "Four."

This touring car brings to the family all the comforts of a very high grade automobile at a cost that the man of average means can comfortably afford. And the moderate investment price is enhanced by the very low cost of operation.

Ask for a demonstration. I will be pleased to take you for a spin.
