Striking Reception. Camden, N.J., July 30.-Rev. S. W. edifice, he was seized by the nape of the neck, and beaten by members of his own congregation. Rev. Mr. Jordan had been away on a vacation. He telegraphed ahead to the trustees of the church that he would return in time to conduct last evening's services. According to promise he arrived about 8 o'clock. He had hardly reached the altar before he felt a whack is the altar before he felt a whack is described a dull month. The larger shoe factories are pretty busy on fall orders, but leather men report little buying being done. Wool is rather in better request, and some little advance has been established in both foreign and domestic. Dry goods travelers are getting home, and the wholesale warehouses will likely wear a quiet aspect for several weeks; city retain trade is reported almost quieter than usual. the altar before he felt a whack usual. on the back of his head. Anti-Christian Riot in China. Tokyo, July 30.—Another anti-Christian riot has occurred at Ping Yang, a China inland mission station, 33 miles south of Wen-Chow. During the Drasouth of Wen-Chow. During the Dragon Festival two boats ran a race. The defeated crew invited the Taoist priest to explain the cause of their discomfiture, and he discovered an eyeless idol on board the boat. He said the effigy's eyes must have been gouged out by the Christians. A band of roughs proceeded to the residence of a prominent native Christian, and warned him that if the boat was again

warned him that if the boat was again defeated his house would be destroyed. The boat failed to secured first place, and on the 29th the razing of Christian houses and chapels commenced. Throughout the week the work went on in a leisurely kind of fashion, until 20 buildings were in ruins and ashes. Whenever a house stood alone, it was burned; when it adjoined others it was pulled down. News of these dowas pulled down. News of these doings has caused some excitement in Wen-Chow, and there are fears that the city also may become the scene of further outrages.

New York, Aug. 1.—The charges made by Florence H. David, a Montreal speculator, against the brokerage firm of Lamontagne, Clark & Co., were presented to the grand jury to-day, after a delay of a year. David's charges grew out of a stock deal with the brokers. He alleged that he had deposited a large block of stock with the firm as security for margins on stock transactions. He declared that the brokers and him out at a time when brokers sold him out at a time when there should have been a surplus of \$3000, and afterwards watched the market until the stocks had dropped low enough to wipe out his property. When the margins had been wiped out in this way he alleges the firm telegraphed him to put up more margins or the stock would be sold out. The stock involved was \$7000 worth of Canadian Pacific. Mr. Nichol said today that the case was simply an ordinary commercial transaction in Wall-street.

Lady Somerset and Her Estate Hotel. London, Aug. 1.—In the Chancery Court this afternoon Justice Chitty de-Court this afternoon Justice Chitty decided a case against Lady Henry Somerset, who sought to refuse the renewal of a license for the sale of liquor in a hotel situated upon herestate in Relgate. The justice informed the lady that she must not allow her personal opinions to affect her actions in her fiduciary capacity, she merely holding her estate as a tenant for life, and decided that the license should be renewed. Inasmuch, however, as she had acted in good faith, the court would allow her costs.

TRADE IN CANADA.

A Quiet Week in Merchandise at Both Montreal and Toronto.

The Daily Bulletin (R. G. Dun & The trade situation in Toronto is unchanged. Orders are slow in whole-sale departments, and in fact the busi-ness in dry goods for July was much smaller than the previous month. Resmaller than the previous month. Retail merchants are pursuing a cautious policy in placing orders for the autumn and winter trades. This is being done in face of strong markets for woolens, cottons and silks, dealers apparently preferring to buy when they actually require the goods. Transportation facilities are now so good that this system of doing business can be done advantageously, and stocks are kept down to a low point. In hardware a fair trade is reported, and the demand good for harvesting implements. The fruit season has naturally increased the demand for sugars, which sell more fruit season has naturally increased the demand for sugars, which sell more freely. The recent rains have benefited the spring grains, vegetables and grazing. The outlook is fairly satisfactory. The first load of new red winter wheat sold on the Toronto market yesterday at 75 cents. If this price is maintained farmers will do much better than last season. The outlook better than last season. The outlook in Manitoba continues highly favor-able for crops, which are early and large yields. Business with that pro-

vince will consequently be increased the coming season.

The crop conditions in the Montreal district have been very materially im-proved by the rain which has fallen on Camden, N.J., July 30.—Rev. S. W.
