Declarations taken before Clerk.

Francis Parker sworn said, I own e 1/2, 7, and w 1/2, con. 12. I think provision for an outlet for water from my lot is sufficient. Small drains will carry water into present drains. New drain will be expensive owing to deep cuttings. Reductions should be placed on lots 4 5. My main objection to drain is its crossing 67 sideroad.

Chester Corestine, sworn said, I own w 1/2, con. 12. I object to drain crossing 6-7 sideroad. Drain may be some benefit to my lot.

Jaas H. Parker, sworn said, I own s 1/2, 6, con. 12. Ditch on 67 sideroad is sufficient. I am assessed too high.

John Shirley, sworn said, I own lot 9, con. 12. Ditch on 67 sideroad should be paid for the McEachern drain if this is gone on with.

FORGOTTEN STRAY—Just as man was congratulating himself on the chance he had to save money, because of the sleeveless gown woman was adopting, a jar struck him in the region of the pocket-book in the form of a notice that long gloves, which cost more than sleeves, would take their place.

HERE are some seasonal hints:—Paint your store front, or residence or fence if it needs it. Destroy the young weeds that are starting on your property, take the dandelions out of your garden; don't spit on the walk or throw paper on the streets; irrespective of the size of your house make your lawn the finest on the street. Every effort put forth or dollar spent to improve our town's appearance will be returned two fold.

A LAWSUIT of some local interest came off at Theford on Tuesday last between Mr. Ed. Clark of Port Frank and Dr. Clerk of Theford. Mr. Clark had a sick calf, a thoroughbred Hereford, valued by him at \$100. He procured a prescription for it from Dr. McLeish of Parkhill, but took the prescription to Dr. Clerk to be filled. By some mistake the Dr. gave him the wrong medicine, and as a consequence the animal died. Mr. Clark then entered an action against Dr. Clerk for the value of the calf and as a result of the trial the Dr. had to pay \$40.00 and costs.

LILLIAN, daughter of Mr. and Mrs. Thas. Benstead, Metcalfe St., Stratford, received a severe shock during the progress of the electrical storm Tuesday evening last. She had just gone into the house from the verandah, when a current of electricity attracted, it is believed, by the telephone wire, fell her to the floor. The young lady, altho not seriously injured, was unconscious for more than an hour, she has since greatly recovered from the shock.

A WIDE SPHERE OF USEFULNESS.—The consumption of Dr. Thomas' Electric Oil has grown to great proportions. No neighborhood in the world has not been on the market for over thirty-one years, its prosperity is as great as ever, and the demand for it in that period has very greatly increased. It is beneficial in all cases, and wherever introduced fresh supplies are constantly asked for.

FRAUDS ON FARMERS.

Arthur Smith, of Beachville, Arrested

Woodstock despatch: Last night high County Constable Boyle, of St. Catharines, and County Constable Hill, of this city, arrested Arthur Smith, of Hillcrest Farm, Beachville, upon the charge of obtaining money under false pretences with intent to defraud. The arrest was made at the instigation of E. G. Hull & Sons, nurserymen, of St. Catharines, who claim that they sent money to Smith Bros., Beachville, for a shipment of seed potatoes which were never forwarded. Smith was taken to St. Catharines this morning.

The arrest discloses a strange story. The first National Co-operative Society of Woodstock has spread advertisements broadcast, advertising everything you eat, or wear at wholesale prices. Circulars were issued, and they led directly to Smith's arrest. The public bill, and postal notes and bank drafts have been coming to the Post Office here. There were no offices of the society here, nor was it known, and many of the letters were sent to the dead letter office. Others, however, found their way to Smith.

His mails were used extensively, and a Post Office official was sent to investigate. The case was worked up, but for some reason the society was not prosecuted. The dues of the society were chiefly farmers.

The advertisements were one of seed potatoes that sold at \$700 a ton. No arrests were made until last night, when the county officers went to Beachville. An examination of the premises of the prisoner revealed nothing of the advertised goods except a few strawberry plants.

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Quebec and One in Beauport, Que

All women work; some in their homes, some in church, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties in many cases, quickly drifts them into the horrors of all kinds of female complaints, tumors, ulceration, falling and displacements or perhaps irregularity or suppression, causing backache, nervousness, irritability and insatiable.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand up, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Mlle. Alma Robitaille, of 78 rue St. Francois, Quebec, Que., tells us how she was to avoid such suffering; she writes: Dear Mrs. Pinkham—

"Overwork and long hours at the office together with a neglected cold, brought on a very serious female trouble until finally I was unable to go to work. I then thought of a friend who had taken Lydia E. Pinkham's Vegetable Compound for her head aches, and straightway sent out for a bottle I finished that and took two more before I really began to improve, but after that my

recovery was very rapid, and I was soon well and able to go back to work again. I certainly think your medicine for sick women worthy of praise, and an indeed glad to indorse it."

Mrs. Clara Beaubien of Beauport, Quebec, writes:

Dear Mrs. Pinkham—

For several years I have suffered with female trouble which has been a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was very much better and stronger, and in four months I was well, no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it without equal for the ills of women.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles, and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing-down pains, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled, and it will make you strong and well.

You can tell the story of your sufferings to a woman, and receive helpful advice free of cost. Address Mrs. Pinkham, Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for twenty-five years she has, under her direction and since her decease, been advising sick women free of charge.
