THE BEEKEEPERS' REVIEW

would like very much to enroll a goodly number of new subscribers for the year 1914. Listen! Besides the 3,000 colony series managed from one office, we will begin with the January number of the REVIEW a series of articles by a beekeeper "grey with experience" that we will call the Farmers' Series; or, How to Produce Comb Honey with Two Visits a Year. The editor of the REVIEW has looked into this system quite thoroughly, and believes that, with this method that will be described in the REVIEW during 1914, the busy man or farmer can harvest much more comb honey per colony, with about a fourth the work that is required with the ordinary system now in vogue. We are printing 400 extra sets of the REVIEW for the last half of 1913; and as long as they last they will be included free to all new paid-in-advance subscribers for 1914. All progressive beekeepers should subscribe for two or three good bee journals. We are making a special low price on the REVIEW when clubbed with other bee journals.

To take advantage of this low price all remittances should be addressed—

here is a { GLEANINGS, one year, \$1.00 } Both, one year, for \$1.50
good one: { The REVIEW, one year, \$1.00 }
Here { GLEANINGS, one year, \$1.00 } All Three for \$2.00
is an { AMER. BEE JOURNAL, 1 yr., \$1.00 }
other: { The REVIEW, one year, \$1.00 }
Extra for Canadian postage. Gleanings, 30c. American Bee Journal, 10c.
All three listed above 40c.
