## THE JENCKES MACHINE CO., LIMITED.

Write for Catalogue.

¶ The cut to the left shows our Bacon's "Special Cableway" Hoist, designed especially for work in open Mines and Quarries.

¶ We firmly believe it to be the finest Hoist on the market for this service.

¶ The larger drum is for handling the load. The smaller concave drum alongside it is for returning the cable carriage to any desired point.

¶ Engine is fitted with Link Motion; both drums are of the friction type and have powerful brakes as well. Operating levers are grouped in a quadrant.

¶ The strong points of this Hoist are beauty of design, ease of operation and the rapid handling of a heavy load.

Head Office and Works: 56 Lansdowne St., SHERBROOKE, Que.
