

*Hadena cogitata*, Smith.—June ; a few at sugar most years.

*Hadena lona*, Strecker (*runata*, Smith).—July ; a few at sugar. Winnipeg at end of June ; a few at light (Hanham).

*Hadena ferens*, Smith.—August ; at sugar, one only taken in 1903.

*Hadena adnixa*, Grote.—August ; at sugar, one only taken in 1903.

*Hadena claudens*, Walk.—August ; a few at sugar.

*Hadena allecto*, Smith.—Kinosota (Hutchinson) ; also taken in British Columbia and Dakota.

*Adita chionanthi*, Sm. and Abb.—Several at sugar ; August, 1900 and 1901.

*Rhynchagrotis gilvipennis*, Grote. This was previously reported under the name *chardinyi*, Boisd.

*Euretagrotis sigmoides*, Guén.—Not infrequently at sugar in July.

*Euretagrotis attentata*, Grote.—With the preceding species.

*Noctua rosaria*, Grote.—Previously recorded as *rubifera*, Grote. It is generally abundant both at light and sugar during June and July, whereas *rubifera* is scarce here, one only having been identified in my collection by Dr. Smith.

*Noctua inopinatus*, Smith.—One only recognized so far.

*Chorizagrotis soror*, Smith.—One taken at sugar or "honey-dew" on black cherry with others of the genus ; in June.

*Chorizagrotis auxiliaris*, Grote.—Several at sugar and honey-dew in June.

*Chorizagrotis agrestis*.—With the preceding species.

*Chorizagrotis balanitis*, Grote.—One taken at sugar, July 8, 1903.

*Euxoa maimes*, Smith.—Two taken at light with *divergens* in May ; the two species have previously been confused. Brandon (Hanham).

*Euxoa citricolor*, Grote.—One at sugar, Sept. 29, 1903.

*Euxoa acornis*, Smith.—Occasionally at sugar in July.

*Euxoa fuscigera*, Grote.—Several at sugar, July and August, 1903.

*Euxoa intrita*, Morr.—Found among some duplicates, date wanting.

*Euxoa titubatis*, Smith.—A few at sugar in July.

*Euxoa verticalis*, Grote.—A few at sugar in July.

*Euxoa albipennis*, Grote.—A few at sugar in July.

*Euxoa furtivus*, Smith.—A few at sugar, July and August.

*Euxoa perexcellens*, Grote.—Occasionally at sugar with *insulsa*.

*Euxoa abar*, Strecker.—One at sugar, Sept., 1903.

*Euxoa nordica*, Smith.—Occasionally at sugar, June and July.
