ADDITIONS TO THE LIBRARY.

The Librarian of the Entomological Society of Ontario has much pleasure in acknowledging the receipt of the following publications, a present from the Trustees of the British Museum, London, England: "Monograph of the Culicidæ of the World," by F. V. Theobald, Vols. 3 and 5; "Synonymic Catalogue of Orthoptera," by W. F. Kirby, Vol. III; "Illustrations of Lepidoptera," Parts 6 to 9, 4 vols., quarto, illustrated with beautiful coloured plates.

These books form a very welcome addition to the library.

M. PAUL NOEL, Directeur du Laboratoire Regional, d'Entomologie Agricole de la Seine-Inferieure, Route de Neufchatel, 41, Rouen, France, desiring to publish a work on the properties which certain female insects possess of being able to attract the males from a great distance, will be very grateful to entomologists who would be willing to give him any well-authenticated facts relating to this attraction. He would send in return some of his entomological publications and the work in question immediately after it is printed.
