

Amatite ROOFING

**"THIS IS THE
ROOFING THAT
NEEDS NO PAINTING"**

Frequently the cost of painting a roofing amounts to almost enough to buy a new Amatite Roof.

Amatite can be laid right over shingles, tin or other ready roofings. The directions hold good for laying Amatite anywhere and over anything, and are as simple as A B C.

Cresonoid

and Durosewer
Cresonoid gives more milk if sprayed with water than other roofings. The quality of the material is made obvious to the layman by diffusion with Cresonoid.

A MATITE means more to the man who needs a roofing than just merely something to put on the top of a building.

It means a thoroughly satisfactory and reliable roof covering, without future expense for painting—because the *real mineral surface* makes painting unnecessary.

Everjet Elastic Paint

A very tough, durable paint at a low price. One color only—black. Use it for machinery, hoists, apparatus, substations, roofs, fences, water tanks, etc.
