

existing ministers, so that regulations, suggestions and correspondence on such health matters as fall within the jurisdiction of the Federal Government, may be issued with the authority of a Department of Public Health.

*That* copies of this Resolution be sent by the General Secretary to the Governor-General in Council and to the Honourable the Minister of Agriculture."

Treasurer's Report:—Dr. H. B. Small, presented his report. 317 members had been in attendance, nearly 100 larger than any other previous meeting. All outstanding indebtedness had been paid and there was in the Treasury \$325.00 to the good of the Association.

Votes of thanks, were passed to Mr. and Mrs. James Ross of Montreal, in whose handsome grounds had been tendered a garden party on the afternoon of the first day; to the Local Committee and Transportation Committee, special reference being made to Drs. C. F. Martin and J. Alex. Hutchison, for their indefatigable efforts for the success of the meeting; to the Treasurer; to the President, and the profession generally for their hospitality. Thus was closed the greatest meeting of the 35 years of the Association, and it is to be hoped that the profession throughout Canada will still further take an active interest in this their national association.

## TWO OLD FRIENDS.

We have received some Five-Grain Antikamnia Tablets, and also tablets of this drug combined with Codeine. Antikamnia, as its name implies, is an analgesic and anodyne and it has gained much favour in the United States both for this and its antipyretic action. It has been proven not to depress the heart, after the manner of many other coal-tar preparations. Each Antikamnia Tablet contains 5 grs. of the drug (the usual dose), which can be repeated every fifteen or twenty minutes, until three or four doses have been taken. Antikamnia & Codeine Tablets consist of  $4\frac{1}{2}$  grs. of Antikamnia and  $\frac{1}{4}$  gr. of Codeine and have been especially brought forward for the treatment of pain where spasm or physical causes of irritation exist. Neuroses due to suppressed or irregular menses, particularly during the menopause, seem more amenable to this combination than to Antikamnia alone. Antikamnia & Codeine Tablets are especially indicated in membranous affections of the lungs, throat and bronchii. Both tablets merit a trial in neuralgia and spasmodic ailments and as their freedom from injurious action upon the heart and circulation is invariable, they will certainly continue to be received by the profession with favour.—*Edinburg Medical Journal*.
