

ADVERTISEMENTS.

Professor A. L. Loomis, of the Medical Department of the University of New York, says:—"I prescribe Raw Food Bovinine, and prefer it to any similar preparation."

Drs. Ward and Smith, of the Hospital of St. Barnabas, in Newark, declare that "The Bovinine was taken and retained by stomachs which had rejected every other form of nourishment."

Wm. R. Warner & Co., have issued the following notice to Physicians:—

"We take this method of denouncing the circulation of certain erroneous reports, as being the outcome of ignorance or malice.

"We have no connection with the firm of H. H. Warner & Co., of Rochester, who make 'Safe Remedies' and other patent medicines.

"Our advertising, is to the medical profession, and our pills and products (Warner & Co.'s) have been used and held in high esteem by the most eminent doctors, during the past thirty years in the United States, and in foreign countries.

"The therapeutic value of a remedy is ascertained by the medical practitioner, and it is the province of the manufacturing chemist to prepare the various medicinal preparations, in the most correct, compatible, palatable and convenient manner, by the aid of skill acquired by years of practice and experience.

"It seems to be necessary to specify Wm. R. Warner & Co.'s Pills and Bromo Soda with Caffeine to obtain what you want."

THE TREATMENT OF ULCERS.—An article appeared in the *London Medical Record* for December 15, 1887, giving interesting details of the treatment of ulcers by phosphoric acid, as shown by the experience of Dr. Gossich. By his method of treatment, he used a ten per cent. solution of pure phosphoric acid in distilled water. The ulcer is covered with a bit of lint dipped in this solution, and the dressing renewed three or four times a day. The patient, for the first few minutes, feels a slight burning sensation, but this soon passes, and within twenty-four or thirty-six hours, the ulcer cleans, and looks better. Inflammation or ec-

zema of the surrounding parts disappears, and pruritus ceases. The ulcer cicatrizes rapidly, and the cicatrix is firm and healthy.

Kollischer treated tubercular affections of the joints with injections of the phosphate of lime, with great success. Dr. Gossich has also had good results with this treatment, and cites some very interesting successful cases.

The above suggests the superiority of Horsford's Acid Phosphate as a substitute for the phosphoric acid.

The effective acidity of this preparation is about the same as the ten per cent. solution of phosphoric acid which is prescribed in the above treatment, and it may therefore be justifiably employed by the profession in the treatment of disorders of this character. It has the advantage of containing the phosphates in solution, notably the phosphate of lime. It follows, then, that all cases that require the phosphoric acid treatment can be more advantageously treated by Horsford's Acid Phosphate, and the suggestion is hereby commended to the profession.

Births, Marriages, and Deaths.

BIRTH.

WRIGHT—At Toronto, on 11th of June, the wife of Dr. Adam Wright, of a son.

MARRIAGES.

DUNCAN—FERGUSON—On Wednesday, June 6th, 1888, at the residence of the bride's father, Thamesville, by the Rev. J. Becker, James Henry Duncan, M.B., of Chatham, to Miss Margaret Helen, eldest daughter of James Ferguson, Esq.

MCLAUCHLIN—HURST—On June 6th, 1888, at All Saints' Church, Toronto, by Rev. A. H. Baldwin, Annie Louise, fourth daughter of the late James Hurst, Cambridgeshire, Eng., to Donald McLaughlin, M.D.C.M., of Charlottetown, P.E.I.

WATSON—WILLOUGHBY—On Wednesday, May 30th, 1888, at the Methodist Church, Port Perry, by the father of the bride, assisted by Revs. J. W. Holmes, J. W. Totten, and W. H. Laird, uncles of the bride, Kells Kathleen Isabel Willoughby, B.A., only daughter of Rev. N. R. Willoughby, M.A., Port Perry, Ont., to George R. Watson, B.A., Ph.D., M.D., of Wellington, Ont.
