ELECTRICITY! THOMAS EXCELSION EC LECTRIC OIL !-WORTH TEX TIMES ITS WEIGHT IN GOLD.-Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore threat. One bottle has cured bronchitis. Fifty cent's worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years standing. The following are extracts from a few of themany letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical: J. Collerd of Sparta, Ontario, writes, "Send me 6 doz. Dr. Thomas' Eclectric Oil, have soid all I had from a collection of the from you and want more now; its cures are truly wonderful." Wm. Maguire, of Franklin, writes, "I have sold all the Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 doz. Thomas' Eclectric Oil, I am nearly out, nothing equals it. It is highly re-commended by those who have used it. J. Bedford, Thamesville, writes—"Send at once a further supply of Eclectric Oil, I have only 1 bottle loft. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodward, ung sell so well and give such general satisfaction." J. Thompson, Woodward, writes—"Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton. P. Q., writes—"The Eclectric Oil is getting a great reputation here, and is daily called for. Send its nurther supply wit out delay." Lemoyne, Gibb & Co., Buckingham, P. A REPRESENTATIVE & CHAMPION OF AMERICAN ART TASTE!

Prospectus for 1875-Eighth Year.

THE ALDINE,

The ART JOURNAL of America ISSUED MONTHLY.

"A Magnificent Conception Wonderfully carried out."

"A Magnificent Conception Wonderfully carried out."

The necessity of a popular medium for the representation of the productions of our great artists has always been recognized, and many attempts have been imade to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art, ournal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once railed with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has hone of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscollancy of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and boatty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class. "HE ALDINE is a unique and original conception—alona and unapproached—absolutely withou competition in price or character. The possessor of a complete volume can not duplicate the quantity of sine paper and engrevings in any other shape or number of volumes for its intest its cost; and then, there is the chromo, besides!

The hational feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan While THE ALDINE is a strictly American institution, it does not comine itself entirely to the reproduction of native art. Its infession is to cultivate a bread and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE is a production of the most noted American artists, attention will always be given to specimens from for sig more approp. late to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspersion of landscape, marine, figure, and animal subjects, sustain an unabated interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of the ALDINK is a light and graceful accompaniment, worthy of the artist features, with only such technical disquisitions as do not interfero with the popular interest of the work

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAY ON FADED HAIR to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the BEST PREPARATION for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commendatory notices from the rgymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best Medical and Chemical Authority.

Cough, Bronchitts, Asthma, and Consumption.

Among the great discovenies of modorn science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizons, of all classes, establishes the fact, that Cherner Pretonal, will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumpsition, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep 1 on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tonder lungs need this defence; and it is unwho to be without it. As a safeguard to children, amild the distressing diseases which best the Throat and Chost of childhood, Cherier Pectronat. Is invaluable; for, by its timely use, multi-tudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Brouchitiss, when they know how easily they can be cured.
