

BENGER'S

*Let me tell you
about Benger's Food
for Invalids*

In times of sickness and ill-health, the natural digestive organs are nearly always deranged, consequently the digestive functions become entirely inadequate.

Failure to digest any food taken into the stomach means failure to supply nourishment when it is most required.

On the other hand, if the digestive system can do any work, it should be given work to the extent of its power, then as strength increases, the digestive organs regain their activity.

The great advantage of Benger's Food is that it can be prepared to give either a carefully regulated exercise of digestion, or almost complete rest, according to the condition of the patient.

Benger's prepared with milk is a complete Food in the form of a dainty and delicious cream, rich in all the elements necessary to sustain life. It is well known to medical men and is approved by them. There is no real substitute for it.

Benger's Food is sold in Tins, and can be obtained through most wholesale druggists and leading drug stores.

Manufacturers:—
