Mercantile Summary.

A NUMBER of the notes of the Bank of Prince Edward Island, which failed some years ago, are still in circulation, so says the *Moncton, N.B., Times*.

The long-established firm of S. R. Foster & Son, manufacturers of wire and steel nails, tacks, etc., St. John, N.B., has recently introduced some new machinery, notably Miller's torpedo nail picker, of which several will be put in this autumn.

Among the private bills to be brought in next session is one to authorize the deal whereby the Windsor and Annapolis Railway Company acquired control of the Yarmouth & Annapolis road. The company also desires to change the name of the amalgamated road and increase the share capital to \$2,000,000.

A MAN in Knowlton, Que., writing to the *St. John's News*, says: "Why not form an association for the improvement of the roads in this county? It is better high roads rather than more railways that this country needs. The labors of the farmer would be lightened and his profits increased if we had such public thoroughfares as they have in France or Belgium, or even in England."
