in all grades.

MOLDS FOR CASTING

## Waterproof Hollow Cement Building Blocks

WITH GRANITE FACES

*They cost less*

*They sell for more*

*You sell more of them*

By a new process, which protects the facing, while the block is being cast we eliminate all traces of cement from the face of block, and nothing but the GENUINE GRANITE SHOWS IN ALL ITS SPARKLING BEAUTY.

These cuts show blocks just as they came from the molds; they are not treated with acid or scrubbed with brush, or sprayed.

We challenge the whole world to show us a cement block made by any other system, at any cost, that equals these blocks for beauty,

THE MOLDS.

THE PRODUCT.

strength, quality or imperviousness to heat, cold or moisture.

Send us fifty cents and we will send, freight prepaid, to any point in Canada, one of our granite-faced blocks. YOU WILL SAY WHEN YOU GET IT THAT YOU NEVER SAW A CEMENT BLOCK BEFORE.

They are positively cheaper to make than the ordinary dry-tamp, sand-faced block.

Send for catalog fully describing our system and showing our multiple molds mounted on trucks, for casting hollow cement building blocks.
